HKEx's Proposal:

- HKEx is proposing an after-hours trading session for the futures market (T+1 Session). The opening time of the T+1 Session will be 30 minutes after the close of the regular trading session (T Session), i.e. 4:45 p.m. for Hang Seng Index futures and H-shares Index futures and 5:30 p.m. for gold futures. The T+1 Session will end at 11:15 p.m.
- All trades transacted in the T+1 Session will be registered as T+1 Trades and will be cleared and settled on the following trading day.
- At the initial stage, Hang Seng Index futures, H-shares Index futures and gold futures
 will be traded in the T+1 Session. Other derivatives products might be considered at a
 later stage.
- HKEx will manage the risk of after hours trading through appropriate regular, ad-hoc and/or real time monitoring during the T+1 Session and via a new mandatory variation adjustment and margin call following the market open of each T Session and payable by 11:00 a.m.

a) the proposed trading arrangements? Mini HSI, HHI and respective options should also be opened for tradir in T+1 session. Otherwise, this will place unnecessary risk and burder on client(s) who hold(s) open position at the end of Day Trade Session b) the proposed clearing arrangements? No comment. c) the proposed risk management arrangements? Please give additional guidance note on how CBPL (Capital Based Position Limits) are calculated. d) the use of the Calculated Opening Price as the basis for the proposed mandatory variation adjustment and margin call? No comment. Are there any other issues regarding the Proposal that HKEx should consider. SEHK may need to consider the timing that HSI & HHI constituent issuers upload announcements on SEHK, especially if after SEHK trading hours, but during T+1 HKFE session.
