Consultation Questions

Please indicate your preference by checking the appropriate boxes. Please reply to the questions below on the proposed safeguards discussed in the <u>Consultation Paper</u>.

Question 1

Do you agree that the subscription and trading of SPAC securities prior to a De-SPAC Transaction should be limited to Professional Investors only (see paragraph 149 of the Consultation Paper)?

□ No

Please give reasons for your views.

Retail investors do not typically have access to funds and products managed by typical SPAC Promoters. The same protection should be afforded in the case of SPACs, which do not carry on any substantive business and require assessment of the Promoter/Investment Manager themselves. However, depending on the rigour and track record of SPAC Promoters under the HKEX regime, the Exchange should be prepared to introduce amendments, that for example, permit SPACs meeting certain requirements (Promoters' previous track records, capitalization, etc) being marketed to retail investors.

Question 2

Do you agree with the measures proposed in paragraphs 151 to 159 of the Consultation Paper to ensure SPAC's securities are not marketed to and traded by the public in Hong Kong (excluding Professional Investors)?

⊠ Yes

□ No

| Question 3a |
|--|
| Do you consider it appropriate for SPAC Shares and SPAC Warrants to be permitted to rade separately from the date of initial listing to a De-SPAC Transaction? |
| □ Yes |
| ⊠ No |
| |
| Please give reasons for your views. |
| We note that decoupling of shares and warrants is not a necessary feature of SPACs and would not be prohibitive for the existence of SPACs. It appears that in US market SPACs, the decoupling of shares and warrants has created conflicts of interest and apparently false markets in pre De-SPAC SPACs. |
| |
| Question 3b |
| As your answer to question 3a is "No", do you have any alternative suggestions? |
| □ Yes |
| □ No |
| |
| Please set out any alternative suggestions below. |

Question 4a

| Would either Option 1 (as set out in paragraph 170 of the Consultation Paper) or Option 2 as set out in paragraph 171 to 174 of the Consultation Paper) be adequate to mitigate the risks of extraordinary volatility in SPAC Warrants and a disorderly market? |
|---|
| ☑ Option 1 |
| ☐ Option 2 |
| ☐ A different option |
| Please give reasons for your views. Please provide further technical details if you suggest a different option. |
| Consistent with our view in Question 3a, we believe the Exchange should seek to limit the decoupling of Warrants, rather than seek to solve the speculative trading issues caused by them. |
| Question 4b |
| Do you have any other suggestions to address the risks regarding trading arrangements we set out in the Consultation Paper? |
| □ Yes |

| Question 5 |
|------------|
|------------|

| Do you agree that, at its initial offering, a SPAC must distribute each of SPAC Shares and SPAC Warrants to a minimum of 75 Professional Investors in total (of either type) of which 30 must be Institutional Professional Investors? |
|--|
| □ Yes |
| ⊠ No |
| |
| Please give reasons for your views. |
| We believe threshold should be lower, as the implied average ticket size for any PI in a minimum SPAC (1Bn HKD) is currently 13.3m HKD. We expect this to be prohibitively low for a large number of potential PIs. |
| Ougstion 6 |
| Question 6 |
| Do you agree that, at its initial offering, a SPAC must distribute at least 75% of each SPAC Shares and SPAC Warrants to Institutional Professional Investors? |
| □ Yes |
| ⊠ No |
| Please give reasons for your views. |
| We believe the threshold should be lower to permit more PI participation from non-instituitional investors. |

| Do you agree that not more than 50% of the securities in public hands at the time of a SPAC's listing should be beneficially owned by the three largest public shareholders? |
|--|
| ⊠ Yes |
| □ No |
| |
| Please give reasons for your views. |
| The Exchange may consider an alternative framing, e.g. no individual shareholder may hold more than 15%; or the largest 2 shareholders may not hold more than 25%. The current wording is unlikely to ever be triggered. |
| Question 8 Do you agree that at least 25% of the SPAC's total number of issued shares and at least 25% of the SPAC's total number of issued warrants must be held by the public at listing and on an ongoing basis? |

