Any transactions in respect of the Extended Trading Securities not recorded in the System before the close of trading for the Extended Trading Securities as aforesaid shall be reported to the Exchange within the order input period, the no-cancellation period and the random matching period of the Pre-opening Session or the first 15 minutes of the commencement of the Continuous Trading Session on the next trading day as transactions concluded on that trading day on which the reporting has been made provided that if there is no Continuous Trading Session on the next trading day for whatever reason, any such transactions not reported to the Exchange as aforesaid shall be reported to the Exchange not later than the

This Rule shall apply to all transactions in respect of the Extended Trading Securities other than direct business transactions and transactions concluded by automatic order matching. A selling Exchange Participant which fails to comply with this Rule shall be liable to disciplinary action by the Board.

- 501F. (1) It is the duty of every Exchange Participant conducting direct business transactions in respect of the Extended Trading Securities within the Pre-opening Session, the trading hours stipulated in Rule 501(1), the Extended Morning Session and the Closing Auction Session to input details of such transactions into the System within the following time limits (or other time limits as the Exchange may from time to time determine):
- (i) in respect of direct business transactions which are ATS transactions, on a trade-by-trade basis immediately and in any case, within 1 minute after the conclusion of the transactions; and

session on which the reporting has been made.

Pre-opening Session

- 501G. (1) Unless otherwise determined by the Exchange, the Pre-opening Session shall comprise four periods in the following sequence:
- (i) the order input period which shall commence at 9:00 a.m. and end at 9:15 a.m.;
 - (ii) the no-cancellation period which shall commence at 9:15 a.m. and end at 9:20 a.m.;
 - (iii) the random matching period which shall commence at 9:20 a.m. and end at any time no later than 9:22 a.m.; and
 - (iv) the blocking period which shall commence at the end of the random matching period and end at 9:30 a.m..
- (1A) The Exchange may prescribe from time to time in its absolute discretion a list of POS securities as eligible for trading in the Pre-opening Session. For the avoidance of doubt, the Exchange may from time to time include any securities in or exclude any securities from the list of POS securities.
- (1B) For the purpose of Rule 501(G)(3), unless otherwise determined by the Exchange,
- (a) the upper price limit means a price which is 15% (or such other percentage as the Exchange may from time to time determine) higher than the POS reference price, rounded down to the nearest spread; and
 - (b) the lower price limit means a price which is 15% (or such other percentage as the Exchange may from time to time determine) lower than the POS reference price, rounded up to the nearest spread.
- (2) During the order input period, at-auction orders and at-auction limit orders each with a specified price that does not deviate more than 15% from the POS reference price may be input into the System provided that each short selling order input into the System during the Pre-opening Session shall be an at-auction limit order and in accordance with Rule 563D(1), 563D(5), 563D(6) or 563D(8). All orders input into the System during the order input period may be amended or cancelled. An auction order that is amended in connection with a reduction in size shall not affect the time priority of the original auction order. An auction order that is amended in connection with specified price or an increase in size will result in the loss of time priority of the original auction order.

- (3) During the no-cancellation period and the random matching period, only at-auction orders and at-auction limit orders each with a specified price:-
- (a) that does not deviate more than 15% from the POS reference price;
 - (b) (in respect of buy orders) within the range of the lower price limit and the higher of the highest bid price and the lowest ask price of the orders recorded in the System at the end of the order input period (if available);

- may be input into the System but no order shall be amended or cancelled.
- (3A) The Exchange has the right to waive the application of Rule 501G(3), including but not limited to on the first day of trading of an issue of securities and upon the resumption of trading of an issue of securities from trading suspension.
- (3B) The random matching period may end at any time, as determined automatically and randomly by the System, no later than 9:22 a.m.. For the avoidance of doubt, the random matching period in relation to all POS securities will end at the same time.
- (4) Commencing at the end of the random matching period, automatic order matching of the auction orders shall be conducted in accordance with Rule 517(1)(a) and no order shall be input into the System, amended or cancelled. All transactions so concluded based on the methodology specified in Rule 517(1)(a) shall be deemed to have been concluded at the end of the random matching period.
- (5) During the blocking period, the System shall be static for transition from the Pre-opening Session to the Continuous Trading Session and no order shall be input into the System, amended or cancelled.
- (6) For the avoidance of doubt, if no POS reference price in respect of a POS security is available, the price limits or restrictions which are made with

reference to POS reference price, as referred to in Rules 501G(2) and 501G(3), shall not apply to the orders for the POS securities, unless the Exchange otherwise determines.

- 501H. (2) If an IEP is calculated in accordance with Rule 501H(1) at the end of the random matching period of the Pre-opening Session, at-auction orders and at-auction limit orders with specified prices at or better than such IEP shall be matched by automatic order matching at such IEP commencing from the end of the random matching period of the Pre-opening Session based on the methodology specified in Rule 517(1)(a).
- (3) If no IEP is calculated at the end of the random matching period of the Pre-opening Session in accordance with Rule 501H(1), there will be no automatic order matching commencing from the end of the random matching period of the Pre-opening Session and the auction orders (if any) shall be dealt with in accordance with Rule 501I as with auction orders which remain wholly or partly unmatched at the end of the random matching period of the Pre-opening Session.
- 501I. At the end of the random matching period of the Pre-opening Session when automatic order matching is completed, all auction orders which remain wholly or partly unmatched shall be cancelled and deleted from the System automatically except for those at-auction limit orders the specified price of each of which does not deviate 9 times or more from the nominal price at that time. Such at-auction limit orders shall be converted to limit orders at the input specified price and carried forward to the Continuous Trading Session of the same trading day for automatic order matching. The order entry time of such converted limit orders shall be the time the at-auction limit orders were originally entered into the System. If there is no Continuous Trading Session on that trading day for whatever reason, such at-auction limit orders shall be cancelled and deleted from the System at the end of that trading day.
