1.1 Interpretation

These Clearing Procedures form part of the Clearing Rules. The information contained herein must be read in conjunction with the Clearing Rules. Unless otherwise specified, definitions and terminologies set forth in these Clearing Procedures carry the same meanings as defined in the Clearing Rules. All other definitions and terminologies set forth in these Clearing Procedures which are not defined in the Clearing Rules shall have the same meanings as defined herein. The Glossary included at the end of these Clearing Procedures provides the page reference of which each of these terms is defined.

1.2 Amendments

Subject to the SFO and the Articles of Association of OTC Clear:

- (ii) the OTC Clear Board shall have the power to amend, add to, vary or waive any of the remaining Clearing Procedures which are not referred to in sub-paragraph (i) above without first consulting the Risk Management Committee.

Without prejudice to the foregoing, OTC Clear recognizes that circumstances may arise which may require it to make ad hoc or urgent decisions on a case specific basis or where a meeting of the OTC Clear Board and/or the Risk Management Committee cannot be convened in a timely manner. Accordingly, the OTC Clear Board may delegate its powers under sub-paragraphs (i) and (ii) above to the chief executive or such other senior executives of OTC Clear as it considers appropriate provided that in respect of matters referred to in sub-paragraph (i) above, the chairman of the Risk Management Committee shall be consulted before a decision is made.

Membership

2.1 Membership Application Process

2.1.1 Application Form

An Applicant must complete OTC Clear's membership application form (the "**Application Form**"), which can be found on the HKEx website or obtained directly from OTC Clear's office. The Application Form together with the supplementary documents (please see section 2.1.2) should be submitted to OTC Clear for its review.

OTC Clear reserves the right to amend the form of the Application Form from time to time.

For further information, please contact OTC Clear at:

OTCMembership@hkex.com.hk

2.1.2 Document Checklist for Membership Assessment (One-Off)

Each Applicant is required to submit the documents listed in the Application Form to OTC Clear for membership assessment purpose. Applicants should contact OTC Clear at OTCMembership@hkex.com.hk in case of any queries relating to the nature or contents of the documents required to be submitted to OTC Clear for membership assessment purpose.

In respect of any documents to be submitted to OTC Clear that are not written in the English language, Applicants shall provide OTC Clear with copies of English translations for the same, with any translation costs to be borne by the relevant Applicant. All English translation shall be prepared by translators acceptable to OTC Clear and certified by such translators to the effect that the English translation accurately and completely reflects the contents of the document in its original language.

2.1.3 Inspection and Site Visit

An on-site inspection may be required for membership assessment purpose. An on-site inspection will be mandatory for any Applicant that has not been a clearing member of any over-the-counter central clearing counterparty of international repute for a continuous period of 5 years before the date of its application to OTC Clear. Applicants should make themselves available for inspection provided that OTC Clear has given 28 calendar days' written notice prior to the proposed inspection date, or such other notice period as OTC Clear and the relevant Applicant may otherwise agree.

OTC Clear will provide an Applicant with details of the area to be inspected in the inspection notice, for example, OTC Clear may inspect an Applicant's risk management systems and other systems.

2.1.4 Review and Assessment Process

OTC Clear will collect and review information provided by each Applicant for the purpose of assessing its membership eligibility. The processing of an application will vary from case to case, but it is expected that the application review process should generally be completed within two months from the date OTC Clear is in receipt of all required documents and information.

2.1.5 Approval of Application

Once the application review process has been completed by OTC Clear, the application will be approved or rejected by the OTC Clear Board, in consultation with the Risk Management Committee (provided that such committee has been constituted).

Pursuant to Clearing Rule 308, the OTC Clear Board may, in consultation with the Risk Management Committee (provided that such committee has been constituted), also approve an application in principle subject to the Applicant's fulfilment of conditions set by the OTC Clear Board. Upon receipt of the conditional approval, the Clearing Member may submit Original Transactions for registration by OTC Clear, provided that Clearing Rule 308 shall apply if a Clearing Member fails to fulfil the conditions within the specific time.

The OTC Clear Board's decision will be final and Applicants will be given written notice of approval or rejection. A failed Applicant may request OTC Clear to provide reasons for rejection of its application for Membership.

In accordance with Clearing Rule 405, Membership may not be assigned, transferred or sold without the prior written approval of OTC Clear Board.

2.1.6 Execution of Membership Agreement and Initial Contribution to the Rates and Guarantee Fund

An Applicant's Membership will only become effective if OTC Clear has received the following:

- (i) two copies of the Membership Agreement signed by the authorized signatory(ies) of the Applicant; and
- (ii) such Applicant's initial contribution to the Rates and FX Guarantee Fund, as determined pursuant to section 6.1.1 of these Clearing Procedures, to be delivered to OTC Clear within the time period set out in Clearing Rule 1504.

2.1.8 Additional Documents Required in respect of Non-Hong Kong Incorporated Persons

Where a Licensed Corporation or an Authorized Institution with jurisdiction of incorporation outside Hong Kong, or a Remotely Regulated Entity (a "**Non-Hong Kong Incorporated Person**") applies to become a Clearing Member, OTC Clear may require such Non-Hong Kong Incorporated Person to demonstrate in its application the ability to satisfy the obligations of a Clearing Member (including but not limited to those set out in Clearing Rule 401(4)), and to provide legal opinions on, among others, the enforceability of OTC Clear's rights under the Clearing Documentation against such Non-Hong Kong Incorporated Person if it were a Clearing Member in respect of the jurisdiction of incorporation of such Non-Hong Kong Incorporated Person.*

2.2 Future Categories of Membership

Pursuant to Clearing Rule 301, OTC Clear may, after consultation with the Risk Management Committee, establish one or more categories of membership in the future. OTC Clear will notify the Clearing Members of any new category(ies) of membership established, and provide details of the same.

* Note: Introduction of remote membership is being considered by HKEx at the moment and is not intended to be available during the initial phase of establishment of OTC Clear.

2.3 Clearing Members' On-going Requirements and Obligations

OTC Clear's requirements in respect of Clearing Members are designed to ensure Clearing Members have sufficient financial resources and the relevant infrastructure for submission of Original Transactions for registration as Contracts with OTC Clear.

2.3.1 Capital Requirement

With respect to each Clearing Member, in addition to maintaining Capital in an amount not less than the Minimum Capital Requirement applicable to it set out in Clearing Rules 403 and 404, it shall also:

- (i) maintain Capital in an amount not less than its Rates and FX Liability;
- (ii) maintain Capital in an amount not less than its Expected Uncollateralized Loss as determined in accordance with section 6.1.1 of these Clearing Procedures; and
- (iii) on any day, maintain Capital in an amount such that the value of its CM Funded Contribution Amount (determined on such day as if it was a Rates and FX Contribution Determination Date) is less than 20% of the then total amount of its Capital.

2.3.2 Operational Requirement

OTC Clear requires each Clearing Member to have operational capabilities to perform trade affirmation, contract settlement, portfolio valuation, portfolio reporting and system linkage with an Approved Trade Registration System. Please refer to section 3.2 of these Clearing Procedures for general information relating to such Approved Trade Registration System.

2.3.3 Risk Management Requirement

Pursuant to Clearing Rule 401(9)(c), OTC Clear requires all Clearing Members to have established adequate risk management systems that are applied appropriately. This will include having risk management policies and procedures in place to ensure different aspects of risk are properly managed. Each Clearing Member's risk management systems, policies and procedures shall include, without limitation, the following:

(i) Market and Credit Risk Management

Each Clearing Member must have adequate risk policies and procedures in place to manage market and credit risk exposures of its trading portfolios submitted for registration with OTC Clear. Unless with the prior written approval from OTC Clear, a Clearing Member shall, as part of its risk management policies and procedures, set appropriate limits on the aggregate risk exposure of its House Position Account and (if it provides Client Clearing Services) on the risk exposure of each of its Client Position Accounts by utilizing the House Account Limit and/or Client Account Limit as described further in section 4.6.1 of these Clearing Procedures.

(ii) Default Management Process Participation

Clearing Members shall cooperate with OTC Clear in implementing the Default Management Process, including but not limited to:

- (a) participating in regular drills/tests (as set out in Clearing Rule 401(19));
- (b) providing market access for Hedging (as set out in Chapter 18 of the Clearing Rules and sections 8.2 and 8.5 of these Clearing Procedures); and
- (c) bidding in one or more Auctions during the Default Management Process (as set out in Chapter 19 of the Clearing Rules and section 8.6 of these Clearing Procedures).

- (iii) Client Risk Management (only applicable to Clearing Members who provide Client Clearing Services)

A Clearing Member that provides Client Clearing Services must have adequate risk policies and procedures to mitigate, monitor and control client credit risk as well as fulfil the requirements as stipulated in the Membership Application Form.

- (iv) Margin

A Clearing Member must deliver Collateral to satisfy its Margin requirements. Please refer to Chapter 12 of the Clearing Rules and Chapter 4 of these Clearing Procedures for details.

- (v) Rates and FX Guarantee Fund and Rates and FX Assessments

A Clearing Member must deliver Collateral to OTC Clear in respect of its CM Funded Contribution Amount, as calculated and demanded by OTC Clear, taking into account any applicable Collateral Haircuts on a monthly basis or at such other times as required pursuant to Clearing Rule 1503. A request by OTC Clear to deliver additional Collateral in respect of a Clearing Member's CM Funded Contribution Amount shall be satisfied by the relevant Clearing Member within 2 OTC Clear Business Days from the date such request is delivered to the Clearing Member.

In addition to the CM Funded Contribution Amount, a Clearing Member may be required to pay in cash its CM Unfunded Contribution Amount. More details can be found in Clearing Rules 1506 and 1507 and Chapter 6 of these Clearing Procedures.

2.3.4 Outsourcing

Each Clearing Member must have the ability to perform its operational and risk management functions (including participating in fire drills and in the Default Management Process) as required under the Clearing Documentation. To the extent that a Clearing Member wishes to have part or all of its operational and risk management functions performed by one or more of its Affiliates, such Clearing Member must have received written approval from OTC Clear to that effect prior to outsourcing or delegating such functions to the relevant Affiliate(s). OTC Clear will withhold its approval if a Clearing Member is seeking to outsource all of its risk management functions to its Affiliate who is also its Client. A Clearing Member who has outsourced part or all of its operational and risk management functions to its Affiliate(s) shall remain responsible to OTC Clear for the performance of all such functions pursuant to the Clearing Documentation. OTC Clear may revoke any approval in relation to the outsourcing or delegation of operational and risk management functions of a Clearing Member by providing such Clearing Member with written notice revoking the relevant approval. For the avoidance of doubt, a Clearing Member may not outsource its operational and risk management functions to any person other than its Affiliates.

2.3.5 On-going Reporting Requirement

A Clearing Member shall satisfy its obligations to provide OTC Clear with all relevant information as set out in Clearing Rules 401(13), 501, 503 and 504.

2.4 Client Clearing

A Clearing Member may apply to provide Client Clearing Services by completing part B of the Application Form.

2.5 Changes to conditions of Membership

Any request to change any condition(s) of Membership, including but not limited to the type(s) of Contracts that a Clearing Member may submit for registration or whether it may provide Client Clearing Services, must be submitted to OTC Clear in writing.

Upon receipt of such request, OTC Clear may, at its discretion, require additional information or documents from such Clearing Member, conduct on-site inspection of such Clearing Member, or require such Clearing Member to submit a new Application Form. After assessing such request, OTC Clear will notify the Clearing Member in writing whether any requested change to condition(s) of Membership is approved or rejected.

The initial percentage threshold relevant for this purpose is set as 20%; or (ii) any change in the names or contact details of the persons designated by the Clearing Member in the Application Form as responsible officers for handling operational and risk matters.

The above lists are not intended to be exhaustive and a Clearing Member is expected to notify OTC Clear of any matter set out in Clearing Rule 501 in writing without delay, provided that any materially adverse or time sensitive changes that may affect a Clearing Member's eligibility to continue as a Clearing Member shall be notified to OTC Clear by telephone promptly and followed by notice in writing as soon as reasonably practicable.

2.7 Audit, Inspection or System Tests

Pursuant to Clearing Rule 401(18), officers or employees of OTC Clear or such persons appointed by OTC Clear may:

- (i) from time to time inspect and copy the statements, books, records, accounts and other documents maintained by a Clearing Member relating to Contracts; and/or
- (ii) conduct audits or system tests of each Clearing Member's operations related to its business with OTC Clear. Audit and system tests shall be conducted during business hours, and it is expected that, under normal circumstances, there will not be more than two audits being conducted within the same year with respect to a Clearing Member.

In addition, OTC Clear will conduct an on-site inspection of each Clearing Member at least once every 3 years.

A Clearing Member shall provide or allow relevant officers or employees or appointed persons of OTC Clear access to its premises, systems, statements, books, records, accounts and other documents necessary to discharging their duty for the purpose of carrying out the audit or system tests. A Clearing Member shall be entitled to deny entry to a representative of OTC Clear for the purpose of audit or system tests if it has reasonable grounds to believe any such representatives are conflicted in their role as an inspector or auditor, and has, in OTC Clear's reasonable determination, provided sufficient evidence to OTC Clear to substantiate such alleged conflict of interest.

Any costs and expenses reasonably incurred as a result of an inspection (including an on-site inspection) or audit or system test directed by OTC Clear under Clearing Rule 401(18) shall be borne by the Clearing Member concerned. OTC Clear will obtain at least two independent quotes for any such inspection or audit or system test.

If, upon the completion of an inspection or audit, OTC Clear is of the view that modifications are necessary to a Clearing Member's business activities, in whole or in part, such Clearing Member shall enter into good faith discussions with OTC Clear as to the necessary extent of any modifications and the timescale within which such Clearing Member will make such modifications.

2.8 Suspension, Termination and Resignation

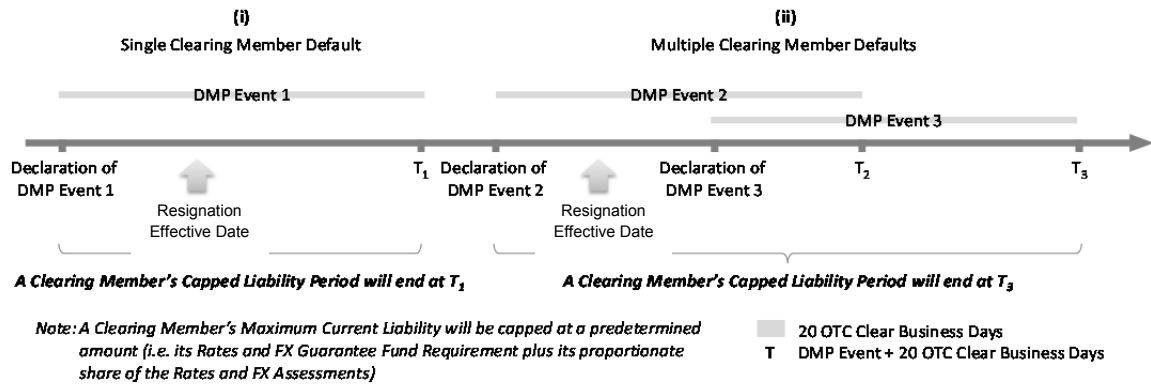

Membership may be suspended by OTC Clear in accordance with Chapter 6 of the Clearing Rules or terminated by OTC Clear in accordance with Clearing Rule 1311 or 1405.

A Clearing Member may resign from its Membership by giving written notice to OTC Clear in accordance with Clearing Rules 604 to 612.

2.9 Capped Liability Period

In connection with Clearing Rules 609 and 1544, the following diagram illustrates how a Clearing Member's Maximum Current Liability is determined in respect of each Capped Liability Period:

- (i) if there is a single DMP Event (i.e. no other DMP Event has occurred in the period 20 OTC Clear Business Days prior or after such DMP Event), then the Capped Liability Period is the period from the declaration of such DMP Event to the 20th OTC Clear Business Day after such declaration; or
- (ii) if there are multiple DMP Events occurring in close succession and each of them occurred within 20 OTC Clear Business Days of another DMP Event, then the Capped Liability Period is the period from declaration of the DMP Event of the first Defaulting Clearing Member (i.e. no other DMP Event has occurred within 20 OTC Clear Business Days prior to such DMP Event) to the 20th OTC Clear Business Day after the last of such declared DMP Event.

Chapter 3

Rates and FX Clearing Services

3.1 Overview

Upon execution of an Original Transaction, Clearing Members or Clients who are parties to such Original Transaction and who wish to submit such Original Transaction for registration with OTC Clear shall submit or, in the case of a Client, request the relevant Clearing Member to submit such instructions to the same Approved Trade Registration System. Upon receipt of the instructions from the Clearing Members, the Approved Trade Registration System will perform matching of the instructions. As described in section 3.2, each Approved Trade Registration System is a system provided by a third-party vendor and as such, OTC Clear will not be responsible or liable for any such trade matching performed by any such Approved Trade Registration System.

After an Original Transaction is matched by an Approved Trade Registration System, Clearing Members can submit an Original Transaction to OTC Clear for registration via an Approved Trade Registration System. Any Original Transaction which is submitted for registration is required to fulfil the applicable product eligibility requirements set out in section 3.4 and “Margin Process” as described in section 4.6 of these Clearing Procedures. The results of the registration will be communicated to the relevant Approved Trade Registration System and/or indicated in the “OTC Clear Trade Report (Report Number TDRP01, TDRP02, TDRP03, TDRP04, TDRP05 or TDRP06)” in relation to any House Position Account or “OTC Clear Trade Report for Client (Report Number TDRP01_C, TDRP02_C, TDRP03_C, TDRP04_C, TDRP05_C or TDRP06_C)” in relation to any Client Position Account. Both “OTC Clear Trade Report (Report Number TDRP01, TDRP02, TDRP03, TDRP04, TDRP05 or TDRP06)” and “OTC Clear Trade Report for Client (Report Number TDRP01_C, TDRP02_C, TDRP03_C, TDRP04_C, TDRP05_C or TDRP06_C)” are available to the Clearing Members on the Web Portal.

The ISDA Definitions and FX Definitions are incorporated by reference into this Chapter 3. References to “Business Day(s)” as used in this Chapter 3 shall have the meaning given to it in the ISDA Definitions. For the avoidance of doubt, the meaning of “Business Day” incorporated by reference in Chapter 23 and Chapter 24 of the Clearing Rules shall not be applicable in this Chapter 3.

3.2 Approved Trade Registration System

OTC Clear does not discriminate or distinguish between Original Transactions based upon execution method or venue. However, Original Transactions can only be submitted through an Approved Trade Registration System. Any Original Transaction submitted to OTC Clear through an Approved Trade Registration System shall be deemed to be submitted for or by the relevant Clearing Member. The Approved Trade Registration Systems designated by OTC Clear are the matching and confirmation service for over-the-counter derivatives transactions provided by (i) MarkitSERV Limited (“**MarkitWire**”), (ii) the HKMA (the “**HKTR-MC service**”) and (iii) MarkitSERV, LLC (“**DSMatch**”) (each an “**Approved Trade Registration System**”). OTC Clear only accepts an Original Transaction that is submitted via one of the relevant Approved Trade Registration Systems. Please refer to the ATRS Guide which sets out each data field on an Approved Trade Registration System accepted by OTC Clear for the purpose of submission of an Original Transaction for registration as Contracts. The ATRS Guide will also provide the relevant values applied by OTC Clear in respect of certain data fields. Each Clearing Member agrees and acknowledges that it shall be bound by the ATRS Guide.

Each of the Approved Trade Registration Systems is a system provided by a third-party vendor. OTC Clear has no involvement in and does not guarantee the level of performance, integrity or efficiency in

relation to any services provided by the providers of such Approved Trade Registration Systems. The service level agreements entered into between the provider of the relevant Approved Trade Registration System and the Clearing Members govern the terms and conditions of the provision of services by the provider of such Approved Trade Registration System to the relevant Clearing Members. OTC Clear accepts no liability arising from the usage of any Approved Trade Registration System by any Clearing Member.

It is the responsibility of a Clearing Member to ensure that all Original Transactions are submitted by its authorized personnel. A Clearing Member should ensure that it complies with the security and access procedures of the relevant Approved Trade Registration System. OTC Clear has no obligation to verify if the trade details are genuine and/or correctly reflect the trade which has been entered by the Clearing Member. OTC Clear is not liable for any losses suffered by any Clearing Member or Client which are incurred by any unauthorized input of trade into the Approved Trade Registration System.

OTC Clear does not make any representation as to the accuracy of any data sent via an Approved Trade Registration System (whether by Clearing Members to OTC Clear, or by OTC Clear to Clearing Members, in each case, via an Approved Trade Registration System). A Clearing Member shall be bound by the terms and conditions of a Contract on the basis of the data sent by an Approved Trade Registration System to OTC Clear notwithstanding the existence of any incorrect or corrupted data being sent by such Approved Trade Registration System to OTC Clear. OTC Clear is not required to perform any rectification or re-registration of such Contract, and shall have no liability for any loss relating to registration of such Contract.

3.3 Process of Registration and Rejection

3.3.1 Creation of Contracts through Submission of Original Transactions by Clearing Members - Status of Registration of a Transaction and Notification of Results

Any Original Transaction submitted by a Clearing Member (or by a Designated Person on its behalf) to OTC Clear for registration is required to satisfy the Eligibility Requirements.

