Subject: proposed new Note 3 to Listing Rules 3.28 for a general waiver

WARNING: External email, please exercise caution.

I am a member of the Hong Kong Institute of Chartered Secretaries and I strongly disagree with the proposed new Note 3.

Without being associated with any professional body, the quality of a person is too difficult to be up to a required standard and too difficult to be measured objectively.

Why is it so difficult to become an associate member of Hong Kong Institute of Chartered Secretaries? It only takes two years to study a master degree at some HK universities and you will become an associate member.
