

Mainland China is one of the world’s largest silver producers and consumers. The new USD and CNH Silver Futures will enhance Hong Kong’s status among the major global physical silver markets and facilitate RMB offshore trading and circulation, while further leveraging HKEX’s physical delivery capability. Following the earlier launch of Gold Futures in the precious product suite, the Silver Futures will further address the need for trading, hedging, and risk management tools among institutional investors.

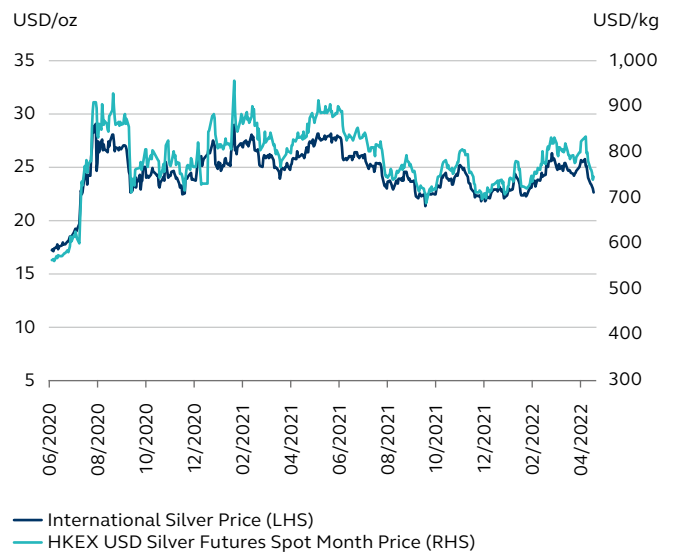

Highlights

<p>Priced in USD & CNH</p>	<p>Physically Delivered in HK</p>	<p>Capital Efficiency Margin Offsets</p>	<p>Asian Underlying Fineness: 9999 30 Kilo Bar</p>	<p>Monthly Contract 12 Consecutive Contract Months</p>
---------------------------------------	--	---	---	---

Disclaimer

The information contained in this document is for general informational purposes only and does not constitute an offer, solicitation, invitation or recommendation to buy or sell any futures and options contracts or other products or to provide any investment advice or service of any kind. This document is not directed at, and is not intended for distribution to or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation or which would subject Hong Kong Exchanges and Clearing Limited, Hong Kong Futures Exchange Limited ("HKFE") (together, the "Entities", each an "Entity"), or any of their affiliates, or any of the companies that they operate, to any registration requirement within such jurisdiction or country.

No section or clause in this document may be regarded as creating any obligation on the part of any of the Entities. Rights and obligations with regard to the trading, clearing and settlement of any futures and options contracts effected on HKFE shall depend solely on the applicable rules of HKFE and the relevant clearing house, as well as the applicable laws, rules and regulations of Hong Kong.

Although the information contained in this document is obtained or compiled from sources believed to be reliable, neither of the Entities guarantees the accuracy, validity, timeliness or completeness of the information or data for any particular purpose, and the Entities and the companies that they operate shall not accept any responsibility for, or be liable for, errors, omissions or other inaccuracies in the information or for the consequences thereof. The information set out in this document is provided on an "as is" and "as available" basis and may be amended or changed. It is not a substitute for professional advice which takes account of your specific circumstances and nothing in this document constitutes legal advice. Neither of the Entities shall be responsible or liable for any loss or damage, directly or indirectly, arising from the use of or reliance upon any information provided in this document.

Risk of Trading Futures

Futures involve a high degree of risk. Losses from futures trading can exceed initial margin funds and investors may be required to pay additional margin funds on short notice. Failure to do so may result in the position being liquidated and the investor being liable for any resulting deficit. Investors must therefore understand the risks of trading in futures and should assess whether they are right for them.