In respect of an Original Transaction submitted for registration before 18:00 hours Hong Kong time on an OTC Clear Clearing Day, OTC Clear will, on such OTC Clear Clearing Day, perform both product eligibility requirement checks set out in section 3.4 and the "Margin Process" set out in section 4.6 of these Clearing Procedures on such Original Transaction.

In respect of an Original Transaction submitted to OTC Clear for registration between 18:00 hours Hong Kong time and 19:00 hours Hong Kong time on an OTC Clear Clearing Day, OTC Clear will perform product eligibility requirements checks set out in section 3.4 on such Original Transaction on the same day. The "Margin Process" on such Original Transaction will only be performed during the Margin Process Hours, and as such, such Original Transaction will not be registered by OTC Clear until the immediately following OTC Clear Clearing Day assuming the Original Transaction satisfies the "Margin Process" set out in section 4.6 of these Clearing Procedures.

In respect of an Original Transaction submitted to OTC Clear for registration on a day which is not an OTC Clear Clearing Day, or at or after 19:00 hours Hong Kong time on an OTC Clear Clearing Day, OTC Clear will perform product eligibility requirements checks set out in section 3.4 and the "Margin Process" set out in section 4.6 of these Clearing Procedures on such Original Transaction on the immediately following OTC Clear Clearing Day.

If an Original Transaction does not satisfy the applicable product eligibility requirements as set out in section 3.4, or if it contains any invalid or incomplete trade data, such Original Transaction will be rejected and will not go through the "Margin Process" as set out in section 4.6 of these Clearing Procedures. The result will be communicated to the relevant Approved Trade Registration System.

If an Original Transaction satisfies the applicable product eligibility requirements set out in section 3.4, but does not satisfy the “Margin Process” as set out in section 4.6 of these Clearing Procedures, such Original Transaction will be put on “pending” status in the Rates and FX Clearing System. The result will be communicated to the relevant Approved Trade Registration System. The transaction will be flagged as “WAIT_MARGIN”, “LIMIT_FAILED” or “PROCESSING” in the “OTC Clear Trade Report (Report Number TDRP03 or TDRP04)” in relation to any House Position Account or “OTC Clear Trade Report for Client (Report Number TDRP03_C or TDRP04_C)” in relation to any Client Position Account. Both “OTC Clear Trade Report (Report Number TDRP03 or TDRP04)” and “OTC Clear Trade Report for Client (Report Number TDRP03_C or TDRP04_C)” are available to the Clearing Members on the Web Portal.

Any “pending” Original Transaction that is not accepted for registration by the commencement of the End-of-Day Settlement Process on the OTC Clear Clearing Day immediately following the day on which such “pending” Original Transaction satisfies the applicable product eligibility requirements set out in section 3.4 will be rejected by OTC Clear. The result will be communicated to the relevant Approved Trade Registration System. 3.5 Error Contract

Pursuant to Clearing Rule 814, in the event OTC Clear terminates an Error Contract, the relevant Clearing Members who were parties to the Error Contract being terminated will be notified through the “OTC Clear Trade Report (Report Number TDRP01 or TDRP02)” in respect of an Error Contract which has been registered in a House Position Account or “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)” in respect of an Error Contract which has been registered in a Client Position Account. Both “OTC Clear Trade Report (Report Number TDRP01 or TDRP02)” and “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)” are available to the Clearing Members on the Web Portal. The status of any terminated Error Contract will be indicated in the “OTC Clear Trade Report (Report Number TDRP01 or TDRP02)” or “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)” as a rejected transaction. The status will be flagged as “DECLEARED”, “TERMINATED” or “TRANSFERED”.

If OTC Clear determines that the value of the Error Contract has changed in between the time when the Variation Margin was last calculated and when such Error Contract was terminated, then OTC Clear will communicate to the relevant Clearing Members an amount representing such difference. The Clearing Members in whose names the Error Contracts were registered will then settle such difference between themselves without further involvement of OTC Clear.

OTC Clear will liaise with both the relevant Approved Trade Registration System and the relevant Clearing Members to facilitate the latest trade status of the Error Contract being updated in such Approved Trade Registration System.

3.6 De-registration

Subsequent to the registration of an Original Transaction as two Contracts with OTC Clear, any proposed amendments to the terms of such Contracts, or termination or novation of such Contracts other than any transfer of Contracts relating to Clients in accordance with Clearing Rule 825, may only be effected by first de-registering the Contracts through submission of a de-registration request to OTC Clear.

OTC Clear will perform the de-registration process described in this section 3.6 and the “Margin Process” as described in section 4.6 of these Clearing Procedures with respect to any Contract which is the subject of a de-registration request.

3.6.1 De-registration Conditions

A request to de-register a Contract will only be accepted by OTC Clear if the following conditions are met:

- (i) the relevant Contract has not reached its scheduled Termination Date or Settlement Date, and has not been previously terminated; and
- (ii) the de-registration request is submitted by or on behalf of both parties to the Original Transaction corresponding to the Contract via the relevant Approved Trade Registration System. If a de-registration request is submitted by or on behalf of only one of the two parties to the Original Transaction, OTC Clear will not accept such de-registration request. OTC Clear is not responsible for, and shall not be under any obligation to, providing a Clearing Member or Client (“**first Clearing Member or Client**”) with the identity of the Clearing Member or Client who was counterparty to the first Clearing Member or Client under the relevant Original Transaction corresponding to the Contract requested to be de-registered. For the avoidance of doubt, de-registration of Contracts corresponding to an Original Transaction will be processed on an all-or-nothing basis. The Margin Process referred to in section 4.6.5 of the Clearing Procedures must be satisfied with respect to both Contracts (corresponding to an Original Transaction) being de-registered. If the Margin Process referred to in section 4.6.5 of the Clearing Procedures is satisfied with respect to one but not both of the Contracts, OTC Clear will not accept the de-registration request relating to either of such Contracts.

3.6.2 Process of De-registration

In respect of a de-registration request submitted to OTC Clear before 18:00 hours Hong Kong time on an OTC Clear Clearing Day such de-registration request will be processed by OTC Clear on the same day.

In respect of a de-registration request submitted to OTC Clear between 18:00 hours Hong Kong time and 19:00 hours Hong Kong time on an OTC Clear Clearing Day, OTC Clear will perform the de-registration process described in this section 3.6 on the same day. The “Margin Process” will only be performed during the Margin Process Hours, and as such, the relevant Contract will not be de-registered by OTC Clear until the immediately following OTC Clear Clearing Day assuming the “Margin Process” set out in section 4.6 of these Clearing Procedures are satisfied.

In respect of a de-registration request submitted to OTC Clear on a day which is not an OTC Clear Clearing Day, or at or after 19:00 hours Hong Kong time on an OTC Clear Clearing Day, such

de-registration request will be processed by OTC Clear on the immediately following OTC Clear Clearing Day.

If a de-registration request does not satisfy the conditions set out in section 3.6.1, or if it contains any invalid or incomplete trade data, such de-registration request will be rejected and will not go through the “Margin Process” as set out in section 4.6 of these Clearing Procedures. The result will be communicated to the relevant Approved Trade Registration System but will not be made available to the Clearing Members on the Web Portal.

If a de-registration request satisfies the conditions set out in section 3.6.1, but does not satisfy the “Margin Process” as set out in section 4.6 of these Clearing Procedures, such de-registration request will be put on “pending” status in the Rates and FX Clearing System. The result will be communicated to the relevant Approved Trade Registration System. The relevant Contracts will be flagged as “PEND_TRF/TRM/DCL” in the “OTC Clear Trade Report (Report Number TDRP03 or TDRP04)” in relation to any House Position Account or “OTC Clear Trade Report for Client (Report Number TDRP03_C or TDRP04_C)” in relation to any Client Position Account. Both “OTC Clear Trade Report (Report Number TDRP03 or TDRP04)” and “OTC Clear Trade Report for Client (Report Number TDRP03_C or TDRP04_C)” are available to the Clearing Members on the Web Portal.

OTC Clear will reject any de-registration request which fails to satisfy the “Margin Process” as set out in section 4.6 of these Clearing Procedures by the commencement of the End-of-Day Settlement Process on the OTC Clear Clearing Day immediately following the day on which all conditions set out in section 3.6.1 have been satisfied. The result will be communicated to the relevant Approved Trade Registration System and the relevant Contracts will remain registered with OTC Clear.

If a de-registration request satisfies all conditions set out in section 3.6.1 and “Margin Process” as set out in section 4.6 of these Clearing Procedures, such Contracts will be de-registered by OTC Clear. The result will be communicated to the relevant Approved Trade Registration System. In addition, the relevant Contracts submitted for de-registration will be flagged as “DECLARED” in such “OTC Clear Trade Report (Report Number TDRP01 or TDRP02)” in relation to any House Position Account or “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)” in relation to any Client Position Account.

Save and except for the operation of section 3.8.1 and any fees due but unpaid by the relevant Clearing Member to OTC Clear (including the de-registration fee):

- (i) any Contract that has been de-registered shall have no further force or effect thereafter; and
- (ii) the rights and obligations of each of OTC Clear and the relevant Clearing Member under the Contract being de-registered shall be fully relinquished and discharged with effect from the time such Contract is de-registered.

Any de-registered transaction can be submitted for registration again, and subject to the Eligibility Requirements applicable to the relevant transaction.

Cancellation, novation or any other fees which have been agreed between the relevant Clearing Members who are counterparties to the particular Contract in connection with a de-registration request shall not be processed by OTC Clear.

In addition, a unique identifier will be assigned to each Clearing Member and mapped to each of the accounts.

3.8 Settlement Components

A “**Settlement Component**” consists of daily settlement components (as set out in section 3.8.1) and fees and interest (as set out in section 3.8.2).

Pursuant to Clearing Rule 226, the calculations made by OTC Clear shall be conclusive and binding on all Clearing Members. If a Clearing Member notifies OTC Clear of any alleged error in any calculations performed by OTC Clear pursuant to Clearing Rule 226, such Clearing Member is still obligated to settle the full amounts as stated in the “OTC Clear Settlement Reports” and “OTC Clear Settlement Reports for Client” (if applicable) on the payment due date pending investigation, resolution or (if applicable) rectification of the alleged error by OTC Clear.

For the avoidance of doubt, OTC Clear will only be responsible for settlement of any Settlement Component of a Contract if the Payment Date of such Settlement Component is in compliance with the terms set out in section 3.4.2.12.

The terms and provisions included in an ISDA Credit Support Annex published by ISDA will not form part of the Contract Terms of a Contract. As such, the Independent Amount (as defined in paragraph 10 of the ISDA Credit Support Annex (Bilateral Form-Transfer) published by ISDA) is not, and does not form part of the Settlement Component. OTC Clear is not responsible for, and will not be processing any transfer of Independent Amount and Clearing Member shall be responsible to put in place any relevant Collateral management procedures for processing any Independent Amount.

3.8.1 Daily Settlement Components

OTC Clear will determine the daily settlement components on each OTC Clear Clearing Day. Market data (such as non-business days for different financial centers, any interest rate, exchange rate or price) which are applied to determine the daily settlement components will be published in the “OTC Clear Market Data Reports (Report Number MKDR01, MKDR02 and MKDR03)”. The amount of daily settlement components to be settled by a Clearing Member will be published in the “OTC Clear Settlement Report (Report Number STRP01)” in respect of any payment relevant to a House Account or “OTC Clear Settlement Report for Client (Report Number STRP01_C)” in respect of any payment relevant to a Client Account. Such reports are available to the Clearing Members on the Web Portal. The daily settlement components published in the “OTC Clear Settlement Report (Report Number STRP01)” and “OTC Clear Settlement Report for Client (Report Number STRP01_C)” shall be final and conclusive, and shall be settled on the relevant “Value Date” as stipulated in the “OTC Clear Settlement Report (Report Number STRP01)” and “OTC Clear Settlement Report for Client (Report Number STRP01_C)” in accordance with section 3.12. Any de-registration request that is accepted by OTC Clear after the publication of the “OTC Clear Settlement Report (Report Number STRP01)” or “OTC Clear Settlement Report for Client (Report Number STRP01_C)” for any relevant “Value Date”

shall not have any effect on the payment obligation of a Clearing Member to settle the daily settlement components set out in the relevant “OTC Clear Settlement Report (Report Number STRP01)” or “OTC Clear Settlement Report for Client (Report Number STRP01_C)” for such “Value Date”.

3.8.1.1 Coupon Payment for a Standard Rates Derivatives Contract, a Standard Cross-currency Rates Derivatives Contract and a Non Deliverable Rates Derivatives Contract

3.10 Types of Securities Acceptable as Non-cash Collateral and Procedures for Voluntary Deposit of Non-Cash Collateral, porting of Non-Cash Collateral representing Excess Margin and Withdrawal of Non-Cash Collateral representing Excess Margin

OTC Clear only accepts non-cash Collateral delivered to it at its account at the relevant Custodian specified for the relevant type of eligible non-cash Collateral. Non-cash Collateral deposited for the purpose of satisfying Margin requirements in respect of a particular Position Account will not form part of the Margin Balance recorded to the corresponding Collateral Account until such non-cash Collateral is received by OTC Clear at its account at such relevant Custodian. OTC Clear publishes the Custodian and its standard delivery instruction for each type of eligible non-cash Collateral on the HKEx website and updates it from time to time.

Delivery of non-cash Collateral to OTC Clear must be executed free of payment.

Clearing Members are each required to open 2 accounts with their respective custodian(s) for the relevant type of eligible non-cash Collateral – one account for settlement of non-cash Collateral relating to House Business and the other account for settlement of non-cash Collateral relating to Contracts recorded in the Client Position Account of a Clearing Member ("**Client Business**"). Clearing Members must specify only one standard delivery instruction for House Business and only one standard delivery instruction for Client Business.

The relevant Custodian matches the details submitted by each Clearing Member via the Web Portal before accepting delivery of the relevant non-cash Collateral to OTC Clear's account with it. In the event of a discrepancy, delivery will fail. Each Clearing Member must also indicate in the relevant payment message that the settlement mode is real time.

In respect of each request for withdrawal of non-cash Collateral which has been accepted by OTC Clear, OTC Clear will instruct the relevant Custodian to deliver the relevant non-cash Collateral to each Clearing Member in accordance with the standard delivery instructions provided by such Clearing Member.

If a Clearing Member wishes to change its standard delivery instruction in respect of settlement in relation to its House Collateral Account and/or its Client Collateral Accounts (if applicable), it must provide at least 10 OTC Clear Business Days' advance notice to OTC Clear pursuant to section 2.6 of these Clearing Procedures prior to effecting such change.

OTC Clear will not be liable for any failure, hindrance or delay in the performance (in whole or in part) of any of its obligations to Clearing Members relating to the deposit, withdrawal or porting of non-cash Collateral where such failure, hindrance or delay arises from causes beyond the control of OTC Clear, such as, but not limited to, the failure (whether partial or total), interruption or suspension of any depository, Custodian or other depository service that OTC Clear uses, the termination or suspension of OTC Clear's membership or use of a Custodian or any variation of a Custodian's operational timetable, whether or not occasioned by the action of the Custodian or other party, or any embargo, unavailability or restriction of bank transfer systems or wires, malfunction or overload of the depository or any other emergency.

 - (b) in all other cases within two hours following the “OTC Clear Settlement Report (Report Number STRP01)” and/or “OTC Clear Settlement Report for Client (Report Number STRP01_C)” (if applicable) relating to that particular payment date is published, or information equivalent to that which would be set out in such reports is available to OTC Clear, subject to the availability of RTGS services.

Any Margin requirements must be satisfied in accordance with the timing set out in section 4.7.2 of these Clearing Procedures; and a Clearing Member's request for voluntary withdrawal, porting or deposit of cash Collateral will be governed by section 3.9.

For the avoidance of doubt, OTC Clear will pay the interest amount (coupon) in respect of the relevant non-cash Collateral to the Clearing Member on the appropriate value date only after OTC Clear has been credited with such interest amount (coupon) by its Custodian.

3.13 Interest received on Non-Cash Collateral

Interest received by OTC Clear in respect of each Clearing Member’s non-cash Collateral will be reflected in the “OTC Clear Settlement Report (Report Number STRP10)” or “OTC Clear Settlement Report for Client (Report Number STRP10_C)”, which is made available to each Clearing Member on the Web Portal.

3.14 Maturity of Non-Cash Collateral

Clearing Members must substitute any non-cash Collateral deposited with OTC Clear no later than five business days prior to the scheduled maturity date of the relevant security (calculated by reference to the definition of business days in the terms and conditions of the relevant security). OTC Clear does not process the redemption of securities held by it as non-cash Collateral.

Notwithstanding section 7.5.1, any non-cash Collateral which is not withdrawn on or before the cut off date set out in the foregoing will be treated as having an applicable Collateral Haircut of 100 per cent. with effect from that cut off date. On maturity, redemption proceeds of such non-cash Collateral will be:

- (i) held by the Custodian and form part of the security interest created under the relevant Deed of Charge; and
- (ii) treated as having an applicable Collateral Haircut of 100 per cent., but otherwise treated for the purposes of the Clearing Documentation as proceeds of the realization of such non-cash Collateral.

No interest will be paid by OTC Clear in respect of such redemption proceeds and a request must be made by the relevant Clearing Member to effect withdrawal of such proceeds.

The scheduled maturity date of each security comprising each Clearing Member's non-cash Collateral is reflected in the "OTC Clear Risk Management Report (Report Number RMRP05)", which is made available to each Clearing Member on the Web Portal.

3.15 Tax

Any Additional Amount payable by a Clearing Member in respect of tax will be recorded in the "OTC Clear Settlement Report (Report Number STRP08)" in respect of any Additional Amount relevant to a House Account or "OTC Clear Settlement Report for Client (Report Number STRP08_C)" in respect of any Additional Amount relevant to a Client Account. The Clearing Member shall settle such Additional Amount within the prescribed timeframe set out in the "OTC Clear Settlement Report (Report Number STRP08)" and "OTC Clear Settlement Report for Client (Report Number STRP08_C)". Please refer to sections 3.11 and 3.12 for settlement method and settlement time.

3.16 Reporting

All reports published by OTC Clear will be made available to Clearing Members on the Web Portal. Please refer to the "**Web Portal User Manual**" (which is a user manual detailing the process of raising a request for movement of Collateral or retrieving a report via Web Portal) and the Report Usage Guide for details. Clearing Member can print the reports locally or download the reports in a machine-readable data-file format.

All reports reflect the latest record of OTC Clear. Reports will remain available for download by Clearing Member for 12 OTC Clear Clearing Days from the date it is first made available on the Web Portal. Subsequent to the removal of the reports from the Web Portal, a Clearing Member may request OTC Clear to provide such reports either by delivery in print-out form, or by providing such Clearing Member with access to retrieve such reports electronically, in each case, subject to a fee as set out in section 3.8.2.1.

The relevant identification number, publication frequency, report name and guidance for interpreting the contents of each report are set out in the Report Usage Guide. Please refer to the Report Usage Guide for further details.

3.17 Porting of Client Contracts and Collateral to a Transferee Clearing Member

Upon receipt of valid instructions from a Client, a Transferee Clearing Member may request that OTC Clear port some or all of the Contracts which are registered on behalf of such Client from a Transferor Clearing Member's Client Position Account to a Client Position Account identified as being held by such Transferee Clearing Member for such Client and, if applicable, to also port all of the Collateral

held on behalf of such Client from a Transferor Clearing Member's Client Collateral Account to such Transferee Clearing Member's Client Collateral Account.

Contracts eligible for porting must not have reached their scheduled Termination Date or Settlement Date on or prior to the scheduled Porting Completion Time, and must remain outstanding as of the date of the submission of the porting request.

A Transferee Clearing Member must submit a separate porting request for each Client. In respect of each porting request, each Transferee Clearing Member is deemed to acknowledge, represent and undertake that:

- (a) it has received proper Client authorization for the instructions contained in such porting request;
- (b) it is solely responsible for the accuracy and completeness of the information contained in such porting request;
- (c) OTC Clear is entitled to rely conclusively on the instructions and information provided in such porting request without further enquiry; and
- (d) OTC Clear shall incur no liability for any delay, rejection, loss, cost, claim, action, demand or expense in the processing of such porting request and in effecting the porting of Contracts and Collateral in reliance on the information contained in such porting request.

If any information and/or instructions provided by the Transferee Clearing Member in a porting request is incomplete, inaccurate or inconsistent with its records, OTC Clear may, in its sole and absolute discretion, reject such porting request or liaise with such Clearing Member to rectify the relevant information and/or instruction.

