I. BACKGROUND INFORMATION

A. HKEX

Hong Kong Exchanges and Clearing Limited (HKEX) is the holding company of two Exchanges, The Stock Exchange of Hong Kong Limited (SEHK) and Hong Kong Futures Exchange Limited (HKFE). It also owns three clearing houses, namely Hong Kong Securities Clearing Company Limited (HKSCC), HKFE Clearing Corporation Limited (HKCC) and The SEHK Options Clearing House Limited (SEOCH), and operates two clearing and settlement systems, Central Clearing and Settlement System (CCASS) and Derivatives Clearing and Settlement System (DCASS).

HKEX went public in June 2000 following the integration of the securities and derivatives markets of SEHK and HKFE. As a listed company, answerable to its shareholders, HKEX competes vigorously for opportunities in the region and around the world. It is a market-driven business, operating business-driven markets.

The mission of HKEX is to operate a world-class marketplace for Hong Kong and Mainland China securities and derivatives products. By offering access to international capital markets for issuers and an open, secure, fair, orderly, efficient and transparent marketplace for investors, issuers and intermediaries, HKEX contributes to Hong Kong's status as an international financial centre and the premier capital market for China. By servicing China's substantial long-term demand for capital and exchange services in accordance with international standards and practices, HKEX will further enhance its position as one of the world's pre-eminent exchanges.

B. DCASS

Both HKCC and SEOCH use DCASS to clear and settle their derivatives products. DCASS is a fully electronic and automated system capable of supporting many types of derivatives products. It is on the same technology platform and the same operational infrastructure as Hong Kong Futures Automated Trading System (HKATS). This provides seamless operational environment for derivatives trading and clearing. The Application Programming Interface connectivity provided by DCASS allows participants to connect their back-office applications on a host-to-host basis, thereby facilitating straight through processing for improved operational efficiency and reduced risk. DCASS also processes clearing transactions in real-time and provides extensive access to clearing data to support the risk management functions.

DCASS comprises the core derivatives clearing and settlement functionality, the margining engine and the common collateral management system (CCMS). CCMS supports the management of collateral for the cash and derivatives markets. It is available to both SEOCH and CCASS Participants. It accommodates a wide range of collateral types and has cross-market collateral management capability.

II. INFORMATION FOR POTENTIAL APPLICANTS FOR SEOCH PARTICIPANTSHIP

A. Participantship categories

Under SEOCH, there are two categories of Participantship, namely, Direct Clearing Participant and General Clearing Participant. The table below summarises their admission criteria / financial requirements / operational requirements.

		Direct Clearing Participant (DCP)	General Clearing Participant (GCP)
1	Provisions	In addition to clear Contracts traded for its own account, a DCP can clear Contracts traded on behalf of its clients.	In addition to clearing Contracts traded for its own account and on behalf of its clients, a GCP can also clear Contracts on behalf of its non-clearing participants with whom it has entered into a Clearing Agreement.
Admission Criteria and Requirements

B. Mandatory operational requirements

1. **Settlement/Designated Bank Accounts for Money Settlement Arrangement**

The money settlement process of SEOCH is effected by funds transferred between the bank account of SEOCH and bank accounts of SEOCH Participants maintained with the Settlement / Designated Bank. All fund transfers, whether for amounts collected from or payable to a SEOCH Participant, are initiated by SEOCH issuing a Direct Debit Instruction or Direct Credit Instruction to the Settlement/Designated Bank as applicable.

For each settlement currency, a SEOCH Participant is required to open bank accounts at the Settlement / Designated Banks appointed by SEOCH for money settlement purpose.

Moreover, each SEOCH Participant must execute the uniform Direct Debit Mandates to its Settlement / Designated Bank authorising the Settlement / Designated Bank to release funds to SEOCH's account upon receipt of direct debit instructions from SEOCH. The Direct Debit Mandates will become effective only when the Settlement / Designated Bank confirms its acceptance. Direct Debit Mandates are available from SEOCH.

The "List of Settlement Banks and Designated Banks for SEOCH Participants" can be found at

http://www.hkex.com.hk/eng/market/clr/dvclr/clarng_hkccseoch/banklist_hkccseoch/SEOCH_Banklist.htm.

Lead-time required

SEOCH will send the Direct Debit Mandates to the applicant's Settlement / Designated Bank for system setup for effecting money settlement. The whole process will take about two to six weeks to complete.

2. **Connection to DCASS and Installation of CCMS Terminals**

2.1 Connection to DCASS

SEOCH Participants can access to DCASS via HKEX's Central Gateway in 2 ways: (i) using the browser based frontend application, namely DCASS Online; and/or (ii) using customized OMnet Application Programme Interface (OAPI).

By using OAPI, SEOCH Participants can connect their back-office system to DCASS with straight-through-processing which can support high clearing volume. As information from DCASS will be updated on real time basis, the direct host-to-host connection alternative provided by OAPI can help SEOCH Participants to improve their operational efficiency and provide better risk management control.

SEOCH Participants will be informed of the relevant procedures when the scheduled

network installation date has been confirmed.

Lead-time required

The connectivity test of DCASS will normally be arranged in the week following the telecommunication line installation, where applicable.

For information about DCASS connection, please refer to the [DCASS FAQ](#)

2.2 CCMS Terminal Installation

SEOCH Participants can access CCMS, via CCASS Terminal or CCMS Terminal, to input collateral management instructions and perform balance and rates enquiries.

