3 Guidelines for NB Investor ID Model MR2

CCEPs/TTEPs are requested to make note of the following important points when they take part in the MR2:

Before MR2:

- In case there is any update of designated contact person, CCEPs and TTEPs are required to complete Appendix A – Notification Form and return it to HKEX on or before 8 August 2018 to provide the new designated contact person for MR2. For CCEPs who will join the Post Test Verification Sessions after MR2, they are also required to complete the Appendix A.
- For participation of MR2, no prior registration is required.
- CCEPs must ensure that the correct configuration of BSS software (if needed) supporting BCAN is activated before connecting to CSC/CCCG for MR2. In this case, after conducting MR2, CCEPs must also ensure that appropriate BSS software (without BCAN) is reinstated in order to ensure no interruption to their trading activities on the following trading day.
- CCEPs are reminded to back up their BSS production database before the MR2 so that the database can be restored after the test to safeguard data integrity for the following trading day.

Access to MR2 and Post Test Verification Session:

SFTP Facility

- CCEPs/TTEPs are required to logon to SFTP via the registered Public Keys for submission of BCAN-CID Mapping File and Authorised TTEP Firm List.

CCCG

- CCEPs are required to logon all CCCG (including Trading and Drop Copy sessions) by using the assigned Comp ID(s) and password “Ab123456” or production password as specified below or in respective activity rundown:

- Please note that BCAN-CID Mapping/Authorized Firm List files that have been submitted onto the SFTP facility cannot be renamed and only BCAN-CID Mapping and Authorized firm list files that have been packaged with the zip utility, and have “zip” file extension will be accepted by SFTP.

- **The total number of records in BCAN-CID Mapping File to be submitted by CCEPs/TTEPs must less than 200 records.**
- All BCANs that are successfully registered during previous Connectivity Session on 21 July 2018 will be carried forward to MR2. However, BCAN-CID Mapping Files submitted on 28 July 2018 will be disregarded.
- The stock database as at the market open on 13 August 2018 will be used for MR2.
- During afternoon session in MR2, CCEPs are required to simulate real-life trading activities by inputting orders tagged with BCANs which are successfully registered in the morning session.
- CCEPs already rolled out pre-trade checking function for institutional investor ID (IIID), please use IIID that opened at or before 8 August 2018.
- CCEPs supported but not yet rolled out pre-trade checking function for IIID, dummy IIID will be separately issued to the relevant CCEPs.

After MR2:

- Upon completion of MR2, CCEPs are reminded to log off and terminate all CCGG sessions, then perform end-of-day procedures and clean up the transaction data (e.g. orders and trades) entered during the test from BSS (if applicable).
- After the MR2, CCEPs are also reminded to clean up the next day requests for testing, if any, to ensure that these testing orders will not be carried forward to the production on the following trading day.
- **All SFTP user accounts and public keys will be carried forward to the production environment when the BCAN-CID file submission service launches later. Should CCEPs and TTEPs wish to renew their public keys, please repeat the key registration process.**