3.17.1 Full Portfolio Porting

Requirements

Each full portfolio porting request will only be accepted and processed by OTC Clear if all of the following conditions are satisfied:

- (i) the Transferee Clearing Member submits to OTC Clear an original completed and signed form for portfolio porting^{*}. The form must indicate whether the Collateral held on behalf of the relevant Client by the Transferor Clearing Member needs to be ported together with the corresponding Contracts;
- (ii) Contracts and Collateral are being ported from a Client Position Account and corresponding Client Collateral Account identified as being held by the relevant Transferor Clearing Member for a particular Client to a Client Position Account and corresponding Client Collateral Account identified as being held by the Transferee Clearing Member for the same Client;
- (iii) details of the particular Client and the Contracts and Collateral identified as being held by the Transferor Clearing Member for such Client as set out in the porting request match OTC Clear's records of such Client's holdings in the relevant Transferor Clearing Member's relevant Client Position Account and corresponding Client Collateral Account;

^{*} Available on request from OTC Clear

- (iv) If Collateral is not being ported, the Transferee Clearing Member must ensure that there is sufficient Collateral comprising the Margin Balance of the relevant Client Collateral Account prior to the last Portfolio Novation Cycle on the third OTC Clear Business Day following the submission of the porting request;
- (v) no DMP Event has occurred with respect to the Transferee Clearing Member and the relevant Transferor Clearing Member;
- (vi) the relevant Transferor Clearing Member has consented to the porting;
- (vii) the Transferor Clearing Member and the Transferee Clearing Member submit to OTC Clear an original completed and executed BAU Porting Supplemental Assignment Letter;
- (viii) the Transferee Clearing Member's standard settlement instruction for each relevant Contractual Currency of the Contracts being ported is in place;
- (ix) the Transferee Clearing Member's standard settlement instruction for each relevant Eligible Currency of cash Collateral being ported is in place;
- (x) the Transferee Clearing Member's standard delivery instruction for each relevant non-cash Collateral being ported is in place; and
- (xi) the Transferee Clearing Member's standard settlement instruction for the relevant currency of denomination of the coupon (interest) of each relevant non-cash Collateral is in place.

3.17.2 Procedures for Full Portfolio Porting where Collateral being ported from a Client Collateral Account of a Transferor Clearing Member to a Client Collateral Account of a Transferee Clearing Member comprises Non-Cash Collateral

The following procedures apply to each full portfolio porting request where Collateral being ported from a Client Collateral Account of a Transferor Clearing Member identified as being held by the relevant Transferor Clearing Member for a particular Client to a Client Collateral Account identified as being held by the Transferee Clearing Member for the same Client comprises non-cash Collateral:

- (i) non-cash Collateral may only be ported if they are not scheduled to mature within four OTC Clear Business Days from the date of submission of the porting request; and
- (ii) any full portfolio porting request comprising non-cash Collateral which does not satisfy this condition will be rejected and should be amended to remove such non-cash Collateral and re-submitted.

Transferee Clearing Members and Clients should be aware that interest due in respect of non-cash Collateral which is successfully ported at a Porting Completion Time which falls after the record date for the payment of interest in respect of the relevant security will be paid to the Transferor Clearing Member.

3.17.3 Partial Portfolio Porting

Requirements

Each partial portfolio porting request will only be accepted and processed by OTC Clear if all of the following conditions are satisfied:

- (i) the Transferee Clearing Member submits to OTC Clear an original completed and signed form for portfolio porting^{*}. The form should contain complete details of the Contracts that the Transferee Clearing Member wishes to port. Please note that OTC Clear is unable to facilitate any porting of Collateral together with the corresponding Contracts as part of the partial portfolio porting process;
- (ii) the relevant Contracts are being ported from a Client Position Account identified as being held by the relevant Transferor Clearing Member for a particular Client to a Client Position Account identified as being held by the Transferee Clearing Member for the same Client;
- (iii) details of the particular Client and the Contracts identified as being registered by the Transferor Clearing Member for such Client as set out in the porting request match OTC Clear's records of such Client's holdings in the relevant Transferor Clearing Member's relevant Client Position Account;
- (iv) since Collateral cannot be ported concurrently with the relevant Contracts, the Transferee Clearing Member must ensure that there is sufficient Collateral comprising the Margin Balance of the relevant Client Collateral Account prior to the submission of the porting request;
- (v) no DMP Event has occurred with respect to the Transferee Clearing Member and the relevant Transferor Clearing Member;
- (vi) the relevant Transferor Clearing Member has consented to the porting; and
- (vii) the Transferee Clearing Member's standard settlement instruction for each relevant Contractual Currency of the Contracts being ported is in place.

3.17.4 No porting of Collateral in a partial portfolio porting

Please note that OTC Clear is unable to facilitate any porting of Collateral together with the corresponding Contracts as part of the partial portfolio porting process. The Transferee Clearing Member must therefore ensure that there is sufficient Collateral comprising the Margin Balance of the relevant Client Collateral Account prior to the submission of the porting request, otherwise porting will fail.

3.17.5 Consent from Transferor Clearing Member

Upon receipt of a porting request from a Transferee Clearing Member on a particular day, OTC Clear will, no later than 18:00 hours Hong Kong time on such day notify the relevant Transferor Clearing Member and request that the Transferor Clearing Member complete and return an original signed Transferor Clearing Member reply form[†] no later than 09:00 hours Hong Kong time two (2) OTC Clear Business Days after receipt of such porting request, indicating either:

- (i) its consent to such porting request; or
- (ii) its objection to such porting request, together with its reasons for such objection.

For the avoidance of doubt, OTC Clear is not in a position to adjudicate on the merits of a Transferor Clearing Member's objection or override a Transferor Clearing Member's objection in favour of its Client. In the event that the Transferor Clearing Member objects to such porting request or fails to

^{*} Available on request from OTC Clear

[†] Available on request from OTC Clear

submit the original signed Transferor Clearing Member reply form within the deadline specified in the foregoing, OTC Clear will reject such porting request and the Transferee Clearing Member must re-submit a fresh request.

3.17.6 Timing

A porting request satisfying, in the opinion of OTC Clear, the requirements set out in sections 3.17.1 or 3.17.3 above, as applicable, and the conditions set out in the Clearing Rules which is received by OTC Clear by 13:00 hours Hong Kong time on an OTC Clear Business Day will be processed by OTC Clear and OTC Clear will use its reasonable endeavours to complete such porting request by 19:30 hours Hong Kong time on the third OTC Clear Business Day following the date of receipt of such request. Porting requests received by OTC Clear on a day which is not an OTC Clear Business Day or after 13:00 hours Hong Kong time on an OTC Clear Business Day, will be deemed to be received on the next OTC Clear Business Day. OTC Clear will notify the Transferor Clearing Member and the Transferee Clearing Member through their web portal of the date and time on which each porting request has been successfully effected (the “**Porting Completion Time**”).

Please refer to sections 9.5.1.3, 9.5.1.4, 9.5.2.3 and 9.5.2.4 for porting requests received under adverse weather conditions.

OTC Clear shall not be liable to any person in any way whatsoever for any delay of or failure/rejection of a porting request.

3.17.7 Update of Records

At the Porting Completion Time:

- (i) each relevant Contract registered in the relevant Transferor Clearing Member’s relevant Client Position Account will be de-registered and flagged as “TRANSFERED” in the “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)”;
- (ii) the status of each relevant Contract successfully ported to and registered in the Transferee Clearing Member’s relevant Client Position Account will be flagged as “CLEARED” in the “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)”;
- (iii) Collateral records (where applicable) in the relevant Transferor Clearing Member’s relevant Client Collateral Account and the Transferee Clearing Member’s relevant Client Collateral Account will be updated accordingly and reflected in the “OTC Clear Risk Management Report (Report Number RMRP05)”.

3.17.8 Payments and obligations due from the relevant Transferor Clearing Member

Notwithstanding the submission of a porting request in respect of the Contracts in a Client Position Account and the Collateral in its corresponding Client Collateral Account, payment and other obligations due in respect of that Client Position Account and its corresponding Client Collateral Account prior to the relevant Porting Completion Time of such porting request will continue to be obligations of the relevant Transferor Clearing Member.

For the avoidance of doubt, if a porting request is rejected by OTC Clear or cannot be completed successfully, payment and other obligations due in respect of that Client Position Account and its corresponding Client Collateral Account will continue to be obligations of the relevant Transferor Clearing Member.

3.17.9 Payments and obligations due from the Transferee Clearing Member

Payment and other obligations due in respect of the Contracts in a Client Position Account and the Collateral in its corresponding Client Collateral Account on and after the relevant Porting Completion Time of a porting request will be obligations of the Transferee Clearing Member.

3.18 Porting of Contracts and Collateral amongst Client Accounts of a Clearing Member

Upon receipt of valid instructions from a Client wishing to change the segregation arrangements applicable to all the Contracts and Collateral identified as being held on its behalf by its Clearing Member, a Clearing Member may submit a request to port all of such Contracts and Collateral:

- (i) from the Client Clearing Category 1 Position Account and corresponding Client Clearing Category 1 Collateral Account identified as relating to such Client to a Client Clearing Category 2 Position Account and corresponding Client Clearing Category 2 Collateral Account identified as relating to such Client;
- (ii) from the Client Clearing Category 2 Position Account and corresponding Client Clearing Category 2 Collateral Account identified as relating to such Client to the Client Clearing Category 1 Position Account and corresponding Client Clearing Category 1 Collateral Account identified as relating to such Client; or
- (iii) from the Client Clearing Category 2 Position Account and corresponding Client Clearing Category 2 Collateral Account identified as relating to such Client to another Client Clearing Category 2 Position Account and corresponding Client Clearing Category 2 Collateral Account identified as relating to such Client.

Each Client must be allocated to one single Client Clearing Category at any given time. If any Contract or Collateral cannot be ported successfully, the entire porting request will be deemed unsuccessful and must be corrected and resubmitted.

Contracts eligible for porting must not have reached their scheduled Termination Date or Settlement Date, and must remain outstanding as of the date of the submission of the porting request.

A Clearing Member must submit a separate porting request for each Client.

In respect of each porting request, each Clearing Member is deemed to acknowledge, represent and undertake that:

- (a) it has duly informed its Client of the difference in rights, obligations and risk between the Client Clearing Category that such Client is currently allocated to and the Client Clearing Category that such Client is electing to change to;
- (b) it has received proper Client authorization for the instructions contained in such porting request;
- (c) it is solely responsible for the accuracy and completeness of the information contained in such porting request;
- (d) OTC Clear is entitled to rely conclusively on the instructions and information provided in such porting request without further enquiry; and
- (e) OTC Clear shall incur no liability for any delay, rejection, loss, cost, claim, action, demand or expense in the processing of such porting request and in effecting the porting of Contracts and Collateral in reliance on the information contained in such porting request.

3.18.1 Requirements

Each porting request submitted pursuant to section 3.18 will only be accepted and processed by OTC Clear if all of the following conditions are satisfied:

- (i) the Clearing Member submits to OTC Clear an original completed and signed form for portfolio porting between Client Accounts at the same Clearing Member^{*};
- (ii) Contracts and Collateral are being ported from a Client Position Account and corresponding Client Collateral Account identified as being held by the Clearing Member relating to a particular Client to a Client Position Account and corresponding Client Collateral Account identified as being held by the Clearing Member relating to the same Client;
- (iii) details of the particular Client and the Contracts and Collateral identified as being held by the Clearing Member relating to such Client as set out in the porting request match OTC Clear's records of such Client's holdings in the Clearing Member's relevant Client Position Account and corresponding Client Collateral Account;
- (iv) the Clearing Member must ensure that there is sufficient Collateral[†] comprising the Margin Balance of the relevant Client Collateral Account corresponding to the Client Position Account into which Contracts are being ported prior to the last Portfolio Novation Cycle on the fourth OTC Clear Business Day following the submission of the porting request; and
- (v) no DMP Event has occurred with respect to the Clearing Member.

3.18.2 Timing

A porting request satisfying the requirements set out in section 3.18.1 above which is received by OTC Clear by 13:00 hours Hong Kong time on an OTC Clear Business Day will be processed by OTC Clear and OTC Clear will use its reasonable endeavours to complete such porting request by 19:30 hours Hong Kong time on the fourth OTC Clear Business Day following the date of receipt of such request. Porting requests received by OTC Clear on a day which is not an OTC Clear Business Day or after 13:00 hours Hong Kong time on an OTC Clear Business Day, will be deemed to be received on the next OTC Clear Business Day. OTC Clear will notify the Clearing Member through the web portal of the date and time on which each porting request has been successfully effected.

Please refer to sections 9.5.1.3, 9.5.1.4, 9.5.2.3 and 9.5.2.4 for porting requests received under adverse weather conditions.

OTC Clear shall not be liable to any person in any way whatsoever for any delay of or failure/rejection of a porting request.

3.18.3 Update of Records and closing of existing Client Accounts

In respect of each porting request that has been successfully effected:

- (i) where such porting request relates to a scenario described in section 3.18 above, OTC Clear will close the existing Client Clearing Category 1 Position Account and its corresponding Client Clearing Category 1 Collateral Account identified as relating to the relevant Client and

^{*} Available on request from OTC Clear

[†] It is likely that the Margin requirements are likely to increase for example where a Client wishes to port Contracts and Collateral from a Client Clearing Category 2 Position Account identified as relating to such Client to a Client Clearing Category 1 Position Account identified as relating to such Client.

- earmark the relevant existing Client Clearing Category 2 Position Account and its corresponding Client Clearing Category 2 Collateral Account as relating to the relevant Client;
- (ii) where such porting request relates to a scenario described in section 3.18 above, OTC Clear will open a new Client Clearing Category 1 Position Account and corresponding Client Clearing Category 1 Collateral Account under the relevant Clearing Member and earmark such Client Accounts as relating to the relevant Client;
 - (iii) where such porting request relates to a scenario described in section 3.18 above, OTC Clear will earmark the relevant existing Client Clearing Category 2 Position Account and its corresponding Client Clearing Category 2 Collateral Account as relating to the relevant Client;
 - (iv) each Contract registered on behalf of the relevant Client in the existing Client Position Account identified as relating to such Client will be de-registered and flagged as “TRANSFERED” in the “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)”;
 - (v) the status of each Contract successfully ported to and registered in the new Client Position Account identified as relating to such Client will be flagged as “CLEARED” in the “OTC Clear Trade Report for Client (Report Number TDRP01_C or TDRP02_C)”;
 - (vi) Collateral records in the relevant Clearing Member’s relevant Client Collateral Accounts will be updated accordingly and reflected in the “OTC Clear Risk Management Report (Report Number RMRP05)”.

3.19 Notional Exchange Failure Handling Procedures

Following the occurrence of a Notional Exchange Failure:

- (i) OTC Clear may, on the basis of the Notional Exchange Failure, determine that the Non-delivering Clearing Member is or appears to be unable, or likely to become unable, to meet its obligations in respect of the Clearing Documentation and/or one or more Contracts to which it is party, such that an Event of Default occurs with respect to the Non-delivering Clearing Member pursuant to Clearing Rule 1301 (an “**Event of Default Determination**”); and
- (ii) irrespective of whether OTC Clear makes an Event of Default Determination in respect of that Notional Exchange Failure:
 - (a) subject to sub-paragraph (d) below, OTC Clear will continue the settlement of Initial Exchange Amounts and Final Exchange Amounts of Standard Cross-currency Rates Derivatives Contracts with other Clearing Members;
 - (b) OTC Clear may, in its sole discretion, obtain one or more short term loans and/or enter into one or more FX Transactions in order to fulfil OTC Clear’s outstanding obligations with other Clearing Members under Standard Cross-currency Rates Derivatives Contracts;
 - (c) if the relevant Initial Exchange Amount or Final Exchange Amount, as the case may be (the “**Unpaid Exchange Amount**”), remains unpaid at 13:00 hours Hong Kong time on the relevant Initial Exchange Date or Final Exchange Date, as the case may be, OTC Clear may, in its sole discretion, elect to satisfy its obligation to pay the Corresponding Exchange Amount in the following manner:
 - (A) the obligation of the Non-delivering Clearing Member to pay the Unpaid Exchange Amount shall be replaced by an obligation to pay an amount (the “**Substitute Exchange Amount**”) equal to (and payable in the same currency and on the same date as) the Corresponding Exchange Amount. The obligation

of OTC Clear to pay the Corresponding Exchange Amount shall be immediately and automatically set-off against the obligation of Non-delivering Clearing Member to pay the Substitute Exchange Amount such that each such obligation is discharged in full;

- (B) OTC Clear shall determine the Notional Exchange Failure Adjustment Amount in respect of the Unpaid Exchange Amount; and
 - (C) if that Notional Exchange Failure Adjustment Amount is a positive number, the Non-delivering Clearing Member shall pay it to OTC Clear immediately upon demand and if that Notional Exchange Failure Adjustment Amount is a negative number, OTC Clear shall pay the absolute value of such amount to the Non-delivering Clearing Member as soon as practicable (subject to any rights of set-off against amounts owed by the Non-delivering Clearing Member to OTC Clear, including, without limitation, amounts owed by the Non-delivering Clearing Member pursuant to Clearing Rule 1002A);
- (d) in the event that OTC Clear is unable, as a result of that Notional Exchange Failure, to satisfy its obligation to pay an Initial Exchange Amount or Final Exchange Amount (the “**Affected Amount**”) under a Standard Cross-currency Rates Derivatives Contract with any other Clearing Member (the “**Affected Clearing Member**”) in the currency in which the Affected Amount is denominated by 16:00 hours Hong Kong time on the relevant Initial Exchange Date or Final Exchange Date, as the case may be:
- (A) OTC Clear shall promptly notify the Affected Clearing Member of OTC Clear’s inability to do so; and
 - (B) OTC Clear may, in its sole discretion, elect to satisfy its obligation to pay that Affected Amount in the following manner:
 - (i) the obligation of OTC Clear to pay the Affected Amount shall be replaced by an obligation to pay an amount (the “**Substitute Affected Amount**”) equal to (and payable in the same currency and on the same date as) the Corresponding Affected Amount. The obligation of the Affected Clearing Member to pay the Corresponding Affected Amount shall be immediately and automatically set-off against the obligation of OTC Clear to pay the Substitute Affected Amount such that each such obligation is discharged in full;
 - (ii) OTC Clear shall determine the Notional Exchange Failure Adjustment Amount in respect of the Unpaid Exchange Amount (if not already calculated pursuant to sub-paragraph (c) above); and
 - (iii) if that Notional Exchange Failure Adjustment Amount is a positive number, OTC Clear shall pay an amount equal to that amount to the Affected Clearing Member and if it is a negative number, the Affected Clearing Member shall pay an amount equal to the absolute value of such amount to OTC Clear, in each case as soon as practicable, but in no event later than 2 OTC Clear Business Days after the relevant Initial Exchange Date or Final Exchange Date, as the case may be; and
- (e) unless and until the Non-delivering Clearing Member fails to pay or deliver any amounts (excluding Initial Exchange Amounts and Final Exchange Amounts) when due under the Clearing Documentation or an Event of Default occurs with respect to

the Non-delivering Clearing Member, OTC Clear will continue the settlement of cash settlements (other than Initial Exchange Amounts and Final Exchange Amounts) with the Non-defaulting Clearing Member in accordance with section 3.11 of these Clearing Procedures.

For the purpose of this section 3.19:

“Corresponding Affected Amount” means, in respect of an Affected Amount, the corresponding Initial Exchange Amount or Final Exchange Amount (as the case may be) payable by the relevant Affected Clearing Member to OTC Clear under the relevant Standard Cross-currency Rates Derivatives Contract on the Initial Exchange Date or Final Exchange Date (as the case may be) for that Affected Amount;

“Corresponding Exchange Amount” means, in respect of an Unpaid Exchange Amount, the corresponding Initial Exchange Amount or Final Exchange Amount (as the case may be) payable by OTC Clear to the Non-delivering Clearing Member under the relevant Standard Cross-currency Rates Derivatives Contract on the Initial Exchange Date or Final Exchange Date (as the case may be) for that Unpaid Exchange Amount;

“Market Quotation” means, in respect of an Unpaid Exchange Amount, an amount that would be payable by OTC Clear in the currency of the Corresponding Exchange Amount in consideration for receiving an amount equal to (and in the same currency as) that Unpaid Exchange Amount based on the relevant spot foreign exchange rate published by the Treasury Markets Association on the relevant Initial Exchange Date or Final Exchange Date, as the case may be; and

“Notional Exchange Failure Adjustment Amount” means, in respect of an Unpaid Exchange Amount, an amount equal to the Market Quotation in respect of that Unpaid Exchange Amount minus the Corresponding Exchange Amount, provided that if such Market Quotation cannot be determined, OTC Clear will determine the Notional Exchange Failure Adjustment Amount (or a method for determining the Notional Exchange Failure Adjustment Amount), taking into consideration all available information that in good faith it deems relevant.

Chapter 4

Margin and Valuation

4.1 Margin Requirement

A Clearing Member must at all times satisfy its Margin requirements calculated by OTC Clear in respect of all Contracts registered in its name. The Margin requirements in respect of Contracts recorded to a Clearing Member's House Position Account may be netted against each other, and the Margin requirement in respect of Contracts recorded to a Clearing Member's Client Position Account may be netted against each other, but not against Contracts recorded to such Clearing Member's House Position Account or other Client Position Account(s).

