

Trading Calendar Enhancement for Stock Connect

FAQ

(Version Date: 6 October 2022)

The information contained in this document is for general informational purposes only and does not constitute an offer, solicitation or recommendation to buy or sell any securities or to provide any investment advice or service of any kind. This document is not directed at, and is not intended for distribution to or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation or which would subject Hong Kong Exchanges and Clearing Limited (“HKEX”), The Stock Exchange of Hong Kong Limited (“SEHK”), Hong Kong Securities Clearing Company Limited, Shenzhen Stock Exchange (“SZSE”), Shanghai Stock Exchange (“SSE”) and China Securities Depository and Clearing Corporation Limited (together, the “Entities”, each an “Entity”), or any of their affiliates, or any of their affiliates, or any of the companies that they operate, to any registration requirement within such jurisdiction or country.

No section or clause in this document may be regarded as creating any obligation on the part of any of the Entities. Rights and obligations with regard to the trading, clearing and settlement of any securities transactions effected on the SZSE, SSE and SEHK, including through Shanghai Connect or Shenzhen Connect (together “Shanghai and Shenzhen Connect”), shall depend solely on the applicable rules of the relevant exchanges and clearing houses, as well as the applicable laws, rules and regulations of Mainland China and Hong Kong.

Although the information contained in this document is obtained or compiled from sources believed to be reliable, none of the Entities guarantee the accuracy, validity, timeliness or completeness of the information or data for any particular purpose, and the Entities and the companies that they operate shall not accept any responsibility for, or be liable for, errors, omissions or other inaccuracies in the information or for the consequences thereof. The information set out in this document is provided on an “as is” and “as available” basis and may be amended or changed from time to time. It is not a substitute for professional advice which takes account of your specific circumstances and nothing in this document constitutes legal advice. HKEX and its subsidiaries shall not be responsible or liable for any loss or damage, directly or indirectly, arising from the use of or reliance upon any information provided in this document.

Note: Implementation of trading calendar enhancement for Stock Connect will be subject to necessary regulatory approvals. Some of the detailed arrangements are still subject to confirmation by the relevant authorities and further discussions between the relevant parties. Market participants and investors will be updated as and when further information is available or if there are any changes to such information. Note that the current FAQ for Stock Connect¹ still applies and will be subject to change after the implementation of trading calendar enhancement.

Part 1: TRADING

1.1 What is trading calendar enhancement for Stock Connect?

Under the existing Northbound arrangements for Stock Connect, trading is available on a Hong Kong trading day (T day), when both the Hong Kong and Mainland China markets are open and banking services are available in both markets on the corresponding money settlement day (T+1 day).

As such, Northbound trading on Stock Connect would be closed on the trading day before a Hong Kong public holiday because banking services are not available in the Hong Kong market on public holidays. The enhancement to Stock Connect trading calendar will enable Northbound trading under Stock Connect on all trading days that are mutual to the Hong Kong and Mainland China markets. Similar adjustments will also be made to the Southbound arrangements of Stock Connect.

1.2 When will the trading calendar enhancement take effect?

It is estimated that the preparation time for implementing the adjustments will take six months from the joint announcement² dated 12 August 2022. The trading calendar enhancement will take effect upon regulatory approval and the commencement date will be announced in due course. Information relating to this initiative can be found on the HKEX website³.

1.3 How many trading days will be added after the enhancement?

The enhancement enables Northbound trading on Stock Connect on all trading days that are mutual to the Hong Kong and Mainland China markets. Taking year 2021 as an example, there would be 6 additional Northbound trading days (i.e. 1 April 2021, 18 May 2021, 30 June 2021, 17 September 2021, 13 October 2021 and 24 December 2021.) and 11 additional Southbound

³ https://www.hkex.com.hk/Mutual-Market/Stock-Connect/Reference-Materials/Trading-Calendar-Enhancement-for-Stock-Connect?sc_lang=en

trading days (i.e. 9 to 10 February 2021, 29 to 30 April 2021, 16 to 17 September 2021, 29 to 30 September 2021 and 29 to 31 December 2021.), if the enhancement was applied to the 2021 calendar. After the enhancements, the additional Northbound trading days will be included in the trading calendar of Stock Connect published by the Exchange.

1.4 What benefits will this arrangement bring to both Hong Kong and Mainland markets?

Upon implementation of the enhancement, i.e. by allowing Stock Connect investors to trade on all days when both markets are open, investors will be able to better manage their risks for trading under Stock Connect. It will also deepen the cross-border market accessibility of the Stock Connect programme, enabling Hong Kong and global investors to enjoy wider access to the Mainland China markets and providing Mainland investors with more opportunities to engage with our markets.

