### Trading Arrangements

The trading arrangements for the existing Li & Fung stock futures under trading symbol LIF will be as follows:

#### 1. Adjustment and Transfer of Outstanding Positions

Open positions of Li & Fung stock futures series under trading symbol LIF which exist after the market close on the business day immediately before the ex-date will be adjusted and transferred to stock futures series under trading symbol LIA.

#### 2. Introduction of New Stock Futures Series for Trading

On the ex-date, new Li & Fung stock futures series based on the standard contract multiplier will be introduced for trading under the standard trading symbol LIF.

Details of the adjustment procedures for Li & Fung stock futures series under trading symbol LIF are as follows:

Adjustment Term	Formula	Remarks
<b>Adjustment Ratio (AR)</b>	$(\text{underlying stock closing price} - \text{Special Dividend} - \text{final dividend}) / (\text{underlying stock closing price} - \text{final dividend})$	Rounded to the nearest 4 decimal places
<b>Adjusted Contracted Price (ACP)</b>	Contracted price of outstanding stock futures series x AR	Rounded to the nearest 2 decimal places
<b>Adjusted Contract Multiplier (ACM)</b>	Contracted price of outstanding stock futures series x (2,000 shares / ACP)	Rounded to the nearest 4 decimal places

Contract	Trading Symbol	Contract Multiplier (Shares)	Availability For Trading	Addition of New Stock Futures Series on and after the ex-date
Adjusted	LIA	ACM	From ex-date to 28 December 2018	No
Standard	LIF	2,000	From ex-date onwards	Yes

The adjusted and standard stock futures series are distinct contracts and are represented by different trading symbols in HKATS/DCASS. Particulars of all existing and adjusted stock futures series will be shown in DCASS report TP011 after the DCASS batch processing on the business day immediately before the ex-date.

Capital adjustments, once being made, are conclusive and binding on all relevant stock futures contracts. The capital adjustments made will not be reversed even if the proposed corporate action is subsequently disapproved by relevant authorities, including but not limited to regulatory authorities and the court.

Participants should pay particular attention that the settlement amount of adjusted and standard stock futures series on the expiry day will be calculated using their respective contract multipliers. There will not be any changes to the number of open positions and other contract terms after the transfer of positions.

#### *Clearing and Settlement Arrangements*

Position offset between the standard LIF and the adjusted LIA stock futures series is not allowed.

#### *Inform Your Staff and Clients*

Participants should notify all clients holding positions in the captioned stock futures contracts the details of trading and clearing operational arrangements and the associated risk. Please ensure that your back office systems are ready for a smooth operation in handling this capital adjustment. In addition, all your staff should be fully aware of the trading and clearing arrangements, and should exercise caution when dealing with the standard and adjusted stock futures contracts and when advising your clients.