The types of Margin that may be demanded by OTC Clear in respect of each Clearing Member are summarised below:

- (i) Initial Margin (see section 4.2) – which in most circumstances is calculated during the End-of-Day Settlement Process in respect of each Position Account. Initial Margin will be calculated and presented in the Base Currency, and a Clearing Member may satisfy its Initial Margin requirements either in cash in any Eligible Currency or, subject to any Collateral Concentration Limit imposed by OTC Clear, any non-cash assets specified pursuant to section 7.3 of these Clearing Procedures. OTC Clear may, at any time during an OTC Clear Clearing Day, demand ad hoc intra-day Initial Margin from each Clearing Member if it determines that the then market conditions warrant this. Ad hoc intra-day Initial Margin requirement will apply to each Clearing Member with respect to each Position Account then registered in its name (including both its House Position Account and Client Position Account(s), if any). With respect to each such Position Account, ad hoc intra-day Initial Margin will be determined and presented in the Base Currency, and the Clearing Member may satisfy such demand either in cash in any Eligible Currency or any non-cash assets specified in section 7.3 of these Clearing Procedures;
- (ii) Variation Margin
 - (a) End-of-day Variation Margin (see section 4.3) – which is calculated during the End-of-Day Settlement Process in respect of each Contract. End-of-day Variation Margin will be calculated and presented in the Contractual Currency of the Contract, and a Clearing Member shall satisfy the end-of-day Variation Margin requirements in cash in the relevant Contractual Currency;
 - (b) Routine Intra-day VM Call (see section 4.4.2) – which may be made by OTC Clear at the Routine VM Call Time during an OTC Clear Business Day. At regular intervals during an OTC Clear Clearing Day, OTC Clear will determine the aggregate Initial Margin and Additional Margin requirements in respect of all the Contracts then recorded to a Clearing Member's House Position Account, taking into consideration any Variation Margin requirements reflecting intra-day market movements, and compare the same with the then Margin Balance relating to such Clearing Member's House Position Account. If the Initial Margin and Additional Margin requirements relating to a Clearing Member's House Position Account, taking into consideration any intra-day market movements, exceed the then Margin Balance relating to such Clearing Member's House Position Account by an amount equal to or greater than the Intra-day VM Limit set for such Clearing Member, then OTC Clear will make a Routine Intra-day VM Call with respect to such Clearing Member.

Routine Intra-day VM Call will be determined and presented in the Base Currency, and a Clearing Member may satisfy the Routine Intra-day VM Call either in cash in any Eligible Currency, or any non-cash assets specified pursuant to section 7.3 of these Clearing Procedures under the circumstances described in Clearing Rule 1211.

References to “intra-day market movements” as used in this section 4.1(ii)(b) means, with respect to an OTC Clear Clearing Day, any mark-to-market movements during the period from the completion of the End-of-Day Settlement Process on the immediately preceding OTC Clear Clearing Day to the time preceding the Routine VM Call Time, taking into account the latest market data then available, on such OTC Clear Clearing Day; and

- (c) Ad Hoc Intra-day VM Call (see section 4.4.3) – which may be made by OTC Clear at anytime on an OTC Clear Clearing Day if it determines that the then market conditions warrant an Ad Hoc Intra-day VM Call. The imposition of an Ad Hoc Intra-day VM Call, if applicable, will apply to each Clearing Member with respect to each Contract then registered in its name (including both House Position Account and Client Position Account, if any). With respect to each such Contract, Ad Hoc Intra-day VM Call will be determined and presented in the Contractual Currency of the relevant Contract, and the Clearing Member shall satisfy the Ad Hoc Intra-day VM Call in cash in any Eligible Currency and non-cash assets eligible as Collateral.
- (iii) Additional Margin
- (a) Holiday Margin (see section 4.5.1) – OTC Clear may impose Holiday Margin in the circumstances described in section 4.5.1. Holiday Margin will be determined and presented in the Base Currency, and a Clearing Member may satisfy its Holiday Margin requirements either in cash in any Eligible Currency or any non-cash assets specified pursuant to section 7.3 of these Clearing Procedures;
 - (b) Others (see section 4.5.2) – OTC Clear may also impose additional Margin in the circumstances described in section 4.5.2. Each of Holiday Margin, Notional Exchange Failure Margin and any additional Margin imposed by OTC Clear in the circumstances described in section 4.5.2 shall be “**Additional Margin**”. Additional Margin will be determined and presented in the Base Currency, and a Clearing Member may satisfy its Additional Margin requirements either in cash in any Eligible Currency or any non-cash assets specified pursuant to section 7.3 of these Clearing Procedures. OTC Clear may demand Additional Margin on each OTC Clear Clearing Day: at 08:30 hours Hong Kong time, at 14:15 hours Hong Kong time and at any other time determined by OTC Clear between 08:30 hours Hong Kong time and 15:00 hours Hong Kong time; and
 - (c) Notional Exchange Failure Margin (see section 4.5.3) – OTC Clear may also demand Notional Exchange Failure Margin in the circumstances described in section 4.5.3.

Pricing and market data for calculating Margin (including construction of curves used in such calculations) will be obtained by OTC Clear from external quotes and third party sources throughout an OTC Clear Clearing Day. Details of the relevant pricing and market data, as well as curve construction methodology, for Rates Derivatives Contracts and FX Derivatives Contracts are set out in sections 5.1 and 5.2 of these Clearing Procedures, respectively.

In respect of any Margin requirements determined and presented in the Base Currency that may be satisfied by a Clearing Member in an Eligible Currency other than the Base Currency or non-cash

assets denominated in a currency other than the Base Currency, satisfaction of such Margin requirements will be determined by OTC Clear by reference to relevant exchange rate(s) using third party data sources available on the latest practicable Currency Day. The relevant exchange rate(s) will be notified to the Clearing Members.

4.2 Initial Margin

Initial Margin in respect of a Position Account covers the potential future exposure that OTC Clear could face in normal market conditions in the interval between its last Variation Margin collection in respect of such Position Account and the close-out of all Contracts recorded to such Position Account following the occurrence of a DMP Event with respect to the relevant Clearing Member. Pursuant to Clearing Rule 1205, OTC Clear may, at any time during an OTC Clear Clearing Day, demand ad hoc intra-day Initial Margin from each Clearing Member if it determines that the then market conditions warrant this. OTC Clear will, to the extent reasonably practicable, consult with the Risk Management Committee prior to determining whether the market conditions at the relevant time warrant a demand for ad hoc intra-day Initial Margin. If OTC Clear is unable to consult with the Risk Management Committee sufficiently promptly in the circumstances, OTC Clear will consult with the chief executive of OTC Clear. In the event that the chief executive of OTC Clear is unavailable at the time for any reason, OTC Clear will consult with any Representative of OTC Clear designated by the OTC Clear Board from time to time for purposes of the applicable consultation. In determining the amount of Collateral required with respect to each Position Account as a result of a demand for ad hoc intra-day Initial Margin, OTC Clear will perform a process substantially similar to the End-of-Day Settlement Process that relates to the determination of end-of-day Initial Margin. In addition to issuing the relevant call for ad hoc intra-day Initial Margin, OTC Clear will also use reasonable endeavours to notify each Clearing Member of such demand by telephone call or electronic mail.

4.2.1 Initial Margin Calculation Parameters and Methodology

Initial Margin is calculated with respect to each Clearing Member's portfolio of Contracts recorded in each of such Clearing Member's Position Account (for the avoidance of doubt, each Client Position Account shall be treated separately) using an internally-built value-at-risk margin model based on simulation of historical data. Stress scenarios will be calibrated using historical volatility for yield and FX curves. Please contact OTC Clear for details.

Initial Margin is calculated in a different manner with respect to a Clearing Member's House Position Account and Client Position Account(s):

- (i) in respect of a House Position Account, the Initial Margin calculation will meet single-tailed confidence level of at least 99.0% with respect to a 5-OTC Clear Clearing Day close-out period; and
- (ii) in respect of a Client Position Account, the Initial Margin calculation will meet single-tailed confidence level of at least 99.0% with respect to a 7-OTC Clear Clearing Day close-out period.

4.2.2 Alteration to Initial Margin Calculation Parameters and Methodology

The Initial Margin calculation parameters and methodology are back-tested and reviewed regularly by the OTC Clear. OTC Clear may alter the Initial Margin calculation parameters and methodology where appropriate. Please contact OTC Clear for details.

4.2.3 Risk Multiplier

Save and except for the Liquidity Risk Multiplier described in section 4.2.3.1 which OTC Clear may decide to impose in its sole discretion, OTC Clear may, in consultation with the Risk Management

Committee, include different risk multipliers as part of the Initial Margin calculation where appropriate. The applicability of risk multipliers and the relevant thresholds will be reviewed regularly by OTC Clear. OTC Clear will notify Clearing Members if it decides to adopt a risk multiplier.

4.2.3.1 Liquidity Risk Multiplier

Liquidity risk multiplier (the “**Liquidity Risk Multiplier**”) is one type of risk multipliers that may be imposed by OTC Clear. OTC Clear will apply the Liquidity Risk Multiplier to the Initial Margin calculation of a Clearing Member’s Position Account if a Clearing Member’s portfolio of Contracts in its House Position Account or any of its Client Position Accounts have exposures above set thresholds in a particular parameter, including but without limitation to currency, curve or underlying rate or in respect of the aggregate portfolio risk.

In order to determine the calibration of the levels of Liquidity Risk Multiplier to be applied to the Initial Margin calculations of a Clearing Member’s Position Account, OTC Clear may solicit bid/ask spread data or request other information from Clearing Members. The level of the Liquidity Risk Multiplier may vary from time to time, and OTC Clear will notify the Clearing Members of the updated level of the Liquidity Risk Multiplier.

As a result of the application of a Liquidity Risk Multiplier to the Initial Margin calculation with respect to a Position Account, additional Initial Margin will be required in respect of such Position Account.

4.2.3.2 Notional Exchange Risk Multiplier

The notional exchange risk multiplier (the “**Notional Exchange Risk Multiplier**”) is one type of risk multiplier that may be imposed by OTC Clear. OTC Clear will apply the Notional Exchange Risk Multiplier to the Initial Margin calculation of a Clearing Member’s Position Account based on the aggregate of the Initial Exchange Amounts and/or Final Exchange Amounts of the Standard Cross-currency Rates Derivatives Contracts in a Clearing Member’s House Position Account and its Client Position Accounts.

To calibrate the Notional Exchange Risk Multiplier, OTC Clear may solicit bid/ask spread data or request other information from Clearing Members (including but not limited to market volatility or market liquidity of different currency pair(s) over different time horizons). The level of the Notional Exchange Risk Multiplier may vary from time to time, and OTC Clear will notify the Clearing Members of the revised Notional Exchange Risk Multiplier.

After the application of the Notional Exchange Risk Multiplier, OTC Clear may request additional Collateral from Clearing Members.

4.3 Variation Margin

Variation Margin covers OTC Clear’s calculation of the amount that is required to settle the daily or intra-day diminution in the net present value (if any) of the Contracts in each Position Account. Collection of Variation Margin helps to ensure that the risk exposure assumed by OTC Clear is constantly monitored and that OTC Clear remains risk neutral.

4.3.1 Calculation and Valuation Process

OTC Clear will calculate, regularly, during the Margin Process Hours, the net present value and market price movements of each Contract using zero coupon curves constructed in accordance with Chapter 5 of these Clearing Procedures based on the latest market prices available from market sources. The latest market prices utilised in such calculations will be published on the Web Portal on each OTC Clear Clearing Day.

4.3.2 Price Alignment Interest

Variation Margin will be adjusted by application of price alignment interest (“**PAI**”). Without a PAI, the pricing of a Contract registered with OTC Clear would be distorted from that of equivalent transactions which are not registered with OTC Clear. PAI is intended to settle the internal rate of return on the cumulative Variation Margin payments transferred in respect of each OTC Clear Clearing Day.

In respect of each Clearing Member and its House Position Account and Client Position Account(s) (for such purpose, each Client Position Account shall be treated separately), PAI will be calculated separately in respect of all Contracts with the same Contractual Currency in each such Position Account during the End-of-Day Settlement Process on each OTC Clear Business Day from (and including) the first OTC Clear Business Day after the trade date of the relevant Contract to (and including) the OTC Clear Business Day prior to the settlement date of the relevant Contract (each, “**T₀**”). PAI is calculated by OTC Clear in accordance with the following formula:

$$PAI_{T_0} = NPV_{T_{-1}} \times PAI \text{ Rate}_{T_{PAI}} \times \text{Accrual Factor}$$

where,

- (i) $NPV_{T_{-1}}$ is the net present value determined as at 18:00 hours Hong Kong time on T_{-1} or such other time on T_{-1} as OTC Clear considers appropriate and notifies to the Clearing Members from time to time, where “**T₀**” is an OTC Clear Business Day and “**T₋₁**” is the OTC Clear Business Day immediately preceding T_0 ;
- (ii) PAI Rate means the annual percentage rate is determined by OTC Clear by reference to the relevant end-of-day overnight index swap (“**OIS**”) curves calculated on T_{PAI} , where “**T_{PAI}**” is the Currency Day (for the relevant Contractual Currency) immediately preceding T_0 if the relevant OIS curves are available on such day (T_{-1}), or if the relevant OIS curves are not available on T_{-1} , the last relevant OIS curves available (for the avoidance of doubt, if T_{PAI} falls on a day other than a Currency Day, the relevant OIS curves the nearest immediately preceding Currency Day will be used); and
- (iii) Accrual Factor means the day count fraction that is used by OTC Clear to convert the PAI Rate from an annual rate to a daily rate, on a basis of a year with a number of days equal to:
 - (a) 360 calendar days; or
 - (b) 365 calendar days,as OTC Clear may, from time to time, determine to be appropriate in accordance with the then market convention for the conversion of the PAI Rate.

PAI will be notified to each Clearing Member and will be paid or received by such Clearing Member, as the case may be, as part of its Variation Margin requirement.

4.4 Intra-day Variation Margin

4.4.1 Intra-day Variation Margin Call and Calculation

There are two types of intra-day Variation Margin calls:

- (i) Routine Intra-day VM Call as set out in section 4.4.2; and
- (ii) Ad Hoc Intra-day VM Call as set out in section 4.4.3.

4.4.2 Routine Intra-day VM Call

Each Clearing Member has its intra-day Variation Margin limit (“**Intra-day VM Limit**”) which is the threshold level at which a Routine Intra-day VM Call will be triggered in respect of such Clearing Member’s Contracts recorded to its House Position Account only (for the avoidance of doubt, no Routine Intra-day VM Call shall be made in respect of any Client Position Account(s)). OTC Clear will set an Intra-day VM Limit for each Clearing Member based on, including without limitation, the following factors:

- (i) OTC Clear’s determination of the relative change in Margin requirements in respect of such Clearing Member’s House Position Account;
- (ii) prevailing market conditions;
- (iii) OTC Clear’s evaluation of the financial condition of such Clearing Member and its Affiliates; and
- (iv) OTC Clear’s evaluation of the operational capability of such Clearing Member and its Affiliates.

Each Clearing Member will be notified of the Intra-day VM Limit applicable to it, and such Intra-day VM Limit will be reviewed by OTC Clear on a regular basis.

Between the hours of 08:30 hours Hong Kong time and 14:00 hours Hong Kong time on each OTC Clear Business Day, OTC Clear may, at regular intervals, calculate the aggregate Initial Margin and Additional Margin requirements in respect of each Clearing Member’s House Position Account, taking into consideration any Variation Margin requirements reflecting intra-day market movements. In the event that the aggregate Initial Margin and Additional Margin requirement in respect of such House Position Account, taking into account any Variation Margin requirements reflecting intra-day market movements, exceeds the aggregate value of the Margin Balance relating to such Clearing Member’s House Position Account by an amount equal to or greater than the Intra-day VM Limit in respect of such Clearing Member, OTC Clear will make a routine intra-day Variation Margin call (a “**Routine Intra-day VM Call**”) with respect to such Clearing Member on such OTC Clear Business Day. The time of the Routine Intra-day VM Call will be the same on any OTC Clear Business Day and will be published on the HKEx website (the “**Routine VM Call Time**”). References to “intra-day market movements” as used in this section 4.4.2 means, with respect to an OTC Clear Clearing Day, any mark-to-market movements during the period from the completion of the End-of-Day Settlement Process on the immediately preceding OTC Clear Clearing Day to the time preceding the Routine VM Call Time, taking into account the latest market data then available, on such OTC Clear Clearing Day.

If, prior to OTC Clear making a Routine Intra-day VM Call on an OTC Clear Business Day, the relevant Clearing Member has delivered additional Collateral such that the breach of the Intra-day VM Limit described in the immediately foregoing paragraph has been cured, no Routine Intra-day VM Call will be made on such OTC Clear Business Day.

4.4.3 Ad Hoc Intra-day VM Call

In addition to the Routine Intra-day VM Call described in section 4.4.2, OTC Clear may make an ad hoc intra-day Variation Margin call (an “**Ad Hoc Intra-day VM Call**”) at any time on an OTC Clear Clearing Day if OTC Clear determines that the market conditions at the relevant time requires an Ad Hoc Intra-day VM Call. OTC Clear will, to the extent reasonably practicable, consult with the Risk Management Committee prior to determining whether the market conditions at the relevant time warrant this. If OTC Clear is unable to consult with the Risk Management Committee sufficiently promptly in the circumstances, OTC Clear will consult with the chief executive of OTC Clear. In the event that the chief executive of OTC Clear is unavailable at the time for any reason, OTC Clear will

consult with any Representative of OTC Clear designated by the OTC Clear Board from time to time for purposes of the applicable consultation.

Once OTC Clear determines that an Ad Hoc Intra-day VM Call shall be imposed, such imposition of Ad Hoc Intra-day VM Call shall apply to each Clearing Member with respect to each Contract then registered in its name (including its House Position Account and Client Position Account, if any). In determining the amount of Collateral required with respect to each Contract as a result of the Ad Hoc Intra-day VM Call, no PAI adjustment will be made in the determination of an Ad Hoc Intra-day VM Call. Upon imposition of an Ad Hoc Intra-day VM Call in respect of a Position Account, each Clearing Member must deposit Collateral to ensure that it has a Margin Balance on the corresponding Collateral Account that is equal to or greater than the Margin requirement on that Position Account.

In addition to issuing the relevant Ad Hoc Intra-day VM Call on the Web Portal, OTC Clear will also use reasonable endeavours to notify each Clearing Member of the Ad Hoc Intra-day VM Call by telephone call or electronic mail.

Please refer to the Web Portal User Manual for more details on the timing of an Ad Hoc Intra-day VM Call.

4.4.4 Settlement of Intra-day Variation Margin

Collateral for satisfaction of any intra-day Variation Margin call (including both the Routine Intra-day VM Call described in section 4.4.2 and Ad Hoc Intra-day VM Call described in section 4.4.3) must be received by OTC Clear within one hour after the call is made.

For the avoidance of doubt, notwithstanding section 4.7, if subsequent to an Ad Hoc Intra-day VM Call, and the delivery of Collateral by a Clearing Member to settle such call, the market price movements of the relevant Contract results in there being gains recorded to the relevant Collateral Account relating to the Clearing Member, the sum representing such gains will not be paid to the Clearing Member through the End-of-Day Settlement Process on the relevant day as part of the Variation Margin payable by OTC Clear to such Clearing Member, but will be reflected as Excess Margin in the relevant Collateral Account which can be withdrawn or transferred as set out in sections 3.9 and 3.10.

4.5 Additional Margin

Pursuant to Clearing Rules 1208 and 1510, OTC Clear may at its discretion impose Additional Margin requirements on any Clearing Member in the circumstances described in this section 4.5. Any delivery of Collateral for the purpose of satisfying an Additional Margin requirement pursuant to this section 4.5 will be recorded by OTC Clear in the relevant Collateral Account.

4.5.1 Holiday Margin

One such Additional Margin requirement is the temporary Margin adjustment on each Position Account to cover potential market volatility during days which are not OTC Clear Business Days ("**Holiday Margin**"). Such potential market volatility refers to the additional market risk that OTC Clear may have to bear arising from significant overseas market movements during such days. The calculation of Holiday Margin is based on an internally-built exponentially weighted moving average model with reference to the number of days in the relevant period. Details of the Holiday Margin levels will be notified to Clearing Members prior to the beginning of the relevant period. For example, if Monday is not an OTC Clear Business Day, Clearing Members will be notified of the level of Holiday Margin by 21:30 hours Hong Kong time on the second OTC Clear Business Day preceding such Monday (i.e. the immediately preceding Thursday). The relevant Holiday Margin call will be made by OTC Clear at 08:30 hours Hong Kong time on the OTC Clear Business Day preceding such Monday

(i.e. the immediately preceding Friday), and Clearing Members shall satisfy in full the Holiday Margin by 09:30 hours Hong Kong time on the same day.

4.5.2 Others

In addition to the Holiday Margin described in section 4.5.1 and Notional Exchange Failure Margin in section 4.5.3, OTC Clear may impose Additional Margin requirements on a Clearing Member at its sole discretion in the following situations:

- (i) if a Clearing Member fails to maintain Capital in an amount at least equal to the greater of its Expected Uncollateralized Loss and Minimum Capital Requirement;
- (ii) if a Clearing Member fails to maintain Capital in an amount required to ensure the value of its then CM Funded Contribution Amount (determined on an OTC Clear Clearing Day as if it was a Rates and FX Contribution Determination Date) is less than 20% of the then total amount of the Capital of such Clearing Member (please see section 2.3.1 of these Clearing Procedures);
- (iii) if a Clearing Member's Membership is being suspended by OTC Clear pursuant to Clearing Rule 601;
- (iv) in the circumstances described under Clearing Rule 1510;
- (v) if the Margin Balance of a Clearing Member decreases due to either market movement affecting the value of such Collateral or change in the applicable Collateral Haircut, or if OTC Clear determines there are wrong-way risk concerns on any of a Clearing Member's Position Account(s); or
- (vi) if a Clearing Member has exceeded its Position Limit as described in Clearing Rule 1223(2).

