¹ All calls to the HKATS hotline would be recorded. Please refer to the following link for HKEX privacy policy statement: http://www.hkex.com.hk/eng/global/privacy_policy.htm

Trading Arrangements

The trading arrangements for the existing PICC P&C stock futures under trading symbol PIC will be as follows:

1. Adjustment and Transfer of Outstanding Positions

Open positions of PICC P&C stock futures series under trading symbol PIC which exist after the market close on the business day immediately before the ex-date will be adjusted and transferred to stock futures series under trading symbol PIA.

2. Introduction of New Stock Futures Series for Trading

On the ex-date, new PICC P&C stock futures series based on the standard contract multiplier will be introduced for trading under the standard trading symbol PIC.

Details of the adjustment procedures for PICC P&C stock futures series under trading symbol PIC are as follows:

Adjustment Term	Formula	Remarks
Adjustment Ratio (AR)	$10 \text{ Shares} / (10 \text{ Shares} + 5 \text{ Capitalisation Shares}) = 0.6667$	Rounded to the nearest 4 decimal places
Adjusted Contracted Price (ACP)	Contracted price of outstanding stock futures series x AR	Rounded to the nearest 2 decimal places
Adjusted Contract Multiplier (ACM)	Contracted price of outstanding stock futures series x (2,000 shares / ACP)	Rounded to the nearest 4 decimal places

Contract	Trading Symbol	Contract Multiplier (Shares)	Availability For Trading	Addition of New Stock Futures Series on and after the ex-date
Adjusted	PIA	ACM	From ex-date to 28 December 2018	No
Standard	PIC	2,000	From ex-date onwards	Yes

The adjusted and standard stock futures series are distinct contracts and are represented by different trading symbols in HKATS/DCASS. Particulars of all existing and adjusted stock futures series will be shown in DCASS report TP011 after the DCASS batch processing on the business day immediately before the ex-date.

Capital adjustments, once being made, are conclusive and binding on all relevant stock futures contracts. The capital adjustments made will not be reversed even if the proposed corporate action is subsequently disapproved by relevant authorities, including but not limited to regulatory authorities and the court.

Participants should pay particular attention that the settlement amount of adjusted and standard stock futures series on the expiry day will be calculated using their respective contract multipliers. There will not be any changes to the number of open positions and other contract terms after the transfer of positions.

Clearing and Settlement Arrangements

Position offset between the standard PIC and the adjusted PIA stock futures series is not allowed.

Inform Your Staff and Clients

Participants should notify all clients holding positions in the captioned stock futures contracts the details of trading and clearing operational arrangements and the associated risk. Please ensure that your back office systems are ready for a smooth operation in handling this capital adjustment. In addition, all your staff should be fully aware of the trading and clearing arrangements, and should exercise caution when dealing with the standard and adjusted stock futures contracts and when advising your clients.