Part 2: CLEARING AND SETTLEMENT

2.1 What are the adjustments to Northbound Trading and Settlement activities under the arrangements for holiday trading enhancement?

After the enhancement, China Connect Exchange Participants (“CCEPs”) can trade SSE and SZSE Securities on a Hong Kong business day when both the markets in Hong Kong and Mainland are open for trading (T day). “H-1 day” will be defined as the Settlement Day immediately preceding a day which is a public holiday in Hong Kong but not in Mainland China.

For H-1 day trading, securities settlement will remain unchanged and will be held at day end of T day while money settlement arrangement for H-1 trading will be adjusted accordingly.

An illustrative example for trading and settlement calendar for Northbound trading after the adjustment is shown below:

Northbound	Hong Kong	Mainland	Trading Day (T day)	Securities Settlement (for T day's trades)	Money Settlement (for T-1 day's trades)
5 May 2022 (Thu)	Business Day		✓	✓	✓
6 May 2022 (Fri)	Business Day		X -> ✓	X -> ✓	✓ [^]
9 May 2022 (Mon)	Public Holiday	Business Day	X	X	X
10 May 2022 (Tue)	Business Day		✓	✓	✓ [#]

[^] Process money settlement for China Connect Clearing Participants (“CCCP”) with net payable Continuous Net Settlement (“CNS”) money positions in regard to their Northbound China Connect Trades conducted on T day (i.e. 6 May 2022), if any.

Process money settlement for CCCPs with net receivable CNS money positions in regard to their Northbound China Connect Trades conducted on previous T day (i.e. 6 May 2022), if any and also process money transactions in relation to nominee's activities conducted on or before the first Hong Kong business day after the Hong Kong public holiday (i.e. from 9-10 May 2022) with respect to SSE/SZSE Securities.

	Money Settlement on Normal days	Money Settlement on H-1 day
CCCPs with net payable amount	Settle by 12:00 p.m. on T+1 day	Settle by 6:00 p.m. on T day
CCCPs with net receivable amount	Settle at around 12:30 p.m. on T+1 day	Same as in normal days - Settle at around 12:30 p.m. on T+1 day (1 st Hong Kong business day after a Hong Kong holiday)

Failure to settle any payment obligations on time, including the net payable obligation for T day trades as mentioned above, will constitute an event of default and Hong Kong Securities Clearing Company Limited (“HKSCC”) may take default actions against the relevant CCCPs if it is considered appropriate.

2.2 How can CCCPs estimate the money obligation for H-1 trading?

CCCPs can download the Final Clearing Statement (“FCS”) on H-1 day after 4:00 p.m. to check the money obligation for T day trades. No new CCASS reports will be introduced for H-1 trading.

2.3 How much do CCCPs with net payable money positions need to pay for H-1 trading?

Net buy CCCPs refer to those CCCPs with net payable settlement obligations (including both overdue and pending positions) after netting obligations in Shanghai and Shenzhen markets, assuming all their net sell CNS positions are fully settled.

If CCCPs have set up cash prepayment standing instruction for China Connect Securities, Cash Prepayment Instructions (“CPI”) will be generated according to the cash prepayment amount.

2.4 Can CCCPs still make cash prepayment per current practice?

Upon introduction of H-1 trading, cash prepayment functions remain available to all CCCPs per current practice.

For a net buy CCCP, CCASS would generate automatically a CPI on its net payable CNS money on H-1 day, taking into account of its Cash Prepayment Standing Instruction. However,

if the net buy CCCP wants to pay more than the net payable CNS money obligation, it can make Cash Prepayment online input in addition per current practice.

For a net sell CCCP who wants to ensure all allocated net buy positions can be released on the same day may opt to make Cash Prepayment either by Standing Instruction or by online input per current practice.

2.5 For early release of Securities-on-hold Application (using HKD / USD), how will it be handled?

All net buy CCCPs need to pay in full of the CNS money obligations in RMB on H-1 day by 6:00 p.m. HKD or USD as collateral for the early release of Security-on-hold will not be accepted on H-1 day.

2.6 What would happen if there is failed CNS sell trade and if the prepayment / settlement net BUY amount paid is not sufficient?

Failed short CNS positions will be handled per existing practice, i.e. the short CPs will be subject to buy-in and default fee in regard to the failed short CNS position unless being exempted from buy-in by HKSCC. For failed CNS money settlement by net buy CCCPs by 6:00 p.m., the CCCPs will be considered to be in default and will be subject to HKSCC default proceedings.

