Yes

Please give reasons for your views and any alternative suggestions.

Question 1.5

Do you agree that, in the case of an issuer seeking to switch from relying on the Initial Prescribed Threshold to the Alternative Threshold, if its listed shares have been suspended from trading for more than five consecutive business days during the 125-trading-day period for determination of the market value of shares, the Exchange may require the issuer to extend the 125-day period to demonstrate that it can meet the Alternative Threshold over a reasonable period after resumption of trading?

Yes

Please give reasons for your views and any alternative suggestions.

Question 3.3(a)

Yes

Please give reasons for your views and any alternative suggestions.

Yes

Please give reasons for your views and any alternative suggestions.

Question 4.4

Do you agree that, for so long as an issuer does not comply with the applicable Ongoing Public Float Threshold, the issuer itself, and each of its directors, must not (and each director must use his best endeavours to ensure that his close associates do not) take any action that may further lower the issuer's public float percentage, unless the circumstances are exceptional (as set out in paragraph 360(d) of the Conclusions and Further Consultation Paper)?

Yes

Question 4.5

Do you agree that shares of issuers with a public float below the applicable Ongoing Public Float Threshold can be traded without a special stock marker, as long as such public float shortfall does not constitute a Significant Public Float Shortfall (as set out in paragraph 363 of the Conclusions and Further Consultation Paper)?

Yes

Please give reasons for your views and any alternative suggestions.

Question 4.6

Do you agree that, instead of suspension, issuers with a Significant Public Float Shortfall should be identified with a special stock marker and subject to heightened disclosure requirements and a delisting mechanism (as set out in paragraphs 361 to 369 of the Conclusions and Further Consultation Paper), such that there can be continued trading in the issuer's shares?

Yes

Yes

Please give reasons for your views and any alternative suggestions.

Question 6.2

If your answer to Question 6.1 is “yes”, do you agree that such a timing-relief waiver from the ongoing public float requirement should not be granted to the issuer if the public float shortfall upon completion of the general offer is considered as a Significant Public Float Shortfall (as set out in paragraph 391 of the Conclusions and Further Consultation Paper)?

No

Please give reasons for your views and any alternative suggestions.

Please provide your overall comments (if any) regarding the Conclusions and Further Consultation Paper which have not been covered in the questions above.
