Question 1

Do you agree with the proposal to set the limit on general mandate for issuance of new shares at 20% of the total issued shares of a PRC issuer, instead of 20% of each of domestic shares and H shares?

Yes

Please provide reasons for your views.

We are in support of the general direction the Exchange is heading with its proposals to achieve its objective of providing a consistent framework for the protection for investors of all issuers regardless of their places of incorporation. Since the holders of domestic shares and H shares are no longer deemed as different classes of shareholders under the New PRC Regulations, we concur with the Exchange to remove the class meeting requirement now applicable to holders of domestic and H shares as it would be no longer necessary.

Question 2

Do you have a concern that given fund raisings through the issuance of A shares may result in an increase in the number of A shares over H shares, the market size and liquidity of the H share market may reduce relative to the A share market? Do you think there should be other provisions to promote the long term development of the H share market, if so please provide reasons for your views and any suggestions.