Question 9a

| Do you agree that the shareholder distribution proposals set out in paragraphs 181 and 182 of the Consultation Paper will provide sufficient liquidity to ensure an open market in the securities of a SPAC prior to completion of a De-SPAC Transaction? |
|---|
| ⊠ Yes |
| □ No |
| |
| Please give reasons for your views. |
| We agree the Exchange's proposal is likely to provide sufficient liquity to ensure an open market. We also note that the proposal in our responses to Question 5-8 is also likely to provide sufficient liquidity. |
| Question 9b |
| Are there other measures that the Exchange should use to help ensure an open and liquid market in SPAC securities? |
| □ Yes |
| ⊠ No |
| |
| Please set out any suggestions for other measures below. |
| We note that the Exchange should not be overly concerned with creating an open and liquid market in SPAC securities – rather it should facilitate De-SPAC transactions that result in a Successor Company with liquid securities. |

| Do you agree that, due to the imposition of restricted marketing, a SPAC should not have to meet the requirements set out in paragraph 184 of the Consultation Paper regarding public interest, transferability (save for transferability between Professional Investors) and allocation to the public? |
|---|
| ⊠ Yes |
| □ No |
| Please give reasons for your views. |
| Optically, are these preemptive waivers desirable from the HKEX's perspective? On a case by case basis, certain limbs may yet be satisfied. |
| Question 11 |
| Do you agree that SPACs should be required to issue their SPAC Shares at an issue price of HK\$10 or above? |
| ⊠ Yes |
| □ No |
| Please give reasons for your views. |
| Agree. Conducive for orderly market. |

| Question 12 | |
|--|---|
| Do you agree that must be at least H | the funds expected to be raised by a SPAC from its initial offering K\$1 billion? |
| ⊠ Yes | |
| □ No | |
| Please give reason | ns for your views. |
| Agree. Ensures quality raising capital through a | Promoters and assures that SPACs can remain a viable alternative to companies considering a listing/De-SPAC. |

| Question 14 | |
| | Promoter Warrants and SPAC Warrants should be exercisable only on of a De-SPAC Transaction? |
| ⊠ Yes | |
| □ No | |

Please give reasons for your views.

Agree. At the time of Issuance and prior to a De-SPAC transaction, SPAC/Promoter Warrants are theoretically based at least in part on inside information (i.e. Sponsor's knowledge of their own ability to source and close a desirable deal). Allowing for the exercise of warrants before a De-SPAC permits additional speculation which is unnecessary.

| Question 15b |
| Do you agree that a SPAC must not issue Promoter Warrants that contain more favourable terms than that of SPAC Warrants? |
| ⊠ Yes |
| □ No |
| |
| Please give reasons for your views. |
| The commercial intention of Promoter Warrants is to solve for upfront expense investment of the Promoter. Any 'value gap' can be bridged by issuing an alternative number of Promoter Warrants, rather than by varying their terms to be more favourable than SPAC Warrants. Fungibility of Warrants would also be easier to regulate. |
| Question 16 |
| Do you agree that the Exchange must be satisfied as to the character, experience and integrity of a SPAC Promoter and that each SPAC Promoter should be capable of meeting a standard of competence commensurate with their position? |
| ⊠ Yes |
| □ No |

Please give reasons for your views.

Agree. We believe the disorderly market in US SPACs is at least partially driven by Promoters that do not adhere to the same standards of integrity and competence that

would be required in Hong Kong. It is beneficial to all market participants for the Exchange to rigorously examine the experience and integrity of SPAC Promoters.

Question 17a

| Do you agree that the Exchange should publish guidance setting out the information that | at |
|---|----|
| a SPAC should provide to the Exchange on each of its SPAC Promoter's character, | |
| experience and integrity (and disclose this information in the Listing Document it | |
| publishes for its initial offering), including the information set out in Box 1 of the | |
| Consultation Paper? | |

 \boxtimes Yes

□ No

Please give reasons for your views.

