The circular must include the following information:

<u>(d) Contents of valuation report</u>			
<u>Paragraph 8.1 of Practice Note 12</u>			
Where the relevant property has been valued on an open market basis, but such valuation is not by reference to comparable market transactions, the valuer may be required to discuss and disclose the assumptions underlying the open market valuation method in the context of the market in which the property is situated. Valuers may be asked to justify the assumptions they have made in the valuation report particularly where local market conditions or legal circumstances may differ greatly from those in Hong Kong.			
<u>Paragraph 8.2 of Practice Note 12</u>			
The valuer in any valuation report must clearly state the nature of the interest which is being valued, taking account of the content of any legal opinion provided to him relating to the relevant property. In particular the valuation report should clearly state whether the valuation is of a vested legal right or of a right to acquire a vested legal right to the relevant property or, for example, only a right to occupy the relevant property for a fixed period or to enjoy rents or other income therefrom.			
<u>Paragraph 8.3 of Practice Note 12</u>			
Where the property the subject of the valuation report has been valued on an open market basis and by reference to the residual method, the valuation report should:			
(a) state this fact;			
(b) describe the valuation method used together with a brief description of that method in simple language;			
(c) provide a statement showing:—			
(i) gross development value of the various components in the proposed development with an explanation of any comparables used and the adjustments made to arrive at the figure for gross development value;			
(ii) construction costs based on the report of a properly qualified quantity surveyor as referred to in paragraph 8.4 of Practice Note 12 (See below);			
(iii) all fees charged or to be charged;			
(iv) interest charges;			
(v) developer's profit; and			
(vi) any other component or comparable figure used in the residual method; and			
(d) describe the assumed development potential for the relevant property, including relevant plot ratios. Any approval or any indication from any competent authority which differs from the development potential or plot ratios assumed by the valuer should be set out in the valuation report. If no relevant approval has been obtained from a competent authority the valuer should state the source of and the basis of the assumptions used.

<u>(e) Income or profit method of valuation</u>			
<u>Paragraph 9 of Practice Note 12</u>			
State the assumptions upon which this method is based and whether there is any comparable market evidence, for example, in the case of a hotel, of room rates and occupancy levels in the same or similar location to the relevant property.			
<u>(f) Valuation by residual method</u>			
<u>Paragraph 8.4 of Practice Note 12</u>			
The report of the quantity surveyor to verify the estimated costs of carrying out the development should be included together with the valuation report.			
<u>Paragraph 11 of Practice Note 12</u>			
Where the valuations are required under Chapter 5 of the Rules or under paragraph 10(b) of Practice Note 12 (<i>See below</i>), the Exchange may require the directors of the relevant party to include a statement in a prominent position in the relevant document with respect to the valuation of any property held for investment, development, future development and sale. In that statement the directors or, for connected transaction, the independent directors, must:—			
<ul style="list-style-type: none"> (a) critically discuss and assess the assumptions made by the valuer as disclosed in the valuation report for the aforesaid categories of property and the material effect that any variation of those assumptions may have on the valuation figure; (b) critically discuss the effect of any material conditions affecting the status of the legal title to any such property as disclosed in any legal opinion obtained in respect of such property; (c) where the valuation is based on the expected sale value of the completed development, the exact stage at which any proposed development has reached; and (d) describe all known relevant local taxes which may be charged in respect of any proposed property development project and explain how such taxes could affect the calculation of developer's profit contained in any calculation pursuant to the residual method, and the consequent effect on any valuation figure. 			
<u>Paragraph 13 of Practice Note 12</u>			
A general warning statement in substantially the required form set out in Practice Note 12.			
<u>Paragraph 17 of Practice Note 12</u>			
Where property assets represent or will represent substantially the whole or a majority of the assets of the new applicant or listed issuer, the warning statement set out in paragraph 13 of Practice Note 12 (<i>See above</i>) should, if applicable, also appear in the "Risk Factors" section of the relevant document.

<u>(g) Notifiable transactions and connected transactions</u>			
<u>Paragraph 10 of Practice Note 12</u>			
Where in any transaction which are subject to Chapters 14 and/or 14A, the relevant party is or intends to contribute capital or to contribute to or become liable for all or part of the cost of development of any property project or development, or to any company or venture involved in any development project, then the Exchange:			
<p>(a) may require further disclosure of how such capital contribution or development costs have been derived;</p> <p>(b) may require an independent valuation report, even if such report is not expressly required under Chapter 5 of the Rules; and</p> <p>(c) may consider taking account of such capital or cost contributions when considering whether the transaction falls within any of the categories of notifiable transactions and connected transactions referred to in Chapters 14 and 14A.</p>			
<u>Paragraph 15 of Practice Note 12</u>			
In the case of connected transactions, where the valuer has relied upon information supplied by a connected person this should be clearly stated in the valuation report and the extent to which the valuer has independently verified this information should be set out prominently in the relevant document.			
<u>(h) Accountancy treatment</u>			
<u>Paragraph 12 of Practice Note 12</u>			
In all cases where a valuation report is required, the Exchange may also require the directors to describe the accounting treatment to be adopted in respect of any property assets situated in a developing property market.			
<u>(i) Exchange rates</u>			
<u>Paragraph 14 of Practice Note 12</u>			
Any figures or calculations included in the valuation report rely on exchange rates, the rate used and relevant date should be stated. Where there has been a fluctuation in exchange rates between the date of the valuation and the date of the listing document or circular to shareholders, this fact together with the effect of the fluctuation on the valuation in the valuation report should be set out.			
<u>(j) Date and cost of original acquisition</u>			
<u>Paragraph 16 of Practice Note 12</u>			
Where the property the subject of the valuation has been acquired within 5 years of the date of valuation, the new applicant or the listed issuer should supply to the valuer for inclusion in his report the relevant date and cost of acquisition and the total costs expended on the property, which should be included alongside the current valuation figure.
