Market strategies

Calendar Spread Trade

Calendar Spread

Calendar spreads are available to all individual contract month futures series for efficient calendar rolling. Upon placing of calendar spread orders, bait orders, system-generated orders that adjust prices according to the prevailing market price, would be placed on outright series legs to increase the chance of execution.

Case Study

Client is holding a short position of 1,000 lots HKEX USD/CNH Futures Jun 24 contracts. When the expiration day of the Jun 24 contract approaches, the client needs to rollover the position to the Sep 24 contract.

It is for illustration purpose only

Block trade

A block trade comprises large buy and sell orders privately negotiated apart from the public auction market.

Benefits

- Gain large size of FX exposure
- Price and execution certainty
- OTC flexibility with central clearing benefits
- Added liquidity