We query whether the disclosure of SPAC Promoter Experience would assist investors in making a determination of the SPAC Promoter's background and suitability given limited track record of many SPAC Promoters. This should be a voluntary disclosure except where the SPAC Promoter has promoted [2] or more SPACs, or has over [2] years of experience Promoting SPACs.

Question 17b

Is there additional information that should be provided or information that should not be required regarding each SPAC Promoter's character, experience and integrity?

□ No

Please provide the details of any such information below.

We regard SPAC Promote terms and dealing with affiliates as an important data point for assessing the quality of a SPAC Promoter. Disclosure of promote sharing, side letters, forward purchase agreements in past and present SPACs should also be required.

| Do you agree that the Exchange, for the purpose of determining the suitability of a SPA |
|--|
| Promoter, should view favourably those that meet the criteria set out in paragraph 216 c |
| the Consultation Paper? |

□ No

Please give reasons for your views.

We do not believe that "managing assets with an average collective value of at least HK\$8 billion" is specific enough and the threshold may not be sufficiently high. We also do not believe holding a senior executive position at an Issuer is likely to afford any materially relevant experience or expertise to Promoting SPACs. Therefore, we propose that the Exchange should "view favourably" only those SPAC Promoters that have held senior executive positions in "collective investment schemes" managing not less than HK\$20Bn of assets for the past 3 financial years.

Question 19a

Question 20a

| Do you agree that, in the event of a material change in the SPAC Promoter or the suitability and/or eligibility of a SPAC Promoter, such a material change must be approved by a special resolution of shareholders at a general meeting (on which the SPAC Promoters and their respective close associates must abstain from voting)? |

| Question 20b |
| Should the trading of a SPAC's securities be suspended and the SPAC return the funds it raised from its initial offering to its shareholders, liquidate and de-list (in accordance with the process set out in paragraphs 435 and 436 of the Consultation Paper) if it fails to obtain the requisite shareholder approval within one month of the material change? |

| We query whether this could be worded without a majority requirement e.g. "Each SPAC Promoter must nominate at least one Director (who must also be an officer)" |

| Question 30 |
| Do you agree that the Exchange should apply new listing requirements to a De-SPAC Transaction as set out in paragraphs 259 to 281 of the Consultation Paper? |
| □Yes |

Please give reasons for your views.

⊠ No

We believe the imposition of the IPO Sponsor requirement, as set out in paragraphs 265-270, will be prohibitive to De-SPAC transactions and dissuade market participants from engaging in SPACs altogether. Ideal De-SPAC candidates are high growth companies that are difficult to diligence and therefore require the expertise of a SPAC Promoter to articulate the company's business plan, assist its development, and facilitate access to capital markets. As a prospective SPAC Promoter, we have yet to encounter any prospective IPO Sponsor that can assure us of their ability to complete Sponsor work on such targets we have described within an agreeable timeframe and fee cap. At the very least, the Exchange should waive the requirement for the IPO Sponsor to be engaged 2 months prior, or to make any declarations or be held liable for the work done in connection with a De-SPAC transaction. In effect, we are proposing that a quasiindependent fairness opinion be provided in lieu of IPO Sponsor declaration. We agree that suitability and eligibility requirements can remain as per the Consultation Paper. Separately, we note the Exchange's belief that there are numerous prospective listing candidates that would consider a "dual-track" involving De-SPAC. Respectfully, we must disagree. We believe the vast majority of prospective IPO candidates are not high growth companies or companies with unique cash flow profiles, and are therefore unlikely to seriously consider a De-SPAC alternative. In limit cases where a "dual-track" is explored, the listing candidate is also more likely to choose a US SPAC if the HKEX regime were to include a Sponsor requirement. The burden of finding a De-SPAC candidate will rest on the SPAC Promoter's proprietary sourcing ability in most cases (and certainly would be seen in successful De-SPAC transactions). We urge the Exchange to reconsider this position.

