Due to Hong Kong-UK relation and historical backgorund of Hong Kong, Hong Kong Company Secretary as mentioned in the Rule 3.28 has insight on global business, apart from knowledge on listing rules and relevant regulations relating to the business of the listed company.
- 2. Corporate governance and sustainability are fast-evolving trend nowadays, Company Secretary in Hong Kong helps to increase investor's interest and activism in corporate governance practices.
- 3. Separation of ownership and control is not common in most of Chinese family businesses. To this end, institional investor plays an important role. It will help to improve diversity in the board composition.
- 4. Rule 14A.35 "The listed issuer must announce the connected trasaction as soon as practicable after its terms have been agreed." In real situation, due to the culture of PRC listed companies, the management or business units in PRC usually may not be aware to take necessary action until a formal debit note is received by the listed company from supplier / service provider (which are connected party under listing rules's definition). Hong Kong Company Secretary would be more aware of this potential connected transaction when the deal is still under negotiation.
- 5. Most of listed company would not engage professsional firms to prepare their ESG Report after considering the cost and familiarity of operation of the listed company, hence Hong Kong Company Secretary will play an important role to lead the ESG project and start to formulate ESG planning / collect ESG data or performance (with or without comparative data of previous years) from business units a year ahead of the relevant financial year. PRC business units usually do not have proper interpretation on electricity emission facrtors across different regions, it will result in an incorrect carbon emission figure.
