通告 CIRCULAR

Subject: **HKEX Automates Large Open Position Report (LOPR) Submission**

Enquiry: lophkfe@hkex.com.hk

HKEX is pleased to announce the imminent launch of a fully-automated solution for LOPR submission to further enhance our client experience.

Leveraging on the Secure File Transfer Protocol (SFTP) facility, Clearing Participants (Participants) will be able to fully automate their current LOPR submission process. Participants may utilise their existing DCASS SFTP user login onto the new SFTP facility for LOPR submission. Details are available in Section 8 of the technical guide on [HKEX website](#).

The SFTP facility for LOPR submission is expected to be launched in September 2020. The current web-based Electronic Communication Platform (ECP) will continue to be available so that Participants could, at their own discretion and readiness, switch from ECP to the new SFTP facility.

Participants, who are interested in the SFTP facility at launch, are required to register online through the [link](#) on or before **17 July 2020**. HKEX will invite registered users separately to participate in the Market Rehearsal.
