

Appendix 16

DISCLOSURE OF FINANCIAL INFORMATION

This appendix sets out the minimum financial information that a listed issuer shall include in its preliminary announcements of results, interim reports, summary interim reports, annual reports, summary financial reports, listing documents and circulars in relation to equity securities. The following requirements are supplementary to and do not supplant any other disclosures required by the Exchange Listing Rules. This appendix also sets out certain recommended disclosure items on discussion and analysis (see paragraph 52) that listed issuers are encouraged to include in their interim and annual reports. These recommended disclosure items are not obligatory, but merely items relating to good practice which are recommended for disclosure.

Requirement for all Financial Statements

2. Each set of financial statements presented in an annual report, listing document or circular shall provide a true and fair view of the state of affairs of the listed issuer and of the results of its operations and its cashflows.
- 2.1 *Annual financial statements of a listed issuer are required, subject to Notes 2.4 and 2.6, to conform with:—*
- (a) *Hong Kong Financial Reporting Standards (HKFRS); or*
 - (b) *International Financial Reporting Standards (IFRS); or*
 - (c) *China Accounting Standards for Business Enterprises (CASBE) in the case of a PRC issuer that has adopted CASBE for the preparation of its annual financial statements.*
- 2.2 *An issuer must apply one of the bodies of standards referred to in Note 2.1 consistently and shall not normally change from one body of standards to the other unless there are reasonable grounds to justify such a change. All reasons for any such change must be disclosed in the annual financial statements.*
- 2.3 *[Repealed 15 December 2010]*
- 2.4 *An overseas issuer, which has a secondary listing on the Exchange, may prepare annual financial statements drawn up in conformity with Generally Accepted Accounting Principles in the United States of America (US GAAP).*
- 2.5 *If an accounting estimate reported in prior interim period of the current financial year is changed during the subsequent interim period of the same financial year and has a material effect in that subsequent interim period, the nature and amount of a change in an accounting estimate that has a material effect in the current financial year or which is expected to have a material effect in subsequent periods should be disclosed. If it is impracticable to quantify the amount, this fact should be disclosed.*
- 2.6 *Where the Exchange, in exceptional circumstances, allows the annual financial statements of an overseas issuer to be drawn up otherwise than in conformity with accounting standards referred to in Note 2.1, the Exchange will normally require the annual financial statements to contain a statement of the financial effect of the material differences (if any) from either HKFRS or IFRS referred to in Note 2.1 above.*

- 2.7 *References to financial statements in a circular relate to circumstances where the Exchange Listing Rules require a listed issuer to provide financial statements in a circular to shareholders. There may be financial statements of the listed issuer or of other companies.*
- 2.8 *Where there have been material changes in group structure during the period covered by the accountants' report prior to the proposed listing date of a new applicant, the new applicant should consult with the Exchange at the earliest opportunity in respect of the contents and presentation of the cash flow statement in the listing document.*
3. If the financial statements do not give a true and fair view of the state of affairs of the listed issuer and of the results of its operations and its cashflows, more detailed and/or additional information must be provided.
- 3.1 *If a listed issuer is in doubt as to what more detailed and/or additional information should be provided, it should apply to the Exchange for guidance.*
- 3.2 *If a listed issuer is not required to draw up its financial statements so as to give a true and fair view (in accordance with any statutory provisions applicable in the listed issuer's place of incorporation or establishment) but is required to draw them up to an equivalent standard, the Exchange may allow its financial statements to be drawn up to that standard. Reference must, however, be made to the Exchange. If a listed issuer is in doubt as to what more detailed and/or additional information should be provided, it should contact the Exchange for guidance.*

The Exchange will only authorise such omission provided it is satisfied that the omission is not likely to mislead the public with regard to facts and circumstances, knowledge of which is essential for the assessment of the securities in question. - (2) the statement required by sub-paragraph 13(1) must specify the company in which the interests or short positions are held, the class to which those securities belong and the number of such securities held. The statement need not disclose:

15.3 *Notwithstanding the percentage specified in Note 15.2, a transaction, arrangement or contract is regarded as a “transaction, arrangement or contract of significance” to a listed issuer if the omission of information relating to that transaction, arrangement or contract could have changed or influenced the judgement or decision of a person relying on the relevant information.*

