9. Do you agree not to require valuation of a property interest with carrying amount below 1% of total assets?

変 Yes

₩ No

If your answer is "No", please give reasons and alternative views.

It was not clear in the Consultation Paper why "1%" threshold should be adopted for not requiring property valuation. The proposal for adopting "1%" threshold is so arbitrary that the proposal is not convincing at all.

In addition, I do not consider it necessary to make the definition of "total assets" for an applicant different from the one for an issuer. I believe the definition should be the same regardless whether it is used for a listing applicant or a listed issuer. Please see Attachment 2.

Based on the classification of notifiable transactions under Chapter 14 of the Listing Rules, I suggest that "5%" threshold may be used for not requiring property valuation. This would make the disclosure requirements in Chapter 5 of the Listing Rules and Chapter 14 of the Listing Rules, to some extent, consistent.

10. Do you agree that the total carrying amount of property interests that do not require valuation cannot exceed 10% of the applicant's total assets?

Yes

M No

If your answer is "No", please give reasons and alternative views.

What is the rationale for adopting the "10%" threshold? It is not easy to comment on this "10%" threshold without such supporting information and/or statistics which would convince the public that the "10%" threshold should be adopted.

11.	Do you agree that a listing document should include full text of valuation reports for all property interests that are required to be valued under property activities except where summary disclosure is allowed?
	☑ Yes

12.	Do you agree to allow summary disclosure if the market value of a property interest as appraised by the valuer is less than 5% of the property interests that are required to be valued under property activities?
	Yes Yes
	☑ No
	If your answer is "No", please give reasons and alternative views.
	It is not clear as to the basis on which the proposed "5%" threshold is determined. I think the Stock Exchange needs to provide data or statistics to allow the public to appreciate the extent to which the proposed "5%" threshold would reduce the bulk of listing documents. Without this quantitative information, I was not able to comment on this question.
13.	Do you agree with the form for summary disclosure of property interests in Appendix II of the Consultation Paper?