We note this requirement (and several others that follow) will be moot in most De-SPAC transactions. The Exchange may consider whether this requirement is necessary to impose and those that do not meet it are likely to already fail on other requirements.

| Should the Exchange impose a requirement on the amount of funds raised by a SPAC (funds raised from the SPAC's initial offering plus PIPE investments, less redemptions) that the SPAC must use for the purposes of a De-SPAC Transaction? |

| Question 34 |
| Should a SPAC be required to use at least 80% of the net proceeds it raises (i.e. funds raised from the SPAC's initial offering plus PIPE investments, less redemptions) to fund a De-SPAC Transaction? |

| Question 35 |
|-------------|

| □ Yes |

| |
| Please give reasons for your views. |
| We believe the requirement for a PIPE and independent FA is unnecessary. The Exchange has noted concerns over fair valuation being negotiated between SPAC Promoters and De-SPAC targets. The Exchange is likely also aware that the SPAC Promoter is properly incentivized to negotiate a fair valuation given their interest in the market price of the Successor Company. We propose that the Exchange satisfy itself that the appropriate SPAC Promoters are being vetted so that it need not be concerned over potential malfeaseance in De-SPAC negotiations. Alternatively, the Exchange should apply the PIPE requirement only in limited circumstances e.g. SPAC is less than HK\$1.5Bn, or post-De-SPAC market capitalization is relatively low. |
| Question 36 |
| Do you agree that the Exchange should mandate that this outside independent PIPE investment must constitute at least 25% of the expected market capitalisation of the Successor Company with a lower percentage of between 15% and 25% being acceptable if the Successor Company is expected to have a market capitalisation at listing of over HK\$1.5 billion? |

| Do you agree that at least one independent PIPE investor in a De-SPAC Transaction must be an asset management firm with assets under management of at least HK\$1 billion or a fund of a fund size of at least HK\$1 billion and that its investment must result in it beneficially owning at least 5% of the issued shares of the Successor Company as at the date of the Successor Company's listing? |

| Please give reasons for your views. |

While we support the Exchange's current framework to deal with Warrant dilution, we query whether the exchange could more elegantly address the matter from a De-SPAC redemption perspective, i.e. the Promoter's Warrants could be cancelled in the proportion of the redemption vote.

| Do you agree that the Exchange should be willing to accept requests from a SPAC to issue additional Promoter Shares if the conditions set out in paragraph 312 of the Consultation Paper are met? |

| We verily agree with the Exchange's position in paragraphs 340 to 341. We also note that this position is a key differentiating factor for the HK SPAC framework and should be perceived favourably by genuine market participants both from a Promoter, investor and Target company perspective. |
| Question 48 Do you agree a SPAC should be required to provide holders of its shares with the opportunity to elect to redeem all or part of the shares they hold (for full compensation of the price at which such shares were issued at the SPAC's initial offering plus accrued interest) in the three scenarios set out in paragraph 352 of the Consultation Paper? |

| Do you agree that SPACs should be required to comply with existing requirements with regards to forward looking statements (see paragraphs 371 and 372 of the Consultation Paper) included in a Listing Document produced for a De-SPAC Transaction? ☐ Yes ☑ No |
|--|
| |
| Please give reasons for your views. |
| As stated in our response to Question 30, De-SPAC targets are typically high growth companies or those with irregular cash flow profiles. Forward looking statements that go beyond a typical horizon of 1-2 years are required to properly assess the prospects of the business. The SPAC Promoter will certainly consider these aspects of the proposed De-SPAC. If the Exchange requires compliance with existing listing rules regarding forward looking statements, it would be forcing SPAC Promoters and Successor Companies to omit material information in relation to the De-SPAC. |
