Subject: Consultation Paper on Proposed Enhancements to the Exchange's Decision-Making and Governance Structure for Listing Regulation

I object the consultation paper because it absolutely failed to explain to the general public and/or professionals in industry:

1. what are the issues facing the current structure in place;
2. the reasonings and logic on the need for making any changes to the current structure;
3. why the proposed structure are better than the current structure;
4. how can the proposed structure achieve the objectives it sets out.

I am of grave concerns that the regulators in Hong Kong can published such a poorly drafted consultation paper which is completely lack of logic and reasoning.
