Dear Sirs,

Dissemination of More Indices via Market Datafeed (“MDF”)

We are pleased to inform you that three new third party indices will be disseminated via MDF 3.8 and MDF* (collectively MDF) starting from mid November 2012 tentatively. Similar to the current arrangement for other indices disseminated via MDF, the three new indices will be transmitted under the Index (“IN”) element.

The three new indices with the index codes CES120, CESA80 and CESH40 are designed to represent the performance of Chinese companies listed on Hong Kong and Mainland stock exchanges. Further details will be provided in due course.

A Market Rehearsal (“MR”) is scheduled for 10 November 2012. Direct connection Securities Market Data Vendors are required to participate in the MR to ensure that their systems are capable of handling the new indices provided in the “IN” element.
