

The **MSCI China Free Index** includes large and mid-cap Chinese companies listed globally. Index constituents include A-shares, B-shares, H-shares, Red chips, P chips and foreign listed shares.

The **MSCI China Free Net Total Return Index** measures the performance of global Chinese companies in a net total return form (i.e. reinvestment of net dividend payout into the index portfolio) denominated in USD.

## Features

The introduction of the MSCI China Free (USD) Index Futures and the MSCI China Free Net Total Return (USD) Index Futures provides a tool for investors to trade and manage their exposure in China's equity market. The futures contract is USD-denominated and can be traded both in Asian time zone (day trading session) and Europe/US time zone (after-hours trading session).