SEOCH Participants should contact the Accredited Vendors directly to apply for line installation and notify SEOCH the details about dedicated data communication links upon submission of prescribed application / order forms to the Accredited Vendors.

Lead-time required

The lead-time for service delivery by Accredited Vendors is normally six weeks subject to the arrangement between SEOCH Participants and the Accredited Vendor.

2.3 Sharing of CCASS Terminal (optional)

SEOCH Participants belonging to the same company group are allowed to share among themselves the use of data lines via CCASS Terminal to access CCMS functions, subject to HKSCC approval. A Participant may seek approval by applying in the prescribed manner to HKSCC.

3. **Appointment of Delegated Administrators and Authorised Users for CCMS and Client Connect**

Each SEOCH Participant must appoint its own administrators ("Delegated Administrators") to establish and manage, via CCASS or CCMS Terminal, the access of its Authorised Users to CCMS. Only persons approved as the SEOCH Participant's Authorised Users will be granted access to CCMS via CCASS or CCMS Terminals.

In addition, each SEOCH Participant must appoint its own Client Connect Delegated Administrators (CCDAs). The CCDAs can then setup their own Business users to access Client Connect services. Details of [Client Connect](#) are found in HKEX website.

For access control purposes, SEOCH Participants will need to apply for the smartcards, in the prescribed manner as specified by SEOCH, for their Delegated Administrators and Authorised Users.

4. Appointment of Authorised Signatories and Contact Persons

Authorised Signatories

Each Participant must provide SEOCH with a list of authorised persons as its Authorised Signatories with specimen signatures to give written instructions to SEOCH in connection with any matters relating to its participation and operations in DCASS and CCMS. The appointment of Authorised Signatories should be supported by a copy of Board Resolutions certified by a director or company secretary of the Participant.

Contact Persons

Each Participant must designate contact persons for specific purpose, e.g. DCASS operation, CCMS and Intra-day Margins for contact by SEOCH in case of need in respect of matters relating to such Participant's daily operations in DCASS and CCMS.

5. Authorisation Mandate

Participant should give SEOCH authorization to transfer Collateral and Settlement Account to HKSCC as demanded by HKSCC in relation to the settlement under the Continuous Net Settlement (CNS) system of stock delivery / money obligations.

6. Operations and Risk Control Plan

SEOCH Participant should submit an Operations & Risk Control Plan to SEOCH at the time of application. Guidelines for Contents of Operations & Risk Control Plan are enclosed in the Attachment 2 of Explanatory Notes for Application for Participantship and Trading Right (EN1).

[https://www.hkex.com.hk/-/media/HKEX-Market/Services/Rules-and-Forms-and-Fees/Forms/Securities-\(Hong-Kong\)/Trading/Participantship/Participantship-Admission/EN1.pdf](https://www.hkex.com.hk/-/media/HKEX-Market/Services/Rules-and-Forms-and-Fees/Forms/Securities-(Hong-Kong)/Trading/Participantship/Participantship-Admission/EN1.pdf)

7. FATCA Documentation

In order to comply with the requirements under the U.S. Foreign Account Tax Compliance Act (FATCA), each SEOCH Participant must submit the latest version of duly completed Form W-8BEN-E published in the U.S. Internal Revenue Service (see III.C.8) or any relevant form as applicable to SEOCH.

C. Optional services and their requirements

1. **DCASS OAPI application**

The OMnet Application Programming Interface (OAPI) connectivity provided by DCASS allows Participants to connect their own back office applications and third-party back office applications on a host-to-host basis. This facilitates straight through processing for improved operational efficiency and reduced risk.

SEOCH provides DCASS testing environment for SEOCH Participants to test their DCASS OAPI program. Each OAPI program must go through the Certification Test arranged by SEOCH before the OAPI program can be used in production environment. Certain charges will be applied to the access to DCASS testing environment, OAPI sub-license fee, certification test and other related matters. For the fee schedule, Participant can refer to [Appendix G of the Options Clearing Procedures](#).

If Participants are interested in conducting DCASS OAPI testing and certification test, they can contact DCASS Hotline at 2979-7222 or email to clearingpsd@hkex.com.hk for details.

2. **Third Party Clearing Services**

A SEOCH Participant can either become a CCASS Clearing Participant or appoint a CCASS GCP to clear its Exchange Trades on SEHK and handle the clearing and settlement of its exercised/assigned stock options contracts from DCASS, i.e. "Clearing Agency Transactions" as defined in CCASS.

A SEOCH Participant appointing a CCASS GCP will have to enter into a CCASS Clearing Agreement with its CCASS GCP. The CCASS GCP must ensure that the CCASS Clearing Agreement does not contain any provision which is inconsistent with the CCASS Rules and has terms and conditions to facilitate the performance of, and be consistent with, the CCASS GCP's obligations under the CCASS Rules. The CCASS Clearing Agreement shall incorporate any additional conditions prescribed by HKSCC from time to time. A CCASS GCP shall be bound by and comply strictly with the terms of each CCASS Clearing Agreement to which it is a party, to the extent that those CCASS Clearing Agreements are consistent with the CCASS Rules. Once HKSCC is provided with the following documents, the CCASS GCP can commence clearing trades for the SEOCH Participant from the agreement's effective date:

- (a) Form 11 - Notification of Execution of Clearing Agreement and Change of Clearing Relationship; and
- (b) Form 12 – Notification of Termination of Clearing Agreement.
