Dear Sirs

**Subject: Consultation Paper on Proposed Enhancements to the Exchange's
Decision-Making and Governance Structure for Listing Regulation
("Consultation Paper")**

We refer to the Consultation Paper issued in June 2016 and respectfully provide our feedback herewith for your consideration.

We are of the view that the reform as mentioned in the Consultation Paper is not a minor change but will substantially reduce the power of the listing committee and give the SFC too much direct control of listing affairs.

In fact, the existing structure of the listing committee, comprising sufficient number of independent professionals with a large variety of background, which provides a

more balanced structure for considering listing applications as compared to new structure as proposed in the Consultation Paper, in which representatives from the SFC dominate the proposed Listing Regulatory Committee. The proposed change is obviously not in the interest of the capital market.

Therefore, we strongly object the new structure proposed in the Consultation Paper. We believe that the newly proposed structure is just similar to arrange the compliance matters in front of all other business factors when making deals and decreases the market flexibility and, in turn, this will not bring any business but will damage the Hong Kong capital market.

Should there be any enquiries, please do not hesitate to contact the undersigned on

Yours faithfully,

Thomas Chan
Chairman and Managing Director
