Do yo MHI d marke	oly to ALL stocks after VCM implementation.  u agree that the proposed VCM model should only be applied to the HSI, HI MCH (spot month and the next calendar month) index futures in the derivative?  Yes  No
Do yo MHI d marke	bly to ALL stocks after VCM implementation.  u agree that the proposed VCM model should only be applied to the HSI, HE MCH (spot month and the next calendar month) index futures in the derivative to the Yes  No

4.	Do you agree that the market should have a 15-minute uninterrupted trading period before the end of the last continuous trading?					
	Yes					
	No No					
	Please give reasons for your view.					
	Free and Open Trasparent Markets.					
5.	Do you agree with the proposed reference price for the <u>securities</u> market, namely the price of last trade 5 minutes ago? If not, what would you prefer?	е				
	Yes					
	No, I would prefer:					
	Please give reasons for your view.					
	·					
6.	Do you agree with our proposed reference price for the <u>derivatives</u> market, namely the price of last trade 5 minutes ago? If not, what would you prefer?	е				
	▼ Yes					
	No, I would prefer:					
	Please give reasons for your view.					
7.	Do you agree with the proposed triggering level for the <u>securities</u> market, namely <u>10%</u> from the reference price across the proposed instruments covered by the VCM? If not what level would you prefer?					
	₩ Yes					

彩	No, level that I would prefer:	
Pleas	se give reasons for your view.	
from		evel for the <u>derivatives</u> market, namely <u>5%</u> d instruments covered by the VCM? If not,
×	Yes	
<b>3</b>	No, level that I would prefer:	
Pleas	e give reasons for your view.	
<u> </u>		
	ou agree that a maximum of two VCM d be imposed to minimise market intern	I triggers per trading session per instrument ruption?
	Yes	•
	No, I would prefer: 1 VCM trigge	er per trading session
Pleas	e give reasons for your view.	
unl	which point it should be free to trader a	trades going through the market, it's other in the same stock unless it's warratned and a market to be made on the stock for it to
	ou support trading within a price limit or another approach?	luring the cooling-off period? If not, do you
2	Yes	
×	No, another approach that I prefer:	Would rather have the circuit breaker kick and stock be halted unitl further
Pleas	e give reasons for your view.	review provides a reason.

11.	After the cooling-off period, do you support resuming the same dynamic price limit monitoring mechanism (i.e. $\pm 10\%$ ( $\pm 5\%$ ) from the last trade 5 minutes ago in the securities (derivatives) market)? If not, do you prefer another approach?
	Yes
	No, I would prefer: using the previous limit up/limit down price as the reference price.
	Please give reasons for your view.
12.	Do you have any other suggestions on enhancing the resumption procedures?
	Not at the moment.
13.	Do you agree that the duration of the cooling-off period should be 5 minutes for both the securities and derivatives markets? If not, what would you prefer and why?
	Yes
	No, I would prefer:
	Please give reasons for your view.
	5 minutes is plenty considering the speed of the markets now.
14.	Do you agree with the additional market data dissemination for the proposed VCM model? If not, what would you propose and why?
	₩ Yes
	No, I would propose:

	CM is triggered for a given instrument, should trading of related instruments (es contract of different contract months) on the same underlying continue al?
	Yes
	No
Pleas	e give reasons for your view.
	/CM is triggered for a given instrument, should trading of derivatives (e.g. sing options or warrants) of that instrument continue as normal?
stock	
stock	options or warrants) of that instrument continue as normal?  Yes
stock	options or warrants) of that instrument continue as normal?  Yes  No
