通告 CIRCULAR

Subject: Client Connect – Mobile Authenticator Re-registration for Existing Accounts

Enquiry: E-mail : HKEXPortal@hkex.com.hk

To enhance the information security of Client Connect, users of FINI, Synapse and other web services of Client Connect using the ForgeRock Mobile Authenticator Application (the “App”) installed in mobile devices for retrieving One Time Password (“OTP”) are required to re-register their App on or after 15 December 2024 for continuous use of their existing Client Connect account.

No impact and no action required for users who are using email to retrieve OTP.

To ensure a smooth transition, please refer to the attachment for a step-by-step guidance for the App re-registration.

For any enquiries, please contact Client Portal Support Team via email.

Alan Chuen
Senior Vice President
Post Trade
Operations Division

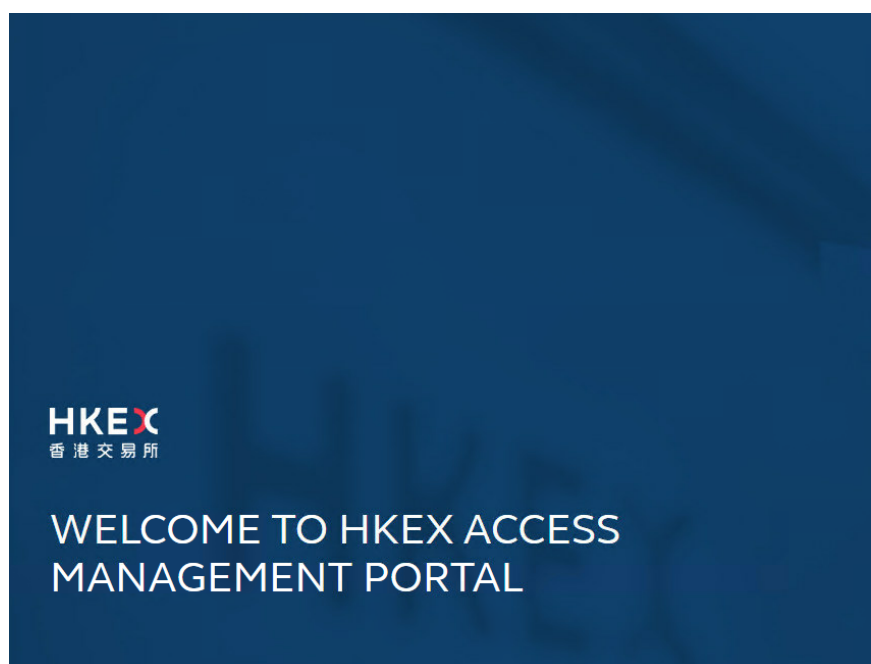

This circular has been issued in the English language with a separate Chinese language translation. If there is any conflict in the circulars between the meaning of Chinese words or terms in the Chinese language version and English words in the English language version, the meaning of the English words shall prevail

Attachment – Re-register Mobile Authenticator for Client Connect Account

To enhance the information security of Client Connect, users who utilize mobile device for generating OTP are required to re-register mobile device authenticator for Client Connect account. There is no impact to existing users using e-mail for retrieving OTP.

To facilitate a smooth transition, below are the actions required for re-registering mobile device authenticator for Client Connect Account. Please note that this can only be done on or after 15 December 2024.

1. Login Client Connect by existing user ID and password

User Login

LOG IN
