

**Market highlights of the first trading day under Shanghai-Hong Kong Stock Connect (17 November 2014)**

	Northbound Trading	Southbound Trading
<b>Quota balance</b>	0*	RMB 8,732 mil (16.8 % used)
<b>Turnover</b>	RMB 12,082 mil	HKD 2,344 mil**
<b>No. of orders</b>	79,194	26,270
<b>No. of trades</b>	147,484	41,388

\* The quota is calculated on a real time basis based on Buy Orders plus Sell Trades and Adjustments. There were no Sell Trades in Northbound Trading on the first day of Stock Connect because the A-share market does not allow “day trading”, which means the use of the Northbound quota can only be one way on the first day of trading.

\*\* 4.5 per cent of Southbound turnover was from Sell Trades.

**Southbound Trading - Top five most actively traded stocks**
