Question 1

Do you agree with the proposed definitions of “Specialist Technology Company”, “Specialist Technology Products” and “Specialist Technology”?

Yes

Please give reasons for your views. If your answer is “No”, please provide alternative suggestions.

Yes, in general, with a proposed addition to the "acceptable sector" in the "STI" definition. With the understanding that the proposed definitions of “Specialist Technology Company”, “Specialist Technology Products” and “Specialist Technology” cannot and will not be exhaustive (given ongoing emergence of innovative and/or novel company/products/technology), our firm, BVCI, at this point contemplating a secondary listing in HKEX and SSE, a blockchain-based firm offering a 3-part ecosystem of blockchain distributed ledger, e-wallet mobile phone-based app, and a crypto-stablecoin as a medium of exchange and storage of value, as a payment solution provider, a cryptocurrency marketplace, and an issuer/purveyor of fiat-backed stablecoins of selected major currencies. Yet BVCI is unsure if it should classify itself in the STI in the "cloud based services" (definitely not "artificial intelligence") sector. I would propose a novel sector in the STI for firms engaged in the cryptocurrency and associated blockchain -based products and services).

Question 2

Do you agree with the list of Specialist Technology Industries and the respective acceptable sectors set out in paragraph 4 of the Draft Guidance Letter (Appendix V to the Consultation Paper)?

Yes

Please give reasons for your views. If your answer is “No”, please provide alternative suggestions.

Yes, in general, with a proposed addition for blockchain-based firms offering cryptocurrencies and associated products and services in the "next-generation information technology" acceptable sector. I do not consider BVCI as a SaaS, PaaS, or IaaS as our underlying technology, currently "pre-commercial" and undergoing private placement rounds, does not align with supplied descriptions.

Question 3

Do you agree that the Exchange should take into account the factors set out in paragraph 107 of the Consultation Paper to determine whether a company is “primarily

engaged” in the relevant business as referred to in the definition of “Specialist Technology Company”?

Yes

Please give reasons for your views.

Question 4

Do you agree that the Exchange should retain the discretion to reject an application for listing from an applicant within an acceptable sector if it displays attributes inconsistent with the principles referred to in paragraph 101 of the Consultation Paper?

Yes

Please give reasons for your views.

Question 5

Do you agree that the Specialist Technology Regime should accommodate the listings of both Commercial Companies and Pre-Commercial Companies?

Yes

Please give reasons for your views.

Question 6

Do you agree with the proposed approach to apply more stringent requirements to Pre-Commercial Companies?

Yes

Please give reasons for your views.

Yes, in general, with a comment where a firm attaining commercialization may depend on factors beyond its control. Perhaps certain limited exemptive reliefs on a case-by-case basis by a listing committee would allow flexibility on the requirements due to the novelty of the products and services under commercialisation.

Question 7

Do you agree with the proposal that all investors, including retail investors, should be allowed to subscribe for, and trade in, the securities of Pre-Commercial Companies?

Yes

Please give reasons for your views.

Question 8

Do you agree that a Commercial Company applicant must have a minimum expected market capitalisation of HK\$8 billion?

Yes

Please give reasons for your views.

Yes, in general. A comment whether a tangible market capitalization can be reasonably assessed via DCF or peer comparison (of a limited sample size) would warrant consideration. There may be a lack of expertise in performing a due diligence leading to a range of reasonable estimates.

Question 9

Do you agree that a Pre-Commercial Company applicant must have a minimum expected market capitalisation of HK\$15 billion at listing?

Yes

Please give reasons for your views.

Yes, in general. A comment whether a tangible market capitalization can be reasonably assessed via DCF or peer comparison (of a limited sample size) would warrant consideration. There may be a lack of expertise in performing a due diligence leading to a range of reasonable estimates.

Question 10

Do you agree that a Commercial Company must have revenue of at least HK\$250 million for the most recent audited financial year?

Yes

Please give reasons for your views.

Question 11

Do you agree that only the revenue arising from the applicant's Specialist Technology business segment(s) (excluding any inter-segmental revenue from other business segments of the applicant), and not items of revenue and gains that arise incidentally, or from other businesses, should be recognised for the purpose of the Commercialisation

Revenue Threshold?

Yes

Please give reasons for your views.

Question 12(a)

Do you agree that a Commercial Company must demonstrate year-on-year growth of revenue derived from the sales of Specialist Technology Product(s) throughout the track record period, with allowance for temporary declines in revenue due to economic, market or industry-wide conditions?

Please give reasons for your views.

Please give reasons for your views.

Do you agree that, for a Pre-Commercial Company, its total amount of R&D investment must constitute at least 50% of its total operating expenditure for each of its three financial years prior to listing?

No

Please give reasons for your views.

The proposed 50% threshold, in my humble view, would impose hardship as the firm is building its business, expanding its networks, and developing its products and services due to certainty of cashflows and/or revenues. Perhaps a reduced 35% would be a more reasonable requirement.

Yes

Please give reasons for your views.

Question 32

Do you agree that in the case of a Specialist Technology Company seeking to list by introduction, the Exchange will consider granting waivers, on a case-by-case basis, from the requirement for the minimum allocation of offer shares to Independent Institutional
