Subject: Consultation Paper on Proposalrelaing to Listed Issuers with Disclaimed or Adverse Audit Opinion on Financial Statements

WARNING: External email, please exercise caution.

Dear Sir,

I have no objection to the delisting of listed issuers if obvious evidence of frauds and malpractices is found on their financial statements. However, the listed issuers should be given two or three consecutive financial years to improve their business results and financial situation if the HKE takes action to delist them. Otherwise, it would not only be unfair and unjust to them but also would damage the interests of minority shareholders

YH LAM