15.4 *A reference to an entity connected with a director has the meaning given by section 486 of the Companies Ordinance.*

16. A listed issuer shall include:–

(1) particulars of any contract of significance between the listed issuer, or one of its subsidiary companies, and a controlling shareholder or any of its subsidiaries;

If an issuer has valued any property interests (under Chapter 5) or has valued any other tangible assets and included such a valuation in the prospectus relating to its initial public offer and those assets are not stated at valuation (or at subsequent valuation) in its first annual financial statements published after listing, then the issuer is required to disclose the following additional information in its first annual report published after listing:–
- (1) the amount of such valuation of those properties or other tangible assets as included in the prospectus; and
 - (2) the additional depreciation (if any) that would be charged against the statement of profit or loss and other comprehensive income had those assets been stated at such valuation (or subsequent valuation).

28. A listed issuer (whether or not it is incorporated in Hong Kong) shall include disclosures required under the following provisions of the Companies Ordinance and subsidiary legislation:–

 - (c) Section 543 - Disclosure of management contract;
 - (d) Schedule 5 - Content of Directors' Report: Business Review; and
 - (e) Companies (Directors' Report) Regulation.

28.1 Directors must prepare the directors' report which complies with section 388 of the Companies Ordinance and the directors' report must be approved and signed, which complies with section 391 of the Companies Ordinance.

28.2 Section 390(3)(b) of the Companies Ordinance requires a company to disclose the name(s) of the director(s) of its subsidiaries. Notwithstanding the disclosure provisions in sub-paragraph 2(a) above, a listed issuer not incorporated in Hong Kong is not required to disclose the name(s) of its subsidiaries' director(s).

29. A listed issuer shall include a statement of the reserves available for distribution to shareholders by the listed issuer as at the date of its statement of financial position:-
- (1) in the case of a Hong Kong issuer, as calculated under the provisions of sections 291, 297 and 299 of the Companies Ordinance; and
 - (2) in other cases, as calculated in accordance with any statutory provisions applicable in the listed issuer's place of incorporation or, in the absence of such provisions, with generally accepted accounting principles.
30. A listed issuer shall include details of any change in its auditors in any of the preceding three years.
31. A listed issuer shall include information in respect of its major customers (meaning, other than in relation to consumer goods or services, the ultimate customer, and in relation to consumer goods or services the ultimate wholesale or retailer as the case may be) and its major suppliers (meaning the ultimate supplier of items which are not of a capital nature) as follows:-
- (1) a statement of the percentage of purchases attributable to the largest supplier;
 - (2) a statement of the percentage of purchases attributable to the 5 largest suppliers combined;

 - (7) in the event that the percentage which would fall to be disclosed under (4) above is less than 30, a statement of that fact shall be given and the information required in (3), (4) and (5) (in respect of customers) may be omitted;

31.1 *Paragraph 31 applies to all listed issuers whose businesses comprise, in whole or in part, the supply of goods or services of whatever nature, and in the case of service references to customers includes the clients of such listed issuers.*

31.2 *In relation to consumer goods, references to customers are to the ultimate wholesaler or retailer, except when the listed issuer's business incorporates the wholesaling or retailing operation. In all other cases references to customers are to ultimate customer.*

31.3 *References to suppliers are primarily to those who provide goods or services which are specific to a listed issuer's business and which are required on a regular basis to enable the listed issuer to continue to supply or service its customers. Suppliers of goods and services which are freely available from a range of suppliers at similar prices or which are otherwise freely available (such as utilities) are excluded. In particular, it is recognised that an obligation on listed issuers who are providers of financial services (such as banks and insurance companies) to give information about suppliers would be of limited or no value, and there is therefore no disclosure requirement in respect of suppliers to such listed issuers.*

31.4 *The Exchange must be consulted if there is any doubt about the application of paragraph 31.*

32. A listed issuer shall include in its annual report a discussion and analysis of the group's performance during the financial year and the material factors underlying its results and financial position. It should emphasize trends and identify significant events or transactions during the financial year under review. As a minimum the directors of the listed issuer should comment on the following:–

