As a market practitioner in ESG of two years, I would like to raise that the newly proposed time frame could place much pressure on both issuers as well as consultant firms. I have found issuers are preoccupied with annual report preparation, that often takes priority over ESG reports. With the proposed time frame, I believe the ESG report preparation could be more rushed. Thus, perhaps a timeframe of 5 months and 4 months after the publication of the annual report for Main Board issuers and GEM issuers respectively from the financial year-end date is more beneficial to all.

Encouraging Independent Assurance

| 18. | indepe assura where | you agree with the proposal to revise the Guide's wording on endence assurance to state that the issuer may seek independent ance to strengthen the credibility of ESG information disclosed; and e independent assurance is obtained, the issuer should describe the scope and processes adopted for assurance clearly in the ESG report? |
|-----|---------------------------|--|
| | | Yes |
| | \boxtimes | No |
| | Pleas | e give reasons for your views. |

I strongly propose the mandate of independent assurance for numeric ESG data disclosed. Through report surveys we have found methodology errors abound in reports, thus the mandate is the way forward for raising the credibility of ESG reporting, and making meaningful analysis.
