Dear Sirs,

**Derivatives Trading via HKEx Service Network (HSN) –
Market Rehearsal for HKATS and DCASS Upgrade to Genium INET Platform**

Reference is made to the circular (ref: DMD/ 122 /13) dated 30 July 2013. Hong Kong Exchanges and Clearing Limited ("HKEx") plans to upgrade the Hong Kong Futures Automated Trading System ("HKATS") and the Derivatives Clearing and Settlement System ("DCASS") from Release 19.1 to Genium INET Platform in the fourth quarter of 2013.

For Exchange Participants ("EPs") going to connect to Genium INET Platform **via HSN in HKEx Hosting Data Centre**, kindly be reminded of the following:

1. In order to facilitate EPs to confirm the readiness of their connection to Genium INET Platform via HSN, EPs are required to use their OMnet Application Programming Interface ("OAPI") programs, new CLICK workstations, Genium Network Gateways ("NG"), and/or Central Gateway ("CG") connections which will connect to Genium INET Platform via HSN to participate in and satisfactorily complete the Market Rehearsals ("MR") to be held by Derivatives Trading on August 24 and August 31. The settings and configurations of the application(s) and trading infrastructure used in the MRs should be retained until the roll-out of Genium INET Platform in Q4 2013.

2. EPs or OAPI programs who failed to participate in and satisfactorily complete the MRs shall not be able to access HKATS in the first two weeks after the rollout of the Genium INET Platform.

3. For the preparation of participation in the MRs, Market Rehearsal Information Packages are available from the HKEx website.

4. EPs are also suggested to refer to Subscriber Notice (HDS/13/0802) dated 12 August 2013 regarding Derivatives Trading via HKEx Service Network ("HSN") – Network Gateway ("NG") Installation Tips. Please refer to Appendix (1) for the Genium NG server IP assignment for HKATS and DCASS in HSN.

Should you have any questions, please feel free to contact Nicole Lam at (852) 2211 6637 or Victor Lam at (852) 2211 6292.