- (1) the group's liquidity and financial resources. This may include comments on the level of borrowings at the end of the period under review, the seasonality of borrowing requirements, and the maturity profile of borrowings and committed borrowing facilities. Reference may also be made to the funding requirements for capital expenditure commitments and authorisations;
- (2) the capital structure of the group in terms of maturity profile of debt and obligation, type of capital instruments used, currency and interest rate structure. The discussion may cover:
 - (a) funding and treasury policies and objectives in terms of the manner in which treasury activities are controlled;
 - (b) the currencies in which borrowings are made and in which cash and cash equivalents are held;

- (c) the extent to which borrowings are at fixed interest rates;
 - (d) the use of financial instruments for hedging purposes; and

- (4) significant investments held, their performance during the financial year and their future prospects;
- (4A) a breakdown of its significant investments (including any investment in an investee company with a value of 5 per cent. or more of the issuer's total assets as at the year end date):

- (6) comments on segmental information. This may cover changes in the industry segment, developments within the segment and their effect on the results of that segment. It may also include changes in the market conditions, new products and services introduced or announced and their impact on the group's performance and changes in revenue and margins;
- (7) where applicable, details of the number and remuneration of employees, remuneration policies, bonus and share option schemes and training schemes;
- (8) details of charges on group assets;

32.1 *It is the responsibility of the directors of the listed issuer to determine what investment or capital asset is material in the context of the listed issuer's business, operations and financial performance. The materiality of investment or capital asset varies from one listed issuer to another according to its financial performance, assets and capitalisation, the nature of its operations and other factors. An event that is "material" in the context of a smaller listed issuer's business and affairs is often not material to a large listed issuer. The directors of the listed issuer are in the best position to determine materiality. The Exchange recognises that decisions on disclosure require careful subjective judgements, and encourages listed issuers to consult the Exchange when in doubt as to whether disclosure should be made.*

(10) gearing ratio;

32.2 *The basis on which the gearing ratio is computed should be disclosed.*

(11) exposure to fluctuations in exchange rates and any related hedges; and

(12) details of contingent liabilities, if any.

32.3 *If the above information required in this paragraph has been disclosed in a business review in the directors' report as set out in paragraph 28, no additional disclosure is required.*

33. [Repealed 31 December 2015]

34. An issuer must include, in respect of the group, a separate Corporate Governance Report prepared by the board on its corporate governance practices. The report must, as a minimum, contain the information required under paragraphs G to Q of Appendix 14 regarding the accounting period covered by the annual report. To the extent that it is reasonable and appropriate, the issuer may incorporate by reference information in its annual report into the Corporate Governance Report. Any such references must be clear and unambiguous and the Corporate Governance Report must not contain only a cross-reference without any discussion of the matter.

34A. A listed issuer shall include a statement of sufficiency of public float. The statement should be based on information that is publicly available to the listed issuer and within the knowledge of its directors as at the latest practicable date prior to the issue of the annual report.

Any significant changes in accounting policies, including those required by an accounting standard, should be disclosed together with the reason for changing the accounting policy.*

Where it is not possible to quantify the effects of the change in the accounting policies, or the effects are not significant, this shall be stated.*

It should provide a comparison with the corresponding period of the preceding financial year and must also, as far as possible, give an indication of the listed issuer's prospects for the current financial year. Such discussion may focus only on the significant changes in the group's performance since the most recent published annual report. Where the current information in relation to those matters set out in paragraph 32 has not changed materially from the information disclosed in the most recent published annual report, a statement to this effect may be made and no additional disclosure is required; and

- (3) any supplementary information which is necessary for a reasonable appreciation of the interim results.

40.2 The Exchange may authorise the omission from an interim report of specified items of information if it considers that disclosure of such information would be contrary to the public interest or seriously detrimental to the listed issuer. The Exchange will only authorise such omission provided it is satisfied that the omission is not likely to mislead the public with regard to facts and circumstances, knowledge of which is essential for the assessment of the securities in question. The listed issuer or its representatives will be responsible for the correctness and relevance of the facts on which any application for such exemption is based. The Exchange may authorise the omission from an interim report of any other information either on the grounds referred to above or if it considers such omission otherwise necessary or appropriate.
