Please indicate your preference by checking the appropriate boxes.

Where there is insufficient space provided for your comments, please attach additional pages.

1. Do you support the revision of the current model with the introduction of a three-tier system with a review mechanism for HKEX's stock option position limit to address the issues with the existing regime?

☒ Yes

☐ No

Please give reasons for your view.

Such revision will allow the position limit to catch up with the increase in our market capitalization as well as the fact that market participants are now more equipped in managing their stock option positions.

2. Do you agree the implementation of the proposed model (three-tier system with review mechanism) would be an important step in enhancing Hong Kong's stock options market and increasing its competitiveness?

☒ Yes

☐ No

Please give reasons for your view.

The proposed three-tier system with review mechanism both suits the current market environment and allows adjustment for material changes from market development or corporate actions.

3. Do you have any comments on the proposed model? Please give reasons for your view.
