Big retail/Institutional investors normally use to discuss with their brokers/fund managers about the stock mark of lunch time of HK Ex will undoubtedly affect many industries               | e lunch time<br>cets. |    | Extension of trading hours does not mean there will be proportional increase in trading volume, as reflected in many Stock Exchanges in the past. But certainly, this will increase the workload on staff, as well as enhancing the cost of running a brokerage house. |  |  |
|    |  |  |  |

4. (For respondents representing your company's view)

If Changes (A) and (B) in the Proposal are adopted, does your company need to prepare for implementation? How much lead time would be required?

## Section II: Auction Sessions

No change in the auction sessions except that they will move along with the CTS as follows:

- Morning auction sessions for securities market and index futures/options markets will become 09:00 to 09:30 and 08:45 to 09:15 respectively; and
- Afternoon auction session for index futures/options markets will become 12:30 to 13:00 (Option 1) or 13:00 to 13:30 (Option 2).
- 5. If Change (A) is adopted, should the morning auction sessions remain 0.5 hours? If not, what is your/your company's suggestion? Please state reason(s).

I prefer the EXISTING tme.

6. If Change (B) is adopted, should the afternoon auction session remain 0.5 hours for Option 1 and Option 2? If not, what is your/your company's suggestion? Please state reason(s).

No change is recommended.

## Section III: Other issues

- 7. Are there any other issues regarding the Proposal to change trading hours that HKEx should consider?
  - --Hong Kong is at an advantageous geographic location next to China; Hong Kong Stock Exchange should have more renminbi products listed on HK Ex.
  - -- One country, two system' definitely gives more confidence to foreign investors. Hong Kong should maintain its independent existing practice and there is NO NEED to follow those in Mainland China.
