Dear Sirs,

FEE ADJUSTMENT DUE TO ANOTHER ELECTRICITY COST INCREASE

We are proud of our record in achieving 100 per cent service availability in power, cooling and HKEx markets connectivity since our launch in 2012. They are major components of Hosting Services and readily available power supply is a key deliverable for us.

When CLP Power Hong Kong Limited (CLP) increased its tariff by 5.9% on 1 January 2013, we absorbed the cost to help you keep your operating costs down.

CLP increased its average net tariff by a further 3.9% effective 1 January 2014, bringing its cumulative tariff increase to 9.8% since our service launch.

To ensure we can continue delivering the same industry-leading service level, we have to adjust the Monthly Recurrent Fee for Rack and Power services this year.

Pursuant to Clause 12.9 of the Hosting Services Subscription Agreement, effective 1 April 2014 service fees for rack and power shall be adjusted by around 3.9% as set out in Table 1 below. The adjustment will be reflected in your April Demand Note.

Table 1