In all other situations not specifically provided for under section 4.5.1, this section 4.5.2 or section 4.5.3, OTC Clear may impose Additional Margin requirements on a Clearing Member provided that it has first consulted with the Risk Management Committee.

4.5.3 Notional Exchange Failure Margin

OTC Clear may also demand Notional Exchange Failure Margin in the circumstances described in Clearing Rule 1002A. A Clearing Member must satisfy its Notional Exchange Failure Margin requirements in such form, in such amount and at such time as may be requested by OTC Clear pursuant to Clearing Rule 1002A.

4.6 Margin Process

Margin Process will be performed in respect of submission of Original Transactions for registration, and a de-registration request (see section 3.6 of the Clearing Procedures).

Sections 4.6.1 to 4.6.4 relate to the Margin Process conducted in respect of submission of Original Transactions, and section 4.6.5 relates to the Margin Process conducted in respect of a de-registration request.

4.6.1 Position Limits

Original Transactions submitted for registration must satisfy, without limitation, the following conditions:

- (i) Position Limits check as set out in this section 4.6.1; and
- (ii) Margin and credit check as set out in sections 4.6.2 and 4.6.3.

Pursuant to Clearing Rule 1222, OTC Clear may prescribe, amend or revoke Position Limits. In addition, unless with the prior written approval from OTC Clear, OTC Clear requires a Clearing Member to impose a House Account Limit or (if applicable) Client Account Limit in respect of its House Position Account and Client Position Account(s) in accordance with section 4.6.1.1. Each of the limits referred to in this section 4.6.1 is a Position Limit. OTC Clear will not register any Original Transaction if registering such Original Transaction will cause, among others, a Position Limit described herein to be breached. All Position Limits imposed by OTC Clear are subject to changes from time to time and OTC Clear will notify the relevant Clearing Member(s) in respect of any such changes.

4.6.1.1 Account Limits

Unless with the prior written approval from OTC Clear, a Clearing Member shall, as part of its risk management policies and procedures pursuant to section 2.3.3 of these Clearing Procedures, set a limit for all of its House Position Account (“**House Account Limit**”) and/or (if it provides Client Clearing Services) for each of its Client Position Account(s) separately (each a “**Client Account Limit**”, and together with House Account Limit, the “**Account Limits**”) in the Rates and FX Clearing System by utilizing the risk limit functionality. A Clearing Member shall inform OTC Clear in writing prior to making any changes to any Account Limits.

Notwithstanding that a Clearing Member may set any Account Limits, OTC Clear reserves the right to change any Account Limits from time to time if OTC Clear determines in its sole discretion that such Account Limits are not appropriate or commercially reasonable. OTC Clear will provide the relevant Clearing Member with reasonable advance notice, and in any event no less than two OTC Clear Business Days, prior to effecting any changes to the Account Limits, provided that if any such changes are required by Applicable Laws or the rules, regulations or requests of a Regulatory Authority, then OTC Clear may implement such changes without prior notice to the Clearing Member. Under normal circumstances, OTC Clear will most likely only lower an Account Limit. However, OTC Clear may consider increasing such Account Limits during the Default Management Process (for example, to allow porting of Affected Contracts to a Replacement Clearing Member) or for backloading of historical portfolios.

4.6.1.2 Absolute Risk Limit

OTC Clear may impose an absolute risk limit (the “**Absolute Risk Limit**”) in respect of any Position Account. OTC Clear will use reasonable endeavours to provide the relevant Clearing Member with reasonable advance notice prior to imposing any Absolute Risk Limit. The Absolute Risk Limit is essentially a cap on OTC Clear’s risk exposure to the relevant Position Account (for such purpose, each Client Position Account will be treated separately). An Absolute Risk Limit will be established based on Margin, position or risk sensitivities relating to each relevant Position Account.

4.6.1.3 Notional Exchange Risk Limit

OTC Clear will impose a notional exchange risk limit (the “**Notional Exchange Risk Limit**”) to all Position Accounts of each Clearing Member. The Notional Exchange Risk Limit shall be set per Clearing Member rather than per Position Account. The Notional Exchange Risk Limit is established to limit OTC Clear’s risk exposure to the Initial Exchange Amounts and/or Final Exchange Amounts of Standard Cross-currency Rates Derivatives Contracts in the Position Account. OTC Clear will use reasonable endeavours to provide Clearing Members with reasonable advance notice prior to imposing or amending the Notional Exchange Risk Limit. In the event that the Notional Exchange Risk Limit of a Clearing Member’s Position Account is fully utilised, Clearing Member may post additional cash Collateral in the same currency as the Notional Exchange Risk Limit to reduce the utilisation of the Notional Exchange Risk Limit and to accommodate more trades for registration.

4.6.2 Margin and Credit Check – Real-Time Novation Process

During the Margin Process Hours on each OTC Clear Clearing Day, but excluding any period when a Portfolio Novation Cycle is in progress or any other period specified by OTC Clear, OTC Clear will repeatedly perform “**Real-Time Novation**”, which is the process set out in this section 4.6.2.

When an Original Transaction is submitted to OTC Clear for registration, OTC Clear will determine the incremental Margin required to cover such Original Transaction together with the Margin requirements in respect of the Position Account(s) to which such Original Transaction will be recorded (for such purpose, each Client Position Accounts shall be treated separately).

Once the Margin requirement in respect of such Original Transaction and the relevant Position Account(s) is determined, OTC Clear will perform the Position Limits check and check if the Margin Balance in respect of the relevant Position Account(s) is sufficient to cover the Margin requirement.

If OTC Clear is satisfied that the Margin Balance in respect of the relevant Position Account(s) is sufficient to cover the Margin requirement in respect of each Contract to be created upon registration of such Original Transaction, and provided that the Position Limits of each relevant Position Account(s) would not be breached as a result of the registration of such Original Transaction, OTC Clear will accept for registration such Original Transaction and two Contracts will be created pursuant to Clearing Rule 806.

In respect of each Original Transaction, if OTC Clear determines that either the Margin requirement in respect of each Contract to be created upon registration of such Original Transaction is not satisfied, or the Position Limits of the relevant Position Account(s) would be breached, in each case, as a result of the registration of such Original Transaction, such Original Transaction will be put on “pending” status in the Rates and FX Clearing System. “Pending” Original Transactions that are not accepted for registration during a Real-Time Novation process may be accepted for registration later during a Portfolio Novation Cycle as set out in section 4.6.3 or at a later Real-Time Novation until it is rejected by OTC Clear pursuant to section 3.3 of these Clearing Procedures.

4.6.3 Margin and Credit Check – Portfolio Novation Cycle

OTC Clear will run various Portfolio Novation Cycles on each OTC Clear Clearing Day, at the times notified by OTC Clear to the Clearing Members. A “**Portfolio Novation Cycle**” is the process set out in this section 4.6.3.

During a Portfolio Novation Cycle, OTC Clear calculates the net amount of Collateral required to cover all “pending” Original Transactions submitted by a Clearing Member (or by a Designated Person on its behalf) in respect of a particular Position Account in bulk together with the Margin requirements in respect of the existing portfolio of Contracts recorded to such Position Account (for such purpose, each Client Position Accounts shall be treated separately). Once the amount of Collateral in respect of all such “pending” Original Transactions and the Margin requirements in respect of the existing Contracts then recorded to the relevant Position Account is determined, OTC Clear will perform the Position Limits check and check if the Margin Balance in respect of such Position Account is sufficient to cover the Margin requirement.

If OTC Clear is satisfied that the Margin Balance in respect of such Position Account is sufficient to meet the amount of Collateral required for all “pending” Original Transactions together with the Margin requirements in respect of the existing portfolio of Contracts then recorded to the relevant Position Account, then provided that the Margin requirements in respect of each Contract to be created upon registration of each such Original Transaction are satisfied, and provided further that the Position Limits of the relevant Position Account(s) would not be breached as a result of the registration of each such Original Transaction, OTC Clear will accept for registration each such Original Transaction.

In respect of each Original Transaction, if OTC Clear determines that either the Margin requirement or Position Limits checks described above is not satisfied, all the relevant “pending” Original Transactions will continue to be shown with “pending” status in the Rates and FX Clearing System until both the Margin requirement and Position Limits checks are satisfied at the next Portfolio Novation Cycle or Real-Time Novation or such Original Transactions are rejected by OTC Clear pursuant to section 3.3 of these Clearing Procedures.

4.6.4 Pending Trades

In respect of any “pending” Original Transactions to be registered in the name of a Clearing Member as Contracts, the Clearing Member will be notified, via the relevant Approved Trade Registration System, or report via the web portal, of the amount of Collateral required from it in order for all such “pending” Original Transactions to satisfy the Margin Process and be registered as Contracts.

4.6.5 Margin Process in respect of a de-registration request and a porting of Client Contracts

- (i) In respect of a de-registration request for a Contract, OTC Clear will process such de-registration request only if, in respect of the Position Account to which the relevant Contract is recorded, subsequent to the de-registration of such Contract:
 - (a) there remains sufficient Margin Balance in the corresponding Collateral Account to satisfy the Margin requirement relating to Contracts remaining in such Position Account; and
 - (b) the Position Limits of such Position Account would not be breached
- (ii) In respect of (a) any porting of Client Contracts following a DMP Event or (b) the porting of Contracts relating to Clients pursuant to Clearing Rule 825, OTC Clear will process such porting request only if:
 - (a) (in the case where not all the Contracts recorded in the same Position Account are to be ported) there is sufficient Margin Balance in the corresponding Collateral Account to satisfy the Margin requirement relating to Contracts remaining in such Position Account;
 - (b) in respect of the Position Account to which the relevant Contract is recorded, subsequent to the porting of such Contract, there is or will be sufficient Margin Balance in the corresponding Collateral Account to satisfy the revised Margin requirement relating to such Position Account; and
 - (c) the Position Limits of the relevant Position Accounts of the Clearing Member, Transferor Clearing Member, the Transferee Clearing Member and/or the Replacement Clearing Member as applicable would not be breached.

4.7 End-of-Day Valuation and Settlement Process

The end-of-day pricing and market data cut-off time is 16:00 hours Hong Kong time on each OTC Clear Clearing Day (the “**End-of-Day Cut Off Time**”). OTC Clear will use the market price at such time to determine the risk exposure and the Margin requirements in respect of each Position Account (together, the “**End-of-Day Margin Requirements**”) in its end-of-day valuation and settlement process, which commences at 18:00 hours Hong Kong time on each OTC Clear Clearing Day (the “**End-of-Day Settlement Process**”). The End-of-Day Settlement Process of an OTC Clear Clearing Day will end when the end-of-day Margin reports are made available to Clearing Members at or prior to 21:30 hours Hong Kong time on such OTC Clear Clearing Day pursuant to section 4.7.1.

The End-of-Day Settlement Process will capture the incremental risk exposure for a Clearing Member on any given OTC Clear Clearing Day. OTC Clear performs its regular Variation Margin calculation during the End-of-Day Settlement Process, and any Variation Margin gains determined in favour of a Clearing Member resulting from the market price movements of a Contract on such day will be redelivered to the relevant Clearing Member through the End-of-Day Settlement Process. If an OTC Clear Clearing Day is not a Currency Day for the Contractual Currency in which the Variation Margin is denominated, then OTC Clear will not make, or demand, a Variation Margin payment in respect of such Contract during the End-of-Day Settlement Process on such OTC Clear Clearing Day. The relevant Variation Margin will be made, or demanded, by OTC Clear on the immediately following Currency Day for the relevant Contractual Currency. For the avoidance of doubt, whilst any Variation Margin gains as a result of market price movements will be redelivered to a Clearing Member through the End-of-Day Settlement Process, any Collateral constituting the Excess Margin will only be redelivered to a Clearing Member upon its request pursuant to Clearing Rule 1218.

4.7.1 Margin Reporting

Clearing Members can obtain certain information relating to end-of-day settlement curves, market price movements, Initial Margin, Additional Margin, Variation Margin and net present value, in each case, relating to one or more of its Position Accounts on the Web Portal.

The detailed Margin reports will show the End-of-Day Margin Requirements of each Clearing Member in respect of each of its Position Accounts. For information relating to Margin reporting, please refer to section 3.16 of these Clearing Procedures.

The End-of-Day Margin Requirements as shown in such Margin reports reflect the risk exposure of each relevant Contract on the Rates and FX Clearing System at a cut-off time of 18:00 hours Hong Kong time on an OTC Clear Clearing Day. The final Margin reports would be made available to each Clearing Member by 21:30 hours Hong Kong time on each OTC Clear Clearing Day.

Chapter 5

Curve Construction

5.1 Curve Construction for Rates Derivatives Contracts

5.1.1 Zero Coupon Yield Curves

OTC Clear uses zero coupon yield curves to generate discount factors for calculating the net present value of a Rates Derivatives Contract in order to determine MTM movements and Margin requirements in respect of such Rates Derivatives Contract.

5.1.2 Market Instrument

The zero coupon yield curves are constructed using benchmark instruments that represent the most liquid part of the relevant yield curves, subject to their availability among different markets. Such benchmark instruments include, but are not limited to, deposits, interest rate futures, forward rate agreements, swaps, OIS and basis swaps. Benchmark instruments used in settlement curve construction may include, but are not limited to, the following:

Benchmark Instrument List	Type
O/N Interbank Money Market	Yield
T/N Interbank Money Market	Yield
0 x 3 forward rate agreement	Yield
Front Month Quarterly forward rate agreement	Future

5.1.3 Market Sources

OTC Clear obtains quotes for the relevant benchmark instrument used in zero coupon yield curves construction from direct data feeds of appropriate market sources selected by OTC Clear (“**Relevant Market Sources**”). Please contact OTC Clear for details of the Relevant Market Sources.

5.1.4 Construction of Zero Coupon Yield Curves

OTC Clear will construct zero coupon yield curves using bootstrapping methodology and apply interpolation techniques as OTC Clear may consider appropriate in its sole discretion. Please contact OTC Clear for details of the construction method and interpolation techniques used.

OTC Clear will update the relevant zero coupon yield curves using market prices of the relevant benchmark instruments obtained from the Relevant Market Sources at regular intervals during Margin Process Hours on each OTC Clear Clearing Day for purposes of determining the Margin requirements in respect of each Rates Derivatives Contract. In order to ensure accuracy of a zero coupon yield curve, OTC Clear will compare the updated zero coupon yield curve against the corresponding zero coupon yield curve determined during the End-of-Day Settlement Process on the immediately preceding OTC Clear Clearing Day. Subject to availability and liquidity of the relevant benchmark instruments, curves constructed for discounting and rate forecasting could be different to allow for OIS discounting.

As part of the End-of-Day Settlement Process, OTC Clear will construct the relevant zero coupon yield curves using the market price of the relevant benchmark instruments obtained at the End-of-Day Cut Off Time on each OTC Clear Clearing Day.

5.2 Curve Construction for FX Derivatives Contracts

5.2.1 FX Curves

OTC Clear builds for each Currency Pair an FX Curve (zero coupon/market rate curve) to calculate the net present value of a FX Derivatives Contract in order to determine the MTM movements and Margin requirements in respect of such FX Derivatives Contract.

OTC Clear calculates such FX curves using FX spot rates, FX swap points, and interest rate curves relating to the relevant Currency Pair and also internal interpolation techniques. Interest rate curves are used for discounting, while FX curves are used for capitalization of forward cash flows.

As part of the End-of-Day Settlement Process (as defined in section 4.7 of the Clearing Procedures), OTC Clear constructs the relevant FX curves using prices of the relevant market data obtained at End-of-Day Cut Off Time (as defined in section 4.7 of the Clearing Procedures) on each OTC Clear Clearing Day. Data relating to FX spot rates and FX swap points are used in the calculation of risk analytics during the End-of-Day Settlement Process.

OTC Clear will update the relevant FX curves using market prices of the relevant market data obtained from the Sources set out in section 5.2.2 regularly during Margin Process Hours (as defined in section 1.3 of the Clearing Procedures) on each OTC Clear Clearing Day.

In order to ensure accuracy of a FX curve, OTC Clear will compare the updated FX curve against the corresponding FX curve determined during the End-of-Day Settlement Process on the immediately preceding OTC Clear Clearing Day.

5.2.2 Market Data and Frequencies

OTC Clear obtains the prices for each of FX spot rates, FX swap points and interest rate curves from the source(s) (each, a **“Source”**) and at the frequency (**“Frequency”**) set out below:

- (i) FX spot rates:
 - (a) Source – received by OTC Clear through a live link from the external Relevant Market Source(s)

Chapter 6

Rates and FX Guarantee Resources

6.1 Rates and FX Guarantee Resources

The Rates and FX Guarantee Resources comprise the Rates and FX Guarantee Fund, Rates and FX Assessments and OTC Clear Contribution. The amounts and type(s) of Collateral delivered by a Clearing Member as its Rates and FX Contribution will be recorded by OTC Clear in the GF Account relating to such Clearing Member.

6.1.1 Rates and FX Guarantee Fund

The CM Funded Contribution Amount for each Clearing Member will be determined by OTC Clear on each Rates and FX Contribution Determination Date, being an amount equal to the greater of:

- (i) HK\$ 50 million or equivalent (after applying Collateral Haircuts on Collateral), being the Rates and FX Minimum Contribution Amount; and
- (ii) the product of:
 - (a) 110% of the highest Max EUL value amongst the Max EUL values determined on each OTC Clear Clearing Day falling within the GF Calculation Period relating to such Rates and FX Contribution Determination Date (Max EUL is defined and determined pursuant to section 6.1.1(6), as modified by section 6.1.1(8) if Client Clearing Services are provided by one or more Clearing Members on OTC Clear Clearing Days falling within the GF Calculation Period relating to such Rates and FX Contribution Determination Date); and
 - (b) the average of the relative pro-rata percentage shares relating to such Clearing Member determined in respect of each OTC Clear Clearing Day falling within the GF Calculation Period relating to such Rates and FX Contribution Determination Date, where:

“GF Calculation Period” means, with respect to a Rates and FX Contribution Determination Date occurring on the first or second OTC Clear Business Day of a calendar month pursuant to Clearing Rule 1503(1), each OTC Clear Clearing Day falling within the immediately preceding calendar month; and with respect to a Rates and FX Contribution Determination Date occurring on any other day pursuant to Clearing Rule 1503(2) or 1503(3), each OTC Clear Clearing Day falling within the calendar month in which such Rates and FX Contribution Determination Date falls up to (but excluding) such Rates and FX Contribution Determination Date.

While the resizing of the CM Funded Contribution Amount for each Clearing Member will only be performed on each Rates and FX Contribution Determination Date as defined in, and pursuant to, Clearing Rule 1503, OTC Clear will perform, for risk monitoring purposes, stress testing and calculation of the relevant pro-rata percentage share and the Daily GF Value with Reserve in respect of each Clearing Member on each OTC Clear Clearing Day.

Below is an illustrative example to show how the relative pro-rata percentage share and the Daily GF Value with Reserve are determined for each Clearing Member on OTC Clear Clearing Day “X”:

Clearing Member	Position Account STV ⁽²⁾	Margin Balance ⁽³⁾ of Clearing Member	Expected Uncollateralized Loss ⁽⁴⁾	Relative pro-rata percentage share ⁽⁵⁾	Daily GF Value ⁽⁶⁾	Daily GF Value with Reserve ⁽⁷⁾
A	1,000	550	450	25.00%	125.00	137.50
B	300	100	200	11.11%	55.56	61.11
C	500	250	250	13.89%	69.44	76.39
D	800	300	500	27.78%	138.89	152.78
E	600	400	200	11.11%	55.56	61.11
F	400	200	200	11.11%	55.56	61.11
Total			1,800	100%	500	550

(1) Assumptions

There are six Clearing Members A, B, C, D, E, and F, and none of these six Clearing Members engage in Client Clearing Services. As such, in this illustrative example, in respect of each Clearing Member, OTC Clear will perform the calculations set out in parameters (2), (3) and (4) below on such Clearing Member's House Position Account.

Parameter (8) below explains how the Expected Uncollateralized Loss with respect to a Clearing Member may be different in case a Clearing Member engages in Client Clearing Services.

(2) Position Account STV

In respect of each Clearing Member and an OTC Clear Clearing Day, OTC Clear will determine, at the End-of-Day Cut Off Time on such OTC Clear Clearing Day:

- (i) the net present value of each Position Account of each Clearing Member (the "**Base NPV**"); and
- (ii) the net present value of each Position Account of each Clearing Member under each stress scenario prescribed by the stress test model prescribed by OTC Clear as described further in section 6.3. The stress test value derived for 6.3 (each a "**Stress NPV**").

In respect of each Position Account of a Clearing Member on an OTC Clear Clearing Day, the absolute value of the largest decrease in net present value (determined by comparing each Stress NPV against the Base NPV) for that Position Account on that day is referred to as the "**Position Account STV**".

