Checklist for Exchange Participants – Genium INET Platform Rollout

Items to be checked	√
(A) Before the Rollout	
1. Keep the Genium network gateway powered up before 5 October 2013 and keep it until production rollout.	
(B) Password Verification Session (Saturday, 5 October 2013)	
1. *For CLICK users:* Login to Genium INET Platform with CLICK Trade (v.1.14.4.43). Use the username and password as at 8 August 2013, and set a new password for Genium rollout, if applicable.	
2. *For OAPI users:* Use the OAPI programs that have passed the certification test for Genium INET Platform Central Gateway ("CG") connection(s): Use newly assigned username and the password to be issued by the Exchange in late September. Network Gateway ("NG") connection(s): Use the username and password as at 8 August 2013, and set a new password for Genium rollout, if applicable.	
3. Try the Central Gateway and Network Gateway connections (if applicable) to prepare for the Post Release Test on 13 October 2013.	
(C) Post Release Test (Sunday, 13 October 2013)	
1. *For CLICK users:* Login to Genium INET Platform with CLICK Trade (v.1.14.4.43). Use the username and password as at day-end of 8 August 2013 or the password changed in the Password Verification Session on 5 October 2013.	
2. *For CLICK users:* Set up your Preferences window in CLICK Trade (v.1.14.4.43) for production use on 15 October 2013	
3. *For CLICK users:* Customize your user profiles for CLICK Trade (v.1.14.4.43) for production use on 15 October 2013	
4. *For OAPI users:* Use the OAPI programs that have passed the certification test for Genium INET Platform	
5. *For OAPI users:* Configure your OAPI programs with appropriate parameter values for connection(s) to Central Gateway ("CG") and/or Network Gateway ("NG") for Genium INET Platform rollout.	
6. Central Gateway ("CG") connection(s): Use newly assigned username and the password to be issued by the Exchange in late September.	

Items to be checked	√
