Trading Arrangements

The trading arrangements for the existing SMIC stock futures under trading symbol SMC will be as follows:

1. Adjustment and Transfer of Outstanding Positions

Open positions of SMIC stock futures series under trading symbol SMC which exist after market close on the business day immediately before the Effective Date will be adjusted and transferred to stock futures series under trading symbol SMA.

2. Introduction of New Stock Futures Series for Trading

On the Effective Date, new SMIC stock futures series with Contract Multiplier of 5,000² shares will be introduced for trading under the standard trading symbol SMC.

Details of the adjustment procedures for SMIC stock futures series under trading symbol SMC are as follows:

| Adjustment Term | Formula | Remarks |
|-------------------------------------------|---------------------------------------------------------------------------------|-----------------------------------------|
| Adjustment Ratio (AR) | 10 Shares / 1 Consolidated Share = 10.0000 | Rounded to the nearest 4 decimal places |
| Adjusted Contracted Price (ACP) | Contracted price of outstanding stock futures series x AR | Rounded to the nearest 2 decimal places |
| Adjusted Contract Multiplier (ACM) | Contracted price of outstanding stock futures series x (50,000 shares / ACP) | Rounded to the nearest 4 decimal places |

| Contract | Trading Symbol | Contract Multiplier (Shares) | Availability For Trading | Addition of New Stock Futures Series on and after the Effective Date |
|----------|----------------|------------------------------|-------------------------------------|----------------------------------------------------------------------|
| Adjusted | SMA | ACM | From Effective Date to 29 June 2017 | No |
| Standard | SMC | 5,000 | From Effective Date onwards | Yes |

² The contract multiplier of SMIC stock futures contracts will be changed from the existing 50,000 Shares to 5,000 Shares

The adjusted and standard stock futures series are distinct contracts and are represented by different trading symbols in HKATS/DCASS. Particulars of all existing and adjusted stock futures series will be shown in DCASS report TP011 after the DCASS batch processing on the business day immediately before the Effective Date.

Capital adjustments, once made, are conclusive and binding on all relevant stock futures contracts. The capital adjustments made will not be reversed even if the proposed corporate action is subsequently disapproved by relevant authorities, including but not limited to regulatory authorities and the Court.

Participants should pay particular attention that the settlement amount of adjusted and standard stock futures series on the expiry day will be calculated using their respective contract multipliers. There will not be any changes to the number of open positions and other contract terms after the transfer of positions.

Clearing and Settlement Arrangements

Position offset between the standard SMC and the adjusted SMA stock futures series is not allowed.

Inform Your Staff and Clients

Participants should notify all clients holding positions in the captioned stock futures contracts the details of trading and clearing operational arrangements and the associated risk. Please ensure that your back office systems are ready for a smooth operation in handling this capital adjustment. In addition, all your staff should be fully aware of the trading and clearing arrangements, and should exercise caution when dealing with the standard and adjusted stock futures contracts and when advising your clients.
