Dear Sirs,

Re: Consultation Paper on Review of the ESG Reporting Guide

SHINEWING Risk Services Limited ("SHINEWING") has thoroughly studied the consultation paper on Review of the Environmental, Social and Governance ("ESG") and our detailed comments on it are set out in the questionnaire attached to this letter. We support most of the proposals but would like to highlight the following key concern on the consultation paper.

Effective date

Paragraph 9 of the consultation paper stated that Hong Kong Exchanges and Clearing Limited ("HKEx") intends to implement the new requirements for financial years commencing on or after 1 January 2016, whereupon issuers would need to start gathering the necessary information for the purpose of publishing their ESG reports under the new Guide in 2017. However, there is no question asked for comments in the consultation on the effective date.

Although both HKEx and SHINEWING had put heavily effort on educating issuers on the subject matter, we notice that many small and medium size issuers are not yet ready to make such disclosure. Some of the issuers replied us that even they have some disclosures on corporate social responsibility; the content is not related to environmental aspect, which is now suggested to be upgraded as "comply or explain" level.

Therefore, please reconsider the effective date of the implementation of new requirements. From our observation, one year preparation period for the issuers to run the data collection process will be sufficient.

We believe that upgrading the obligation level of ESG disclosure will bring Hong Kong issuers closer to international practices. Consistent disclosure of ESG information by issuers may be useful for investors to gain better understanding of issuers' overall health and value creation potential.

Should you have any questions on the above comments, please do not hesitate to contact Mr. Roy Lo, Managing Partner, at

Yours faithfully,

SHINEWING Risk Services Limited

1.	Do you agree with our proposal to amend Rule 13.91 to require issuers to disclose in their annual reports or ESG reports whether they have complied with the "comply or explain" provisions in the ESG Guide and if they have not, they must give considered reasons in the ESG reports?
	☑ Yes

	practice) falls behind the international practice. We support HKEx to upgrade the disclosure requirement to "comply or explain" level. However, we would like HKEx to re-consider the effective date of such change. We are in contact with some issuers, mainly small and medium size issuers, and understand that they are not well prepared for the disclosure (especially on the environmental aspect). It will be a burden for them if the obligation level will be raised in next year (in the period which the requirement on several code provisions in CG code will also be effective). Therefore, please re-consider the effective date of such change to ensure that the issuers are not just doing "box-ticking".
2.	Do you agree with our proposal to amend Rule 13.91 to require the issuer to report on ESG annually and regarding the same period covered in its annual report?
2.	ESG annually and regarding the same period covered in its annual report? Yes
2.	ESG annually and regarding the same period covered in its annual report?

We agree with the proposal. Stakeholders are expecting more non-financial information to gain better understanding of issuers' overall health and value creation potential. Such information allows them to make more informed business and investment decisions. However, without the support of financial information (or not in a same period), the value of the non-financial information may not be fully utilized. Therefore, we agree that the ESG report should cover the same period as its annual report.

Do you agree with our proposal to include a Note under Rule 13.91 to clarify that:					
(i)	an ESG report may be presented as information in its annual report, in a separate report, or on the issuer's website; and				
(ii)	the issuer should publish the ESG report as close as possible to, and in any event no later than three months after, the publication of the issuer's annual report?
