

Dear Sir/Madam,

The Listing Committee powers are now reduced to presiding over common routine IPO and Post IPO matters. All suitability queries, all listing department governance and appraisal, all policies matters have been taken away from the Listing Committee.

It will lose of good calibre candidates applying to join the Listing Committee. The Listing Committee currently comprises very senior and experienced professionals who are independent and from a diverse background and represent a broad spectrum of constituents including listed company representatives and brokers.

Therefore I oppose the establishment of two new additional committees.

Regards,