(3) Margin Balance

In the illustrative example, it is assumed that there is no Excess Margin with respect to the Clearing Member's House Position Account.

(4) Expected Uncollateralized Loss

On each OTC Clear Clearing Day, OTC Clear will then determine the Position Account EUL for each Position Account of each Clearing Member, where:

“**Position Account EUL**” means, with respect to a Position Account of a Clearing Member and an OTC Clear Clearing Day, an amount equal to (A) the Position Account STV less (B) the Margin Balance recorded to the Collateral Account relating to such Position Account, each determined as of the End-of-Day Cut Off Time on such OTC Clear Clearing Day.

In this illustrative example where none of the Clearing Members engage in Client Clearing Services, the “**Expected Uncollateralized Loss**” for each such Clearing Member is the Position Account EUL relating to its House Position Account.

(5) Relative pro-rata percentage share

The “**relative pro-rata percentage share**” means, with respect to a Clearing Member and an OTC Clear Clearing Day, the Expected Uncollateralized Loss with respect to such Clearing Member on such day divided by the total Expected Uncollateralized Loss with respect to all Clearing Members on such day. In the illustrative example, since the total Expected Uncollateralized Loss for all six Clearing Members is 1,800, the relative pro-rata percentage share of each Clearing Member will be a percentage equal to such Clearing Member’s Expected Uncollateralized Loss divided by the total Expected Uncollateralized Loss of 1,800. In the case of Clearing Member A, its relative pro-rata percentage share is 25% (being 450/1800) on OTC Clear Clearing Day “X”.

(6) Daily GF Value

In respect of each Clearing Member and an OTC Clear Clearing Day, OTC Clear will determine the “**Daily GF Value**” for such Clearing Member on such day to be the product of the Max EUL and such Clearing Member’s relative pro-rata percentage share on such day, where “**Max EUL**” means, on any given OTC Clear Clearing Day, an amount equal to the greater of:

- (i) the largest Expected Uncollateralized Loss amount amongst all the Expected Uncollateralized Loss amounts calculated with respect to all Clearing Members under the same stress scenario within the GF Calculation Period; and
- (ii) the largest Expected Uncollateralized Loss amount amongst all the Expected Uncollateralized Loss amounts calculated with respect to all Clearing Members under the same stress scenario within the GF Calculation Period, with the following modifications:
 - (a) the Expected Uncollateralized Loss amount of all Clearing Members who are Affiliates of one another shall be aggregated with the Expected Uncollateralized Loss amount of the largest Affiliate; and
 - (b) the selection of the largest Expected Uncollateralized Loss amount is made on a revised pool excluding the Expected Uncollateralized Loss amounts determined in respect of the smaller Affiliated Clearing Members.

(7) Daily GF Value with Reserve

The “**Daily GF Value with Reserve**” in respect of a Clearing Member will be calculated on each OTC Clear Clearing Day by multiplying the Daily GF Value of such Clearing Member determined on such day by 110%. In the case of Clearing Member A, its Daily GF Value with Reserve is 137.5 (being 125 X 110%) on OTC Clear Clearing Day “X”.

(8) Client Clearing Services

With respect to any Clearing Member who engages in Client Clearing Services:

- (i) OTC Clear will determine the Position Account STV, Margin Balance and Position Account EUL for each Client Position Account of such Clearing Member in exactly the same manner as described in parameters (2), (3) and (4) above;
- (ii) the “**Expected Uncollateralized Loss**” for such Clearing Member shall be the sum of:
 - (a) the Position Account EUL relating to its House Position Account;
 - (b) the greater of: (i) 50% of the aggregate Position Account EULs with positive values amongst all of such Clearing Member’s Client Accounts and (ii) the aggregate of the Position Account EULs of the two Client Accounts with the largest positive values amongst such Clearing Member’s Client Accounts identified as being held for Clients that are not Affiliates of such Clearing Member and which have either appointed a Replacement Clearing Member or (in the case of a Client Clearing Category 2 Position Account) where Clients identified as sharing the same Client Clearing Category 2 Position Account have all appointed the same Replacement Clearing Member; and
 - (c) the aggregate of the Position Account EULs with positive values amongst such Clearing Member’s Client Accounts satisfying the following characteristics:
 - (1) Client Accounts identified as being held for Affiliates of such Clearing Member; and
 - (2) Client Accounts identified as being held for Clients which have either not appointed a Replacement Clearing Member or (in the case of a Client Clearing Category 2 Position Account) where Clients identified as sharing the same Client Clearing Category 2 Position Account have not all appointed the same Replacement Clearing Member.

6.1.2 Rates and FX Assessments

On any given OTC Clear Clearing Day, the maximum CM Unfunded Contribution Amount of each Clearing Member will be two times (i.e. 2x) the value of its CM Funded Contribution Amount calculated on the last Rates and FX Contribution Determination Date pursuant to Clearing Rule 1503. The CM Unfunded Contribution Amount for each Clearing Member will be resized at the same time the CM Funded Contribution Amount for such Clearing Member is resized pursuant to Clearing Rule 1503. For risk monitoring purposes, OTC Clear will also calculate an estimated Rates and FX Assessments amount on each OTC Clear Clearing Day based on the aggregate of the Daily GF Value with Reserve calculated in respect of each Clearing Member on such OTC Clear Clearing Day. Based on the figures in the illustrative example, the estimated maximum proportionate share of the Rates and FX Assessments for each Clearing Member on OTC Clear Clearing Day “X” will be as follows:

Clearing Member	Daily GF Value with Reserve	Proportionate Share of the Rates and FX Assessments
A	137.50	275.00
B	61.11	122.22

Clearing Member	Daily GF Value with Reserve	Proportionate Share of the Rates and FX Assessments
C	76.39	152.78
D	152.78	305.56
E	61.11	122.22
F	61.11	122.22
Total	550	1,100

Pursuant to Clearing Rule 1506, each Clearing Member must satisfy its CM Unfunded Contribution Amount in cash.

6.2 Excess Margin and CM Funded Contribution Amount

Pursuant to section 6.1.1(4), with respect to each Clearing Member, its Margin Balance will be used to determine its Position Account EUL and its relative pro rata percentage share and hence any Excess Margin provided by such Clearing Member will be taken into account by OTC Clear to reduce the CM Funded Contribution Amount applicable to that Clearing Member.

Assuming that, applying the calculations referred to in parameter (2) above, the House Position Account of Clearing Member A gives the highest Position Account STV, and assuming further that Clearing Member A now has Excess Margin of 150 on top of its Initial Margin recorded to the Collateral Account relating to the House Position Account, using the figures in the above illustrative example, the Margin Balance of Clearing Member A will be increased from 550 to 700.

Based on the same calculation methodology described in section 6.1, Clearing Member A's relative pro-rata percentage share and Daily GF Value on OTC Clear Clearing Day "X" will be reduced as shown in the table below:

Clearing Member	Position Account STV	Margin Balance of Clearing Member	Expected Uncollateralized Loss	Relative pro-rata percentage share	Daily GF value	Daily GF Value with Reserve
A	1,000	550 → 700	300	18.18%	90.91	100.00
B	300	100	200	12.12%	60.61	66.67
C	500	250	250	15.15%	75.76	83.33
D	800	300	500	30.30%	151.52	166.67
E	600	400	200	12.12%	60.61	66.67
F	400	200	200	12.12%	60.61	66.67
Total			1,650	100%	500	550

The relative pro-rata percentage share calculated on OTC Clear Clearing Day "X" will be averaged with the relative pro-rata percentage share calculated on the OTC Clear Clearing Days in the relevant Calculation Period relating to the relevant Rates and FX Contribution Determination Date in determining the CM Funded Contribution Amount of Clearing Member A on such Rates and FX Contribution Determination Date.

6.3 Stress Test

The stress test model prescribed by OTC Clear will be calibrated to cover multi-day profit and loss moves from extreme, but plausible historic market moves and hypothetical scenarios.

Stress testing will be done daily. Some features which will be embedded in the stress testing model include, but are not limited to, the following:

- (i) 1987 stock crash
- (ii) 1998 Asian financial crisis
- (iii) 2003 SARS
- (iv) 2008 global financial crisis (including the default of Lehman Brothers)

6.4 OTC Clear Contribution

OTC Clear has two tranches of capital reserves specifically designated to cover Rates and FX Loss suffered by it as a result of its provision of the Rates and FX Clearing Services.

OTC Clear First Contribution will initially have a value of HK\$ 150 million. OTC Clear Second Contribution will start with a value of HK\$ 6 million and be built up to a maximum value of HK\$ 650 million using the investment income generated from investing the Rates and FX Guarantee Resources in the form of cash, less any administrative costs, hedging costs, commitment fees for credit lines, bid-offer on currency conversion, and/or other investment related expenses.

Chapter 7

Collateral

7.1 Acceptable Collateral

OTC Clear may, at its sole discretion, determine from time to time the types of assets which are acceptable as Collateral for purposes of Margin requirements and Rates and FX Contribution, and determine when any asset will cease to be acceptable as Collateral for such purposes. OTC Clear publishes the list of eligible Collateral on the HKEx website and updates it from time to time. OTC Clear reserves the right to change the list of eligible Collateral at its sole and absolute discretion. Assets previously posted to OTC Clear as Collateral but which no longer qualify as eligible Collateral will not be taken into account for the purposes of determining a Clearing Member's Margin Balance and CM Funded Contribution Amount and must be substituted with other eligible Collateral in order to meet a Clearing Member's Margin requirement and/or Rates and FX Liability. Assets previously posted to OTC Clear as Collateral but which no longer qualify as eligible Collateral will remain in each Clearing Member's relevant Collateral Account until they are withdrawn.

7.2 Cash Collateral

Pursuant to Clearing Rules 1213 and 1502, Collateral in the form of cash delivered by a Clearing Member for the purpose of satisfying its Margin requirements or its Rates and FX Liability will be transferred outright to OTC Clear.

7.3 Non-cash Collateral

OTC Clear currently accepts non-cash Collateral from Clearing Members only for the purposes of satisfying Margin requirements. OTC Clear currently does not accept non-cash Collateral for the purpose of satisfying a Clearing Member's Rates and FX Liability. Pursuant to Clearing Rule 1213, non-cash Collateral delivered by a Clearing Member to satisfy its Margin requirements will be transferred by way of security interest.

A Clearing Member who intends to post non-cash Collateral for the purposes of satisfying its Margin requirements must:

- (i) execute a valid Deed of Charge in OTC Clear's standard form^{*}; and
- (ii) complete all perfection requirements in all relevant jurisdictions to the satisfaction of OTC Clear.

OTC Clear only accepts non-cash Collateral delivered to it at its account at the relevant Custodian specified for the relevant type of eligible non-cash Collateral.

OTC Clear will not accept a Clearing Member's non-cash Collateral if the documents required by OTC Clear have not been duly executed and all necessary perfection requirements in all relevant jurisdictions have not been completed within the necessary timeframe. Non-cash Collateral credited to a Clearing Member's Collateral Account will not be allowed to be used except as provided for under the Clearing Rules or these Clearing Procedures, or transferred or withdrawn by the Clearing Member unless with the express permission of OTC Clear.

^{*} The standard form Deed of Charge is available from OTC Clear upon request.

7.4 Collateral Concentration Limit

Pursuant to Clearing Rule 1214, OTC Clear may impose a limit on the aggregate value of any particular type of Collateral (each, a “**Collateral Concentration Limit**”) delivered by a Clearing Member for purposes of satisfying its Margin requirements for, among others, the following reasons:

- (i) to avoid undue concentration of Collateral in a particular asset class, type of security, obligor, etc. For example, OTC Clear may impose an upper limit on the aggregate value attributable by a particular type of Collateral to be no more than a specific percentage of the Margin Balance; or
- (ii) to restrict the maximum amount of non-cash Collateral a Clearing Member may provide to OTC Clear for its Margin requirements in respect of each of its Position Accounts.

OTC Clear will, from time to time, notify Clearing Member of the relevant Collateral Concentration Limit.

For the avoidance of doubt, application of sub-paragraph (i) above may extend to any Collateral delivered by a Clearing Member to OTC Clear. OTC Clear may impose a Collateral Concentration Limit to restrict the maximum amount of Collateral in a particular Eligible Currency or Collateral type that may be delivered by a Clearing Member for the purpose of satisfying the Margin requirements with respect to each of its Position Accounts.

The situations described in this section 7.4 are not exhaustive, and OTC Clear shall have the right to, after consultation with the Risk Management Committee, impose any new, or cancel any existing, Collateral Concentration Limit and will notify Clearing Members of any such change. OTC Clear does not intend to, and shall not be under any obligation to, consult with the Risk Management Committee in respect of any calibration changes to the existing Collateral Concentration Limits.

7.5 Collateral Valuation

7.5.1 Collateral Haircuts

When determining whether each Clearing Member’s Margin Balance and Rates and FX Contribution are sufficient to cover its Margin requirement and its Rates and FX Liability, respectively, OTC Clear will value the assets in such Clearing Member’s Collateral Accounts and GF Account at their market value less any applicable valuation discount or haircut stipulated by OTC Clear (“**Collateral Haircut**”). OTC Clear publishes the relevant Collateral Haircut for each asset type on the HKEx website and updates it from time to time.

The Collateral Haircut applicable to each type of asset will be determined by OTC Clear based on the calibration result and wrong-way risk back testing referred to in section 7.5.2, and subject to change from time to time pursuant to Clearing Rule 1214. For the avoidance of doubt, Collateral Haircut may apply on both cash and non-cash Collateral, but does not apply for the purpose of determining the value of any Collateral to be redelivered to Clearing Members pursuant to these Clearing Rules. In respect of any Collateral, OTC Clear will review the applicable Collateral Haircut on a monthly basis and will notify Clearing Members of any change of in Collateral Haircut.

7.5.2 Wrong-way Risk

7.5.2.1 General Wrong-way risk

Wrong-way risk can be generally defined as the adverse effect that the inclusion of a particular transaction or asset might create on an existing portfolio. In this context, it refers to an aspect of risk that tends to increase the overall risk exposure of a portfolio or where collateral posted to mitigate the overall risk exposure of a portfolio does not decrease such risk on a dollar by dollar basis.

For example, wrong-way risk may arise in a situation where a Clearing Member who trades gold futures posts gold as collateral. Although OTC Clear currently does not provide clearing service for gold futures, the intention of the above example is to give some context as to how collateral may create wrong-way risk. OTC Clear will determine and measure any wrong-way risk by comparing the value-at-risk of the portfolio with and without the relevant Collateral. To manage any wrong-way risk concern for Collateral, OTC Clear may request additional and/or other form of Collateral from Clearing Members.

7.5.2.2 Specific Wrong-way risk

Specific wrong-way risk is the risk that Collateral would likely lose value in the event that a Clearing Member providing the Collateral defaults, OTC Clear will mitigate such risk through the imposition of, and/or adjustment to, Collateral Concentration Limit(s) and Collateral Haircut(s) as set out in sections 7.4 and 7.5.1, respectively.

7.5.3 Valuation

All Collateral will be valued or marked-to-market at least once a day using current market data and quotes, and any such valuation will take into account the application of Collateral Haircut referred to in section 7.5.1. At any given time:

- (i) any cash Collateral denominated in an Eligible Currency other than the Base Currency will be valued at the Base Currency equivalent at such rate prevailing at the time of the conversion as OTC Clear shall reasonably select;
- (ii) any non-cash Collateral will be valued by OTC Clear by reference to the latest market prices available for such non-cash Collateral obtained from external market sources. Once OTC Clear is in receipt of the latest market prices for the non-cash Collateral, it will generate the mid or mean price for the purpose of valuing such non-cash Collateral. On any given day, if the latest market prices for any non-cash Collateral is not available from the external market sources, OTC Clear will determine the valuation of any such non-cash Collateral based on, among others, the following methodologies:
 - (a) the last available traded price of the relevant asset; and/or
 - (b) the price performance of proxy instruments issued by the same issuer or its affiliates for the relevant asset; and
- (iii) in respect of any non-cash Collateral provided by a Clearing Member to OTC Clear as its Initial Margin or Additional Margin, subsequent to liquidation of any such non-cash Collateral during a Default Management Process, such non-cash Collateral will be given a value equal to the value obtained by OTC Clear during the liquidation process and attached to the Total Available Resources relating to such Default Management Process.

Pursuant to section 4.5.2 of these Clearing Procedures, a Clearing Member may be required to transfer additional Collateral to OTC Clear if the Margin Balance or the Rates and FX Contribution Balance, as applicable, decreases due to either market movement affecting the value of such Collateral or change in the applicable Collateral Haircut. OTC Clear may also require Clearing Members to post additional Collateral types due to wrong-way risk concerns.

7.6 Treatment of Collateral

7.6.1 Cash Collateral

7.6.1.1 Margin

OTC Clear may invest with a conservative policy in respect of any Initial Margin, Routine Intra-day Variation Margin, Ad Hoc Intra-day Variation Margin or Additional Margin delivered in the form of cash by Clearing Members. OTC Clear will, on a monthly basis, pay a return calculated on a daily basis to Clearing Members in respect of any Initial Margin, Routine Intra-day Variation Margin, Ad Hoc Intra-day Variation Margin or Additional Margin delivered in the form of cash and comprising the Margin Balance as at the end of each OTC Clear Clearing Day at a rate which is the average savings rate published by the three note issuing banks for each relevant Eligible Currency. For the avoidance of doubt, in the event that the average of such rates in respect of a particular Eligible Currency is a negative rate, Clearing Members shall be required to pay to OTC Clear an amount equal to the absolute value of such rate multiplied by the portion of their Margin Balance that comprises cash Collateral in such Eligible Currency. Any loss arising from the investment activities is for OTC Clear. The obligation of OTC Clear to redeliver Margin in cash will not be affected by the investment performance.

7.6.1.2 Guarantee Fund

OTC Clear may invest with a conservative policy in respect of any Rates and FX Contribution delivered in the form of cash by Clearing Members. Any positive returns from such investment will form part of OTC Clear Contribution pursuant to section 6.4 of these Clearing Procedures. For the avoidance of doubt, any loss arising from the investment activities is for OTC Clear. The obligation of OTC Clear to redeliver Rates and FX Contribution in cash will not be affected by the investment performance.

7.6.2 Non-Cash Collateral*

Non-cash Collateral delivered to OTC Clear by a Clearing Member for purposes of satisfying its Margin requirements will be transferred to OTC Clear by way of security interest with no right of rehypothecation pursuant to Clearing Rule 1213.

Each Clearing Member will bear the risk for any loss and gain on the value of the non-cash Collateral, and pursuant to Clearing Rule 1006, OTC Clear will distribute an amount representing any income it has received in respect of any non-cash Collateral, taking into account the deduction required to reflect any accommodation charges, administration costs or commitment fees for credit lines incurred by OTC Clear in respect of such non-cash Collateral. Each of such fees will be set out in Appendix I to the Clearing Procedures.

* OTC Clear currently accepts non-cash Collateral from Clearing Members only for the purposes of satisfying Margin requirements. OTC Clear currently does not accept non-cash Collateral for the purpose of satisfying a Clearing Member's Rates and FX Liability.

Chapter 8

Default Management

8.1 Interpretation and Overview

The procedure set out in this Chapter 8 is aimed at reducing and neutralizing the overall risk arising out of the occurrence of a DMP Event with respect to one or more Defaulting Clearing Members.

8.2 Member Obligations

Each Clearing Member has provided an undertaking to discharge its obligations in participating in the Default Management Process pursuant to Clearing Rule 1609.

Non-Defaulting Clearing Members shall provide market access for OTC Clear to execute Hedging pursuant to Clearing Rule 1801 and section 8.5. Each Non-Defaulting Clearing Member shall support the Hedging or risk neutralization process by promptly providing the Default Management Group with competitive pricing for hedging trades upon request. OTC Clear will consult with the Default Management Group in determining the range of competitive pricing for a Hedging transaction.

If a DMG Delegate is no longer an employee or a director of the Clearing Member that nominates the DMG Delegate or the Clearing Member becomes aware that its DMG Delegate's employment or directorship will be terminated, such Clearing Member shall notify OTC Clear in writing as soon as practicable and such DMG Delegate will be removed from the Default Management Group. Such Clearing Member shall then nominate another employee or director to be a DMG Delegate.

8.3 Scope and Responsibility of Default Management Group

OTC Clear will convene a meeting of the Default Management Group in accordance with the Default Management Group's terms of reference.

The Default Management Group will, among others, provide advice to the OTC Clear on market conditions including liquidity and also on construction of separate Auction Portfolios. OTC Clear will oversee the Hedging and Auction processes.

8.4 Suspension of Activities

Upon the occurrence of a DMP Event with respect to a Defaulting Clearing Member, the Defaulting Clearing Member's clearing activities with OTC Clear will be suspended.

8.5 Hedging (Risk Neutralizing)

The objective of Hedging is to mitigate, to the extent commercially practicable, any risk or economic exposure which arises as a result of the occurrence of a DMP Event.

OTC Clear will apply a risk based approach to hedging i.e. neutralizing exposures most vulnerable to market risk. Market risk may be expressed and measured in deltas across all the available tenor points. In respect of each Default Management Process and the related Hedging, the Default Management Group will present proposed Hedging strategies to OTC Clear. Once the Hedging strategies have been approved by OTC Clear, the Default Management Group is primarily responsible for execution of the Hedging strategy for OTC Clear.

