

Dear Sir/ Madam

Responding to Consultation Question 15

Direct Link Worldwide Company Limited agree with the proposal of HKEx to incorporate gender disclosure at all levels of a company in Subject Area B under the sub-heading "Employment and Labour Standards".

Working in an industry (Logistics) that is very much male dominated our rationale is that we believe that gender diversity is good for business performance and critical to Hong Kong's competitive advantage. Hong Kong employers must access the widest possible talent pool. In addition, we believe that the current percentage of women on boards of Hong Kong's listed companies is too low and more needs to be done to increase the pace of change, especially since this is something that is given much attention in other parts of the world.

Yours sincerely,
