Trading Arrangements

The trading arrangements for the existing Henderson Land stock options under trading symbols HLD and HLA will be as follows:

1. Adjustment and Transfer of Outstanding Positions

Open positions of Henderson Land stock option series under trading symbols HLD and HLA which exist after the market close on the business day immediately before the ex-date will be adjusted and transferred to stock option series under trading symbols HLB and HLC respectively.

2. Introduction of New Stock Option Series for Trading

On the ex-date, new Henderson Land stock option series based on the standard contract size will be introduced for trading under the standard trading symbol HLD.

Details of the adjustment procedures for Henderson Land stock option series under trading symbol HLD are as follows:

Adjustment Term	Formula	Remarks
Adjustment Ratio (AR)	10 shares / (10 shares + 1 bonus share) = 0.9091	Rounded to the nearest 4 decimal places
Adjusted Exercise Price (AEP)	Exercise price of outstanding stock option series x AR	Rounded to the nearest 2 decimal places
Adjusted Contract Size (ACS)	Exercise price of outstanding stock option series x (1,000 shares / AEP)	Rounded to the nearest 4 decimal places

Contract	Trading Symbol	Contract Size (Shares)	Availability For Trading	Addition of New Stock Option Series on and after the ex-date

For stock options of Henderson Land under trading symbols HLD, HLB and HLC, the trading fee level shall be Tier 1 and the position limit shall be 50,000 contracts combined.

The adjusted and standard stock option series are distinct contracts and are represented by different trading symbols in HKATS/DCASS. Particulars of all existing and adjusted stock option series will be shown in DCASS report TP011 after the DCASS batch processing on the business day immediately before the ex-date day.

Capital adjustments, once being made, are conclusive and binding on all relevant stock option contracts. The capital adjustments made will not be reversed even if the proposed corporate action is subsequently disapproved by relevant authorities, including but not limited to regulatory authorities and the court.

Participants should pay particular attention that the settlement amount of adjusted and standard stock option series on the expiry day will be calculated using their respective contract sizes. There will not be any changes to the number of open positions and other contract terms after the transfer of positions.

^{Note 2} ACS* as per the contract sizes stated in the comparative table of strike prices in the circular issued on 3 June 2016, please refer to the hyperlink below:

Clearing and Settlement Arrangements

Position offset among the standard HLD, the adjusted HLB and HLC stock option series is not allowed.

For clearing and settlement arrangements relating to shares collateral and exercise / assignment of adjusted stock option class, please refer to the Attachment for details.

Inform Your Staff and Clients

Participants should notify all clients holding positions in the captioned stock option contracts the details of trading and clearing operational arrangements and the associated risk. Please ensure that your back office systems are ready for a smooth operation in handling this capital adjustment. In addition, all your staff should be fully aware of the trading and clearing arrangements, and should exercise caution when dealing with the standard and adjusted stock option contracts and when advising your clients.

Clearing and Settlement Arrangements Relating to Shares Collateral and Exercise / Assignment of Adjusted Stock Option Series

Shares Used as Cover Collateral

All covered call positions will be decoupled automatically after the day-end margin calculation on the business day immediately before the ex-date. Participants are requested to cover, if possible, those naked short call positions of the adjusted stock option series before market open of the ex-date. Otherwise, these naked short call positions will become marginable in the subsequent intra-day or day-end margin calculation. Since the contract sizes of the adjusted stock option series will carry odd lots and fractional shares, participants who wish to cover any adjusted stock option series must use the exact odd quantity of stock while standard board lots can only be used to cover the standard stock option series.

Pending Stock Positions

Pending stock positions resulting from exercise / assignment effected on or before the business day immediately before the ex-date will be cum entitlement and settled via CCASS.

Settlement of Exercised Options Trades

The exercise and assignment of contracts in adjusted stock option series will result in odd lots and fractional shares. The integral number of shares (including the odd lots) will be settled via CCASS under normal procedures. The fractional shares of each contract exercised will be settled in cash via CCMS on the day of exercise. The actual cash settlement amount of the fractional shares is the difference between the exercise price of the stock option series and the market closing price of the underlying stock on the day of exercise times the fractional shares quantity for each contract exercised/assigned.

The settlement of fractional shares in cash is not liable to stamp duty provided that the contract notes so executed by the party for the sale and purchase of shares arising from the exercise of an option contract only include the whole number of shares.

Exercise and assignment of standard stock option series will result in stock settlement obligation of a standard board lot of shares per contract and settled in CCASS under normal procedures.
