**Section III: Other issues**

7. Are there any other issues regarding the Proposal to change trading hours that HKEx should consider?

Although trading hours are extended, it should also require increasing the number of volume and the amount of turnover of stock trading in listed companies per day. More and more minor investors in the market will look for valuable companies to trade their stocks and also require raising corporate governance of listed companies.

Otherwise, a small trading broker firm cannot get the advantage of extending trading hours, because volume and turnover are no change.