Hedging will continue until such time as OTC Clear, in consultation with the Default Management Group, is reasonably satisfied that the risk arising out of the relevant DMP Event has been suitably reduced. OTC Clear will use reasonable endeavours to limit erosion of Margin Balances.

8.6 Auction

8.6.1 Auction Protocol

The entire Auction process may take a number of days, but is expected to be completed as soon as reasonably practicable. Auction Portfolios may be auctioned at different times. Each Auction Portfolio shall be subject to its own Auction.

In respect of each Auction, DMP Information relating to such Auction will be provided to each Non-Defaulting Clearing Member participating in such Auction. The information provided will allow the Non-Defaulting Clearing Members to assess the risk in the Auction Portfolio and value the same.

8.6.2 Construction of Auction Portfolio

OTC Clear will, in consultation with the Default Management Group, construct various Auction Portfolios in respect of the Auction Book relating to a Defaulting Clearing Member. Clearing Rules 1902 to 1904 set out the general principle in constructing such Auction Portfolios, and OTC Clear, in consultation with the Default Management Group, will review the Transaction Categories that the Defaulting Clearing Member had registered with OTC Clear immediately before the occurrence of the DMP Event. An Auction Portfolio may contain Auction Positions belonging to more than one Transaction Category.

The following example illustrates how the Auction Portfolio construction process works:

Assuming OTC Clear has four Clearing Members: Clearing Member A "CM-A", Clearing Member B "CM-B", Clearing Member C "CM-C", and Clearing Member D "CM-D". Assuming further that CM-D is in default and immediately prior to default, it had registered Contracts with OTC Clear belonging to the following Transaction Categories: Rates Derivatives Contracts denominated in CNY ("**CNY IRS**"), FX Derivatives Contracts denominated in CNY ("**CNY NDF**") and Rates Derivatives Contracts denominated in HK\$ ("**HK\$ IRS**").

In the example above, subsequent to the creation of the Auction Book relating to CM-D on the Special Default Account, three Auction Portfolios may be constructed for CM-D:

- (i) CNY IRS = 50%
- (ii) CNY NDF = 40%
- (iii) HK\$ IRS = 10%

In the event that OTC Clear, in consultation with the Default Management Group, determines that the likelihood of successfully disposing all Auction Positions on the Auction Book relating to CM-D will be increased by combining CNY IRS with CNY NDF, it may do so as follows:

- (a) CNY IRS + CNY NDF = 90%
- (b) HK\$ IRS = 10%

In either of the above examples, the percentages marked against each of the three Auction Portfolios is the RAP (please refer to Clearing Rule 1913) determined in respect of each such Auction Portfolio by OTC Clear in consultation with the Default Management Group.

8.6.3 Bidding Process

8.6.3.1 Bids

In respect of each Auction, once the timeframe for submitting Bids as notified by OTC Clear to Bidders has drawn to a close, no further Bids will be accepted. OTC Clear will examine all Bids submitted as follows:

- (i) the highest Bid received by OTC Clear is expected to be the Successful Bid of the Auction, provided that OTC Clear will not accept a Bid if accepting such Bid can potentially, without limitation, (a) cause OTC Clear to breach any legal or regulatory requirement applicable to it, (b) lead to legal action or proceedings to be taken against OTC Clear or (c) be disadvantageous or have a material adverse effect on OTC Clear; and
- (ii) in the event that the two (or more) highest Bids received by OTC Clear are of exactly the same value, the relevant Bidders will be invited to submit revised Bids. If no revised Bids have been received by OTC Clear within 10 minutes following the invitation of Bid re-submission, the relevant Bidder who submitted its original Bid first is expected to be the Successful Bidder.

Once the Successful Bid has been confirmed, OTC Clear will verbally notify the Successful Bidder, followed by a written confirmation of the same.

In respect of each Auction, details of the Bids will be kept confidential so that a Bidder will not have knowledge of the Bid prices submitted by other Bidders.

For the avoidance of doubt, OTC Clear shall not be liable for any damages against it if a Bid fails to reach OTC Clear due to operational, technological or any other reasons.

8.6.3.2 Unsuccessful Auction

In the event of an unsuccessful Auction, further round(s) of Auction may be held until all the Auction Portfolios have been disposed of. OTC Clear will consult the Default Management Group prior to determining whether an Auction is unsuccessful. Without prejudice to the generality of the immediately foregoing, an Auction shall be deemed to be unsuccessful if:

- (i) no Bids have been received prior to the close of an Auction due to operational or technological issues, including but not limited to corruption of auction file data;
- (ii) any other operational issue which OTC Clear, in consultation with the Default Management Group, deems appropriate; or
- (iii) no Bids or insufficient number of Bids have been received prior to the close of an Auction as determined by OTC Clear, in consultation with the Default Management Group.

8.6.3.3 Registration of Auction Portfolios

Upon completion of a successful Auction, OTC Clear will register the relevant Auction Contracts to the Successful Bidder in accordance with Clearing Rule 1921. OTC Clear will liaise with both the relevant Approved Trade Registration System and the relevant Clearing Member to ensure the records relating to all Auction Contract(s) are updated on the Approved Trade Registration System. This update will automatically enable the recalculation of the Successful Bidder's Margin requirements and its CM Funded Contribution Amount, reflecting the impact of the acquisition of the Auction Contract(s) by the Successful Bidder.

OTC Clear will liaise with a Successful Bidder for booking relevant Auction Contract(s) into its systems so that the systems and records kept by such Successful Bidder will be aligned with those of OTC Clear.

The timing of transfer of any Auction Payment or Auction Receivable is set out in Clearing Rules 1922 and 1923, respectively.

8.6.4 Tranching Methodology

To incentivize competitive bidding during an Auction, and pursuant to Clearing Rules 1913 to 1916, OTC Clear will implement the Tranching Methodology which seeks to allocate the relevant proportion of the Rates and FX Contribution Balance of a Non-Defaulting Clearing Member in respect of its CM Funded Contribution Amount into one of three Tranches: the Senior Tranche, Middle Tranche and Junior Tranche. Pursuant to Clearing Rule 1919, upon the expiry of a Capped Liability Period, with respect to each Auction portfolio constructed as a result of the occurrence of the DMP Events during such Capped Liability Period, OTC Clear will notify all relevant Bidders for each such Auction Portfolio the result of the application of the Tranching Methodology.

The following provides an example to illustrate the working mechanisms around the Tranching Methodology:

Using the hypothetical RAP figures mentioned in sections 8.6.2(i) to (iii) and assuming OTC Clear does not combine CNY IRS and CNY NDF Auction Portfolios, if:

Tranching for CM-A based on its Bids for the three Auction Portfolios:

- (i) CM-A is the Successful Bidder for the CNY IRS Auction Portfolio, 50% of CM-A's CM Funded Contribution Amount will be allocated to the Senior Tranche;
- (ii) CM-A is a Lower Bidder for the CNY NDF Auction Portfolio 40% of CM-A's CM Funded Contribution Amount will be allocated to the Middle Tranche; and
- (iii) CM-A is a Poor Bidder for the HK\$ IRS Auction Portfolio, 10% of CM-A's CM Funded Contribution Amount will be allocated to the Junior Tranche.

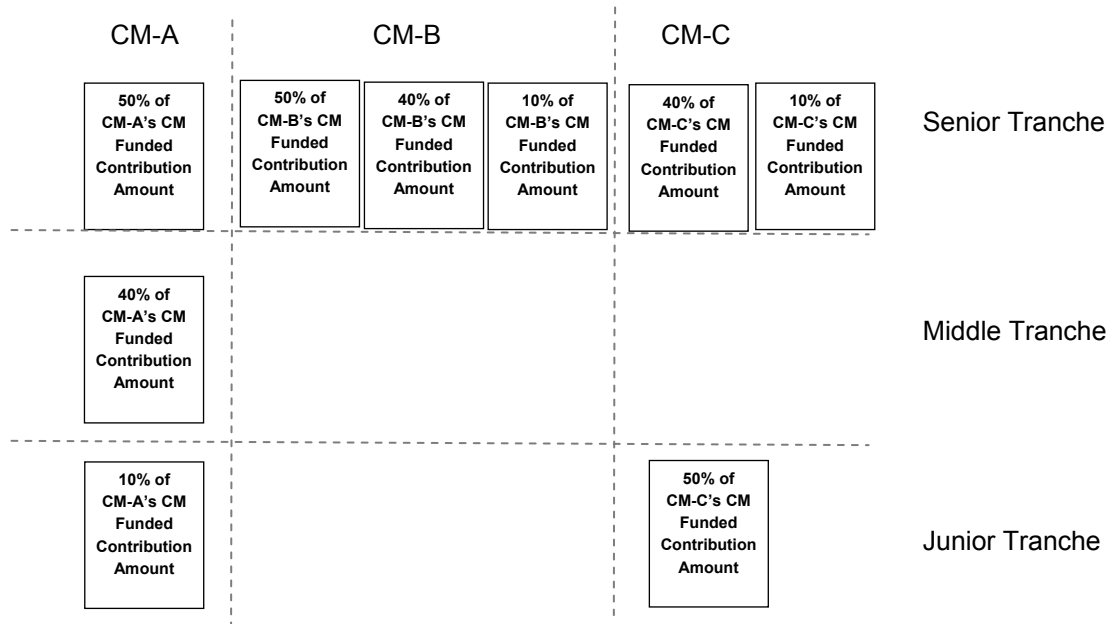

Tranching for CM-B based on its Bids for the three Auction Portfolios:

- (i) CM-B is an Equal Bidder for the CNY IRS Auction Portfolio, 50% of CM-B's CM Funded Contribution Amount will be allocated to the Senior Tranche;
- (ii) CM-B is the Successful Bidder for the CNY NDF Auction Portfolio, 40% of CM-B's CM Funded Contribution Amount will be allocated to the Senior Tranche; and
- (iii) CM-B is the Successful Bidder for the HK\$ IRS Auction Portfolio, 10% of CM-B's CM Funded Contribution Amount will be allocated to the Senior Tranche.

Tranching for CM-C based on its Bids for the three Auction Portfolios:

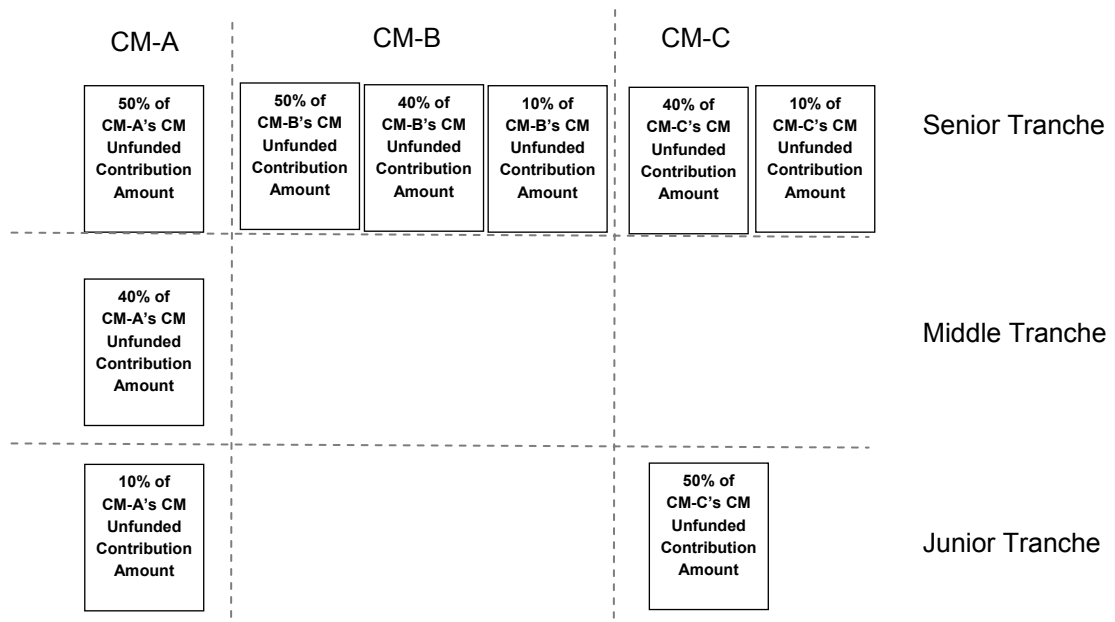

- (i) CM-C is a Non-Bidder for the CNY IRS Auction Portfolio, 50% of CM-C's CM Funded Contribution Amount will be allocated to the Junior Tranche;
- (ii) CM-C is a No Position NDCM for the CNY NDF Auction Portfolio, 40% of CM-C's CM Funded Contribution Amount will be allocated to the Senior Tranche; and
- (iii) CM-C is a Better Bidder for the HK\$ IRS Auction Portfolio, 10% of CM-C's CM Funded Contribution Amount will be allocated to the Senior Tranche.

The following diagram summarizes the Tranching Methodology described in the immediately foregoing:

8.6.5 Tranching for Rates and FX Assessments

The utilization of each Non-Defaulting Clearing Member's Rates and FX Contribution Balance in respect of its CM Unfunded Contribution Amount will be applied using the same Tranching Methodology. Using the same figures provided in the example given in section 8.6.4, the following diagram summarizes the application of the Tranching Methodology as applied to the CM Unfunded Contribution Amount of each of CM-A, CM-B and CM-C:

In respect of an Auction, the allocation of Tranches in respect a Non-Defaulting Clearing Member's Rates and FX Liability will only apply to such Auction.

8.7 Portfolio Splitting and Re-composition

In case of an unsuccessful Auction, in order to enhance the likelihood of success of a subsequent Auction, OTC Clear has the flexibility to, in consultation with the Default Management Group, combine Auction Portfolios of different Transaction Categories or further sub-divide a previously constructed Auction Portfolio into multiple Auction Portfolios. The prime considerations for portfolio splitting and re-composition include, but are not limited to, the size of the Auction Portfolio(s).

8.8 Cost of Default and Loss Attribution

OTC Clear will assess its Rates and FX Loss incurred as a result of the occurrence of the DMP Event. Any Margin Balance of the Defaulting Clearing Member in excess of the full settlement of the default (but excluding any Client Entitlement which will be paid to the relevant Non-Porting Client of the Defaulting Clearing Member in accordance with Clearing Rule 1309) will be redelivered to the Defaulting Clearing Member as part of the net sum payable to the Defaulting Clearing Member pursuant to Clearing Rule 1307, or be returned in accordance with the relevant security document. Any Rates and FX Contribution Balance of the Defaulting Clearing Member in excess of the full settlement of the default will be redelivered to the Defaulting Clearing Member in accordance with Clearing Rule 1547.

In the event that the Rates and FX Loss exceeds the Defaulting Clearing Member's Rates and FX Contribution Balance, OTC Clear will satisfy the losses in accordance with Clearing Rule 1516.

8.9 Post Auction Communication

Upon disposal of all Auction Portfolios following the occurrence of a DMP Event with respect to the Defaulting Clearing Member, OTC Clear will announce the completion of the Default Management Process by notifying the Clearing Members and will provide a summary of the steps taken during the Default Management Process, such summary will be published on the HKEx website, a copy of which will also be provided to the SFC.

8.10 Review

Upon the completion of the Default Management Process in respect of each occurrence of DMP Event, OTC Clear will review the process and may put forward recommendations to change the process.

OTC Clear will also, at a minimum of once every year, conduct review of the process set out in this Chapter 8 to ensure it is adequate, practical and effective. In doing so, OTC Clear will involve Clearing Members by inviting them to participate in fire drills as referred to in Clearing Rule 1611. OTC Clear will provide the results of any fire drills of the Default Management Process to the Risk Management Committee. OTC Clear will also publish the results of the fire drills on the HKEx website.

8.11 Porting of Affected Contracts and Collateral to a Replacement Clearing Member

OTC Clear will facilitate porting of Affected Contracts in a Client Position Account (and Collateral in its corresponding Client Collateral Account) of a Defaulting Clearing Member if all of the following conditions are satisfied:

- (i) original valid and complete Porting Instructions* are received by 17:00 hours Hong Kong Time on the OTC Clear Clearing Day immediately following the occurrence of the relevant DMP Event;
- (ii) no DMP Event has occurred with respect to the relevant Replacement Clearing Member;
- (iii) in respect of each Client Position Account, the relevant Replacement Clearing Member has consented (in writing) to accepting the porting of all Affected Contracts and Collateral in the corresponding Client Collateral Account by 17:00 hours Hong Kong Time on the OTC Clear Clearing Day immediately following the occurrence of the relevant DMP Event;
- (iv) the relevant Replacement Clearing Member's standard settlement instruction for each relevant Contractual Currency of the Affected Contracts being ported is in place;
- (v) the Replacement Clearing Member's standard settlement instruction for each relevant Eligible Currency of cash Collateral being ported is in place;

- (ix) all amounts that have become due and payable by the relevant Defaulting Clearing Member to OTC Clear in respect of Contracts recorded in the relevant Client Position Account (including, for the avoidance of doubt, any Non-Porting Contracts recorded in that Client Position Account) have been paid or otherwise fully and finally discharged to the satisfaction of OTC Clear; and
- (x) no Rates and FX Clearing Termination Event has occurred.

In respect of each Porting Instruction, each Defaulting Clearing Member and the Replacement Clearing Member named therein are deemed to acknowledge, represent and undertake that:

- (a) they are jointly responsible for the accuracy and completeness of the information contained in such Porting Instruction;
- (b) OTC Clear is entitled to rely conclusively on the instructions and information provided in such Porting Instruction without further enquiry; and
- (c) OTC Clear shall incur no liability for any delay, rejection, loss, cost, claim, action, demand or expense in the processing of such Porting Instruction and in effecting the porting of Affected Contracts and Collateral in reliance on the information contained in such Porting Instruction.

If any information and/or instructions provided by the relevant Client in a Porting Instruction is incomplete, inaccurate or inconsistent with its records, OTC Clear may, in its sole and absolute

* Forms are provided to Clearing Members as part of their onboarding process and thereafter are available from OTC Clear upon request.

Requirements for valid and complete Porting Instructions:

- (i) Porting Instructions must contain:

8.11.3 Unsuccessful Porting

If porting cannot be completed successfully, the Affected Contracts of each Non-Porting Client will be subject to the Default Management Process relating to the relevant DMP Event.

Chapter 9

Special Events / Business Continuity

9.1 Arrangement for Special Events

The procedures set out in this Chapter 9 provide an outline of steps that can be taken by OTC Clear in the event of a Force Majeure Event or other special events or OTC Clear being unable to access, or being evacuated from OTC Clear's premises.

The need for business recovery is driven by the uncertain nature of special events. Therefore, the steps set out herein are not intended to be exhaustive and OTC Clear reserves the right to modify or depart from the procedures set out in this Chapter 9 to meet the characteristics of the special events. The procedures set out in this Chapter 9 are without prejudice to the provisions of the Clearing Rules.

9.1.1 Message Dissemination

When there is a need to communicate with Clearing Members in an emergency situation, including but not limited to, the evacuation of OTC Clear's premises and the invocation of business continuity plans, messages will be disseminated to Clearing Members by any of the following methods:

- (i) posting message on the HKEx website;
- (ii) electronic messages via SWIFT;
- (iii) electronic mails to Clearing Members' designated contact personnel; or
- (iv) facsimile transmissions to Clearing Members' designated fax machines.

Regardless of the message dissemination methods, the content of the message is expected to be substantially the same.

9.1.2 Evacuation of OTC Clear's Premises

If it is necessary for OTC Clear to evacuate OTC Clear's premises, a message will be communicated to Clearing Members using the methods set out in section 9.1.1.

During this period, all activities normally carried out at OTC Clear's premises will cease. Clearing Members will be kept updated of the situation (using the methods set out in section 9.1.1) once further details are available.

9.1.3 Invocation of Business Continuity Plans

Once OTC Clear has decided to invoke the business continuity plans, Clearing Members will be informed at the earliest possible time. A message will be communicated to Clearing Members using the methods set out in section 9.1.1.

OTC Clear expects that a maximum of two hours may elapse between the invocation of the business continuity plan and relocation of recovery teams. During that time, most of the usual activities carried out at OTC Clear's premises will cease. Any updates on the arrangements will be communicated to Clearing Members using the methods set out in section 9.1.1.

9.1.4 Special Event Settlement Arrangement

A number of routine settlement procedures may be amended, deferred or suspended while business continuity plans apply. These changes may have an impact on, among others, the usual sequences or mechanisms surrounding the following:

- (i) the withdrawal, porting or deposit of Collateral;
- (ii) the conversion of currencies;
- (iii) the ability to cover liabilities in currencies other than their Contractual Currencies;
- (iv) the time at which Margin may be demanded by OTC Clear;
- (v) the settlement of a Settlement Component; and

In case of any amendment, deferral or suspension to the above-mentioned items, a message will be communicated to Clearing Members using the methods set out in section 9.1.1.

9.1.5 Registration of Contracts

During the period when business continuity plans have been invoked, the procedures for registration of Contracts as set out in Chapter 3 of these Clearing Procedures will continue to apply. However, OTC Clear reserves the right to amend the timing of registration of Contracts. Clearing Members will be notified (using the methods set out in section 9.1.1) if the registration of Contracts has to be delayed.

