Client Account No. (for reference only) :

|     | Trade Number | Price          | Quantity |
|-----|--------------|----------------|----------|
| 1.  |              |                |          |
| 2.  |              |                |          |
| 3.  |              |                |          |
| 4.  |              |                |          |
| 5.  |              |                |          |
| 6.  |              |                |          |
| 7.  |              |                |          |
| 8.  |              |                |          |
| 9.  |              |                |          |
| 10. |              |                |          |
|     |              | Total Quantity |          |

\* Average Price - The average price of the APT is computed by summing up the product of the execution prices and the respective quantity executed at those prices, dividing such sum by the total quantity under the APO trades.