For example, CCCP X has following positions on H-1 day:

	Stock A	Stock B
Securities settlement	Buy 100 shares	Sell 80 shares
Money settlement	Pay RMB 100	Receive RMB 80
Net payable obligation	RMB 20	

CCCP X settled the net payable of RMB 20 before 6:00 p.m. on H-1 day but failed to deliver 80 shares of Stock B to HKSCC. As CCCP X settled the net payable obligation for T day trades on H-1 day, it will not constitute an event of default. For failed delivery of Stock B, it will trigger compulsory buy-in and default fee will be charged on the first Hong Kong business day after a Hong Kong holiday unless exemption is granted as per current practice. The unsettled money obligation (overdue value) for RMB 80 for Stock A, HKSCC will generate a CPI to collect from CCCP X at around 12:00 p.m. on the first Hong Kong business day after a Hong Kong holiday.

2.7 Will Settlement Instruction (SI) arrangement be handled differently on H-1 day?

All SI arrangements (including Free of Payment (“FOP”) basis, or Delivery versus Payment (“DVP”) basis and Realtime Delivery versus Payment (“RDP”) basis) and timing of relevant batch runs on H-1 day will remain the same as any other normal NB settlement day.

2.8 Will a different Deal Code be used in the Electronic CHATS Payment Instruction Report (CSEPI03) for cash prepayment on H-1 day?

On H-1 day, existing Deal Code “N” will be used for both the net buy CCCPs’ payable obligations and Cash Prepayment Instruction with payment method “CHATS” (including CPIs from Cash Prepayment Standing Instruction and Cash Prepayment Instruction) in the Electronic CHATS Payment Instruction Report (CSEPI03) (“CPI Report”).

For the CPI Report issued at 4:45 p.m., both CPIs for net buy CCCP’s payable obligation and CPIs from CCCPs with Cash Prepayment Standing Instruction will be included in this report and the deadline for the completion of such payments will be 6:00 p.m. If a CCCP has Cash Prepayment Standing Instruction set-up already and has a net buy payable obligation on H-1 day, only one CPI will be included in the CPI Report, with payment amount being the greater of the two values.

For the CPI Report issued at 5:30 p.m., CPIs from CCCPs with Cash Prepayment Instruction with payment method “CHATS” will be included in this report and the corresponding payment deadline is 7:00 p.m.

Currently, for the 6:00 p.m. cut-off, only HKD and USD instructions with Deal Code “M” are included. After the enhancement, RMB instruction with Deal Code “N” will be included in the 6:00 p.m. cut-off on H-1 as well (Note: Terminal User Guide for Designated Banks will be updated).

Part 3: RISK MANAGEMENT

3.1 Is there any impact to the calculation and payment deadline for Mainland Settlement Deposit and Mainland Security Deposit (“MSTD”) and Mainland Security Deposit (“MSCD”) after the enhancement?

The calculation methodology and payment deadline for MSTD and MSCD for H-1 day will follow existing practice on a normal day. For details, please refer to HKEX website⁴.

⁴ https://www.hkex.com.hk/Services/Clearing/Securities/Risk-Management/Risk-Management-of-CNS-Trades-in-China-Connect-Market?sc_lang=en

3.2 How would the settlement failure be handled under the arrangements for holiday trading enhancement?

Failed settlement handling will follow the existing practice:

	Normal Days	Additional Trading Days
Securities settlement failure	Compulsory buy-in will be arranged on T+1 day	Same as current practice on a normal trading day
Money settlement failure	HKSCC may take default actions against the relevant CCCPs if it is considered appropriate	Same as current practice on a normal trading day

Part 4: SEVERE WEATHER CONDITIONS

4.1 What are the severe weather arrangements for trading and settlement on H-1 day?

The current Severe Weather Arrangement applies to H-1 day as well. For further information, please refer to Part 4 of the FAQ for Stock Connect on the HKEX website⁵.

4.2 What is the severe weather arrangement for corporate actions handling on H-1 day?

Corporate actions handling of SSE/SZSE securities on additional trading days under severe weather condition should follow existing arrangements.

Part 5: IT

5.1 Any system changes to Orion Trading Platform – China Stock Connect (OTP-CSC) will be required for the enhancement implementation?

There is no system change to the Orion Trading Platform – China Stock Connect (OTP-CSC) for the enhancement. There is also no change to the interface between OTP-CSC and CCEPs. Market Participants are reminded to assess the impact to their operations and systems.