9.1.6 New Office Address Notification

9.1.7 Resumption of Normal Service

If OTC Clear is able to resume normal service in the original OTC Clear's premises or in the permanent new location as stated in section 9.1.6, message will be communicated to Clearing Members using the methods set out in section 9.1.1.

9.1.8 Periodic Testing of Business Continuity Plans

OTC Clear will periodically review and test its business continuity plans and associated arrangements against various scenarios that may simulate wide-scale disasters. Clearing Members and critical service providers to OTC Clear may be involved in such review and testing.

9.2 Primary Data Center

As the primary data center of OTC Clear is not located at OTC Clear's premises, evacuation of OTC Clear's premises will not affect Clearing Members' ability to access the Web Portal.

If the primary data center of OTC Clear fails, OTC Clear will switch to the secondary data center of OTC Clear as soon as reasonably practicable. The secondary data center is expected to be synchronized with the primary data center which means that data are stored at both data centers. In the absence of any failure or disruption to the primary data center, the secondary data center serves as a back-up and will be on standby.

The switch from the primary data center of OTC Clear to the secondary data center of OTC Clear is expected to take up to two hours for the core mission critical system. During the switch from primary data center to the secondary data center of OTC Clear, the Rates and FX Clearing Services will be suspended.

9.3 Service Outage

If the Rates and FX Clearing Services are not available to or the Web Portal is not accessible to Clearing Members due to technical failure or other reasons, OTC Clear cannot guarantee Clearing Members a particular level of services in this situation. OTC Clear will activate the relevant business continuity plans and use its best endeavours to restore the normal service. Message will be disseminated to Clearing Members using the methods set out in section 9.1.1 of these Clearing Procedures.

9.4 Special Arrangement for Valuation of a Standard Rates Derivatives Contract which is Denominated in HK\$ under Adverse Weather Conditions

For the avoidance of doubt, when a Black Rainstorm Warning or a Typhoon Signal Number 8 or above is issued by The Hong Kong Observatory, for purposes of valuing a Standard Rates Derivatives Contract denominated in Hong Kong dollars, Section 7.7 of the ISDA Definitions shall apply.

8. ENFORCEMENT

8.1 When enforceable

The Charges shall be immediately enforceable on and at any time after the occurrence of a DMP Event with respect to the Clearing Member, and OTC Clear:

- (a) may enforce all or any part of any Charges (at the times, in the manner and on the terms it thinks fit) and take possession and hold or dispose of all or any part of the Charged Assets; and
- (b) whether or not it has appointed a Receiver, may exercise all or any of the powers, authorities and discretions given to mortgagees and receivers by the CPO as varied or extended by this Deed or otherwise conferred by law.

8.2 **Power of sale**

The statutory power of sale, of appointing a Receiver and the other statutory powers conferred on mortgagees by Section 51 (*Powers of mortgagee and receiver*) and Section 53 (*Sale by Mortgagee*) of the CPO and the Fourth Schedule (*Powers of mortgagee and receiver*) to the CPO as varied and extended by this Deed shall arise on the date of this Deed and no restriction imposed by any ordinance or other statutory provision in relation to the exercise of any power of sale shall apply to this Deed.

8.3 **No requirement of notice period**

OTC Clear is not required to give any prior notice of non-payment or default to the Clearing Member before enforcing the Charges, there is no minimum period for which Liabilities must remain due and unpaid before the Charges can be enforced and Paragraph 11 of the Fourth Schedule (*Powers of mortgagee and receiver*) to the CPO (and any similar provision under other laws) does not apply to this Deed.

8.4 **No Liability as mortgagee in possession**

Nothing done by or on behalf of OTC Clear pursuant to this Deed shall render it liable to account as a mortgagee in possession for any sums other than actual receipts.

8.5 **Wide construction of enforcement powers**

The powers of OTC Clear under this Deed shall be construed in the widest possible sense and all Parties intend that OTC Clear shall have as wide and flexible a range of powers as may be conferred (or, if not expressly conferred, as is not restricted) by any applicable law.

9. **APPOINTMENT AND RIGHTS OF RECEIVERS**

9.1 **Appointment of Receivers**

If:

- (a) requested by the Clearing Member; or
- (b) the Charges become enforceable (whether or not OTC Clear has taken possession of the Charged Assets),

without any notice or further notice, OTC Clear may, by deed, or otherwise in writing signed by any officer or manager of OTC Clear or any person authorised for this purpose by OTC Clear, appoint one or more persons to be a Receiver. OTC Clear may similarly remove any Receiver and appoint any person instead of any Receiver. If OTC Clear appoints more than one person as Receiver, OTC Clear may give those persons power to act either jointly or severally. The provisions of section 50 (*Power to appoint a receiver*) of the CPO (as varied and/or extended by this Deed) shall apply to any appointment made pursuant to this Deed.

9.2 **Scope of appointment**

Any Receiver may be appointed Receiver of all of the Charged Assets or Receiver of a part of the Charged Assets specified in the appointment. In the latter case, the rights conferred on a Receiver as set out in the Schedule to this Deed shall have effect as though every reference in the Schedule to this Deed to any Charged Assets were a reference to the part of those assets so specified or any part of those assets.

9.3 **Rights of Receivers**

Any Receiver appointed pursuant to this Clause 9 shall have the rights, powers, discretions, privileges and immunities conferred on receivers by the CPO (as varied and/or extended by this Deed), all powers (if any) conferred on receivers by law or otherwise and shall also have the powers and rights set out in the Schedule to this Deed, all of which powers and rights are exercisable without further notice.

9.4 **Agent of Clearing Member**

Any Receiver shall be the agent of the Clearing Member for all purposes. The Clearing Member alone shall be responsible for the Receiver's contracts, engagements, acts, omissions, defaults and losses and for liabilities incurred by the Receiver.

9.5 **Remuneration**

OTC Clear may determine the remuneration of any Receiver and direct payment of that remuneration out of moneys he receives as Receiver. The Clearing Member alone shall be liable for the remuneration and all other costs, losses, liabilities and expenses of the Receiver.

10. **OTC CLEAR'S RIGHTS**

10.1 **Rights of OTC Clear**

Any rights conferred by this Deed upon a Receiver may be exercised by OTC Clear after the Charges become enforceable, whether or not OTC Clear shall have taken possession or appointed a Receiver of the Charged Assets.

10.2 **Delegation**

OTC Clear may delegate in any manner to any person any rights exercisable by OTC Clear under this Deed. Any such delegation may be made upon such terms and conditions (including power to sub-delegate) as OTC Clear thinks fit.

11. **ORDER OF DISTRIBUTIONS**

All amounts received or recovered by OTC Clear or any Receiver or any Delegate in exercise of their rights under this Deed shall be applied in the following order of priority (subject to Clause 15.5 (*Appropriations*)), in each case in accordance with the terms of the Clearing Rules and Clearing Procedures:

- (a) in or towards the payment of all costs, losses, liabilities and expenses of and incidental to the appointment of any Receiver or Delegate and the exercise of any of his rights, including his remuneration and all outgoings paid by him (to the extent that, in OTC Clear's opinion, such costs, losses, liabilities and expenses relate to the amount received or recovered);
- (b) in or towards the payment of Liabilities; and

(c) in payment of any surplus to the Clearing Member or other person entitled to it.

12. LIABILITY OF OTC CLEAR, RECEIVERS AND DELEGATES

12.1 Possession

If OTC Clear, any Receiver or any Delegate takes possession of the Charged Assets, it or he may at any time relinquish possession.

12.2 OTC Clear's liability

- (a) Neither OTC Clear nor any Receiver or Delegate shall (either by reason of taking possession of the Charged Assets or for any other reason and whether as mortgagee in possession or otherwise) be liable to the Clearing Member or any other person for any costs, losses, liabilities or expenses relating to the realisation of any Charged Assets or from any act, default, omission or misconduct of OTC Clear, any Receiver, any Delegate or their respective officers, employees or agents in relation to the Charged Assets or in connection with any Contract or Clearing Documentation provided that the relevant realisation, act, default, omission or misconduct is done or made, as the case may be, in good faith.
- (b) Nothing in this Deed shall be construed as placing on OTC Clear any liability whatsoever in respect of any calls, instalments or other payments relating to any of the Charged Assets or any rights, shares or other securities accruing, offered or arising as aforesaid, and the Clearing Member shall indemnify OTC Clear in respect of all calls, instalments or other payments relating to any of the Charged Assets owned by it and to any rights, shares and other securities accruing, offered or arising as aforesaid in respect of any of the Charged Assets.

13. POWER OF ATTORNEY

13.1 Appointment

The Clearing Member by way of security irrevocably appoints OTC Clear, every Receiver and every Delegate severally as its attorney (with full power of substitution), on its behalf and in its name or otherwise, at such time and in such manner as the attorney thinks fit:

- (a) to do anything which the Clearing Member is obliged to do (but has not done) under any Clearing Documentation (including to execute charges over, transfers, conveyances, assignments and assurances of, and other instruments, notices, orders and directions relating to, the Charged Assets); and
- (b) to exercise any of the rights conferred on OTC Clear, any Receiver or any Delegate in relation to the Charged Assets, under or in connection with any Clearing Documentation or under the CPO, the Companies Ordinance, the Companies (Winding Up and Miscellaneous Provisions) Ordinance, the SFO or generally under Hong Kong law.

13.2 Ratification

The Clearing Member ratifies and confirms and agrees to ratify and confirm whatever any such attorney shall do in the exercise or purported exercise of the power of attorney granted by it in Clause 13.1 (*Appointment*).

14. PROTECTION OF THIRD PARTIES

14.1 No duty to enquire

No person dealing with OTC Clear, any Receiver or any Delegate shall be concerned to enquire:

- (a) whether the power or rights conferred under or in connection with this Deed are exercisable;
- (b) whether any consents, regulations, restrictions or directions relating to such rights have been obtained or complied with;
- (c) otherwise as to the propriety or regularity of acts purporting or intended to be in exercise of any such rights; or
- (d) as to the application of any money borrowed or raised.

14.2 Protection to purchasers

Subject to the provisions of this Deed, all the protection to purchasers contained in Sections 52 (*Protection of purchaser*), 53 (*Sale by mortgagee*) and 55 (*Mortgagee's receipt*) of the CPO or in any other applicable legislation shall apply to any person purchasing from or dealing with OTC Clear, any Receiver or any Delegate.

15. SAVING PROVISIONS

15.1 Continuing Security

Subject to Clause 16 (*Discharge of Security*), the Charges are continuing Security and will extend to the ultimate balance of the Liabilities, regardless of any intermediate payment or discharge in whole or in part.

15.2 Reinstatement

If any discharge, release or arrangement (whether in respect of the obligations of the Clearing Member or any security for those obligations or otherwise) is made by OTC Clear in whole or in part on the basis of any payment, security or other disposition which is avoided or must be restored in insolvency, liquidation, administration or otherwise, without limitation, then the liability of the Clearing Member and the Charges shall continue or be reinstated as if the discharge, release or arrangement had not occurred.

15.3 Waiver of defences

Neither the obligations of the Clearing Member under this Deed nor the Charges will be affected by an act, omission, matter or thing which, but for this Clause, would reduce, release or prejudice any of its obligations under any Contract or Clearing Documentation or any of the Charges (without limitation and whether or not known to it or OTC Clear) including:

- (a) any time, waiver or consent granted to, or composition with, the Clearing Member or other person;
- (b) the release of the Clearing Member or other person under the terms of any composition or arrangement with any creditor of the Clearing Member;
- (c) the taking, variation, compromise, exchange, renewal or release of, or refusal or neglect to perfect, take up or enforce any rights against, or security over assets of,

the Clearing Member or other person or any non-presentation or non-observance of any formality or other requirement in respect of any instrument or any failure to realise the full value of any security;

- (d) any incapacity or lack of power, authority or legal personality of or dissolution or change in the members or status of the Clearing Member or other person;
- (e) any amendment, novation, supplement, extension, restatement (however fundamental and whether or not more onerous) or replacement of any Contract or Clearing Documentation or any other document or security;
- (f) any unenforceability, illegality or invalidity of any obligation of any person under any Contract or Clearing Documentation or any other document or security; or
- (g) any insolvency or similar proceedings.

15.4 **Immediate recourse**

The Clearing Member waives any right it may have of first requiring OTC Clear (or any trustee or agent on its behalf) to proceed against or enforce any other rights or security or claim payment from any person before claiming from the Clearing Member under this Deed. This waiver applies irrespective of any law or any provision of any Contract or Clearing Documentation to the contrary.

15.5 **Appropriations**

Until all the Liabilities have been irrevocably paid in full and the Membership of the Clearing Member has been terminated in accordance with the Clearing Rules, OTC Clear (or any trustee or agent on its behalf) may:

- (a) refrain from applying or enforcing any other moneys, security or rights held or received by OTC Clear (or any trustee or agent on its behalf) in respect of those amounts, or apply and enforce the same in such manner and order as it sees fit (whether against those amounts or otherwise) and the Clearing Member shall not be entitled to the benefit of the same; and
- (b) hold in an interest-bearing suspense account any moneys received from the Clearing Member or on account of the Clearing Member's liability under this Deed.

15.6 **Additional Security**

The Charges are in addition to and are not in any way prejudiced by any other guarantees or security now or subsequently held OTC Clear.

16. **DISCHARGE OF SECURITY**

16.1 **Final redemption**

Subject to Clause 16.2 (*Retention of security*), if OTC Clear is satisfied that all the Liabilities have been irrevocably paid in full and that the Membership of the Clearing Member has been terminated in accordance with the Clearing Rules, OTC Clear shall at the request and cost of the Clearing Member release, reassign or discharge (as appropriate) the Charged Assets from the Charges.

16.2 **Retention of security**

If OTC Clear considers that any amount paid or credited to OTC Clear under any Contract or Clearing Documentation is capable of being avoided or otherwise set aside, that amount shall not be considered to have been paid for the purposes of determining whether all the Liabilities have been irrevocably paid.

16.3 **Consolidation**

Any restrictions on the consolidation of Security shall be excluded to the fullest extent permitted by law and OTC Clear shall, so far as it is lawful and subject to other provisions of this Deed, be entitled to consolidate all or any of the Charges with any other Security whether in existence on the date of this Deed or in the future.

17. **PAYMENTS**

17.1 **Demands**

Any demand for payment made by OTC Clear shall be valid and effective even if it contains no statement of the relevant Liabilities or an inaccurate or incomplete statement of them.

17.2 **Payments**

All payments by the Clearing Member under this Deed (including damages for its breach) shall be made to such account, with such financial institution and in such other manner as OTC Clear may direct.

17.3 **Continuation of accounts**

At any time after:

- (a) the receipt by OTC Clear of notice (either actual or otherwise) of any subsequent Security affecting the Charged Assets; or
- (b) the presentation of a petition or the passing of a resolution in relation to the Winding-up of the Clearing Member,

OTC Clear may open a new account in the name of the Clearing Member (whether or not it permits any existing account to continue). If OTC Clear does not open such a new account, it shall nevertheless be treated as if it had done so when the relevant event occurred. No moneys paid into any account, whether new or continuing, after that event shall discharge or reduce the Liabilities as at the time the relevant event occurred.

18. **RIGHTS, WAIVERS AND DETERMINATIONS**

18.1 **Ambiguity**

Where there is any ambiguity or conflict between the rights conferred by law and those conferred by or pursuant to this Deed, the terms of this Deed shall prevail.

18.2 **Remedies and waivers**

No failure to exercise, nor any delay in exercising, on the part of OTC Clear, any Receiver or any Delegate any right or remedy under this Deed shall operate as a waiver of any such right or remedy or constitute an election to affirm this Deed. No waiver or election to affirm this Deed on the part of OTC Clear, any Receiver or any Delegate shall be effective unless in writing. No single or partial exercise of any right or remedy shall prevent any further or other exercise or the exercise of any other right or remedy. The rights and remedies provided in this Deed are cumulative and not exclusive of any rights or remedies provided by law.

18.3 **Determinations**

Any determination by or certificate of OTC Clear, any Receiver or any Delegate under this Deed is, in the absence of manifest error, conclusive evidence of the matters to which it relates.

19. **SEPARATE AND INDEPENDENT OBLIGATIONS**

The Security created by the Clearing Member by or in connection with any Contract or Clearing Documentation is separate from and independent of the Security created or intended to be created by any other person by or in connection with any Contract or Clearing Documentation.

20. **COUNTERPARTS**

This Deed may be executed in any number of counterparts, and this has the same effect as if the signatures on the counterparts were on a single copy of this Deed.

21. **GOVERNING LAW**

This Deed is governed by Hong Kong law.

22. **JURISDICTION**

- (a) The courts of Hong Kong have exclusive jurisdiction to settle any dispute arising out of or in connection with this Deed (including a dispute relating to the existence, validity or termination of this Deed) (a "**Dispute**").
- (b) The Parties agree that the courts of Hong Kong are the most appropriate and convenient courts to settle Disputes and accordingly no Party will argue to the contrary.
- (c) This Clause 22 is for the benefit of OTC Clear only. As a result, OTC Clear shall not be prevented from taking proceedings relating to a Dispute in any other courts with jurisdiction. To the extent allowed by law, OTC Clear may take concurrent proceedings in any number of jurisdictions.

any rights, shares or other securities accruing, offered or arising as aforesaid, and the Clearing Member shall indemnify OTC Clear in respect of all calls, instalments or other payments relating to any of the Charged Assets owned by it and to any rights, shares and other securities accruing, offered or arising as aforesaid in respect of any of the Charged Assets.

14.2 **Protection to purchasers**

Subject to the provisions of this Deed, all the protection to purchasers contained in Sections 52 (*Protection of purchaser*), 53 (*Sale by mortgagee*) and 55 (*Mortgagee's receipt*) of the CPO or in any other applicable legislation shall apply to any person purchasing from or dealing with OTC Clear, any Receiver or any Delegate.

- (b) the release of the Clearing Member or other person under the terms of any composition or arrangement with any creditor of the Clearing Member;

- (d) any incapacity or lack of power, authority or legal personality of or dissolution or change in the members or status of the Clearing Member or other person;
- (e) any amendment, novation, supplement, extension, restatement (however fundamental and whether or not more onerous) or replacement of any Contract or Clearing Documentation or any other document or security;
- (f) any unenforceability, illegality or invalidity of any obligation of any person under any Contract or Clearing Documentation or any other document or security; or
- (g) any insolvency or similar proceedings.

15.4 **Immediate recourse**

The Clearing Member waives any right it may have of first requiring OTC Clear (or any trustee or agent on its behalf) to proceed against or enforce any other rights or security or claim payment from any person before claiming from the Clearing Member under this Deed. This waiver applies irrespective of any law or any provision of any Contract or Clearing Documentation to the contrary.

15.5 Appropriations

Until all the Liabilities have been irrevocably paid in full and the Membership of the Clearing Member has been terminated in accordance with the Clearing Rules, OTC Clear (or any trustee or agent on its behalf) may:

16. DISCHARGE OF SECURITY

16.1 Final redemption

Subject to Clause 16.2 (*Retention of security*), if OTC Clear is satisfied that all the Liabilities have been irrevocably paid in full and that the Membership of the Clearing Member has been terminated in accordance with the Clearing Rules, OTC Clear shall at the request and cost of the Clearing Member release, reassign or discharge (as appropriate) the Charged Assets from the Charges.

16.2 Retention of security

16.3 Consolidation

Any restrictions on the consolidation of Security shall be excluded to the fullest extent permitted by law and OTC Clear shall, so far as it is lawful and subject to other provisions of this Deed, be entitled to consolidate all or any of the Charges with any other Security whether in existence on the date of this Deed or in the future.

At any time after:

- (a) the receipt by OTC Clear of notice (either actual or otherwise) of any subsequent Security affecting the Charged Assets; or

OTC Clear may open a new account in the name of the Clearing Member (whether or not it permits any existing account to continue). If OTC Clear does not open such a new account, it shall nevertheless be treated as if it had done so when the relevant event occurred. No moneys paid into any account, whether new or continuing, after that event shall discharge or reduce the Liabilities as at the time the relevant event occurred.

18.1 Ambiguity

Where there is any ambiguity or conflict between the rights conferred by law and those conferred by or pursuant to this Deed, the terms of this Deed shall prevail.

18.2 Remedies and waivers

No failure to exercise, nor any delay in exercising, on the part of OTC Clear, any Receiver or any Delegate any right or remedy under this Deed shall operate as a waiver of any such right or remedy or constitute an election to affirm this Deed. No waiver or election to affirm this Deed on the part of OTC Clear, any Receiver or any Delegate shall be effective unless in writing. No single or partial exercise of any right or remedy shall prevent any further or other exercise or the exercise of any other right or remedy. The rights and remedies provided in this Deed are cumulative and not exclusive of any rights or remedies provided by law.

18.3 Determinations

Any determination by or certificate of OTC Clear, any Receiver or any Delegate under this Deed is, in the absence of manifest error, conclusive evidence of the matters to which it relates.

19. SEPARATE AND INDEPENDENT OBLIGATIONS

The Security created by the Clearing Member by or in connection with any Contract or Clearing Documentation is separate from and independent of the Security created or intended to be created by any other person by or in connection with any Contract or Clearing Documentation.
