**Subject:** RE: Consultation on the Introduction of a Closing Auction Session

After discussing with my colleagues, we have the following questions and comments:

1. Does this closing auction session apply to warrants?
2. we would like to have the order input period only (like Korea) from 16:00 to 16:10 so that we can modify or cancel at any time
3. we would like to know the size of the auction order during the order input period

Cheers,  
Kent
