Pursuant to the share subdivision timetable issued by Beijing DeepZero Technology Co., Ltd. ("DeepZero"), the share subdivision of 1 existing H share of RMB1.00 each in DeepZero into 10 subdivided H shares of RMB0.10 each will become effective on 16 October 2026. If they are in doubt, they should consult their professional adviser(s).

As an OTP-C standard practice for share subdivision and for reference only, an Adjusted Previous Closing Price will be displayed in the "PRV CLOSE" field of DeepZero's OTP-C temporary stock page (stock code 2947) on 16 October 2026. Calculation of the Adjusted Previous Closing Price will be based on DeepZero's closing price on 15 October 2026 (i.e. the day immediately before the share subdivision becoming effective) and by using the following standard adjustment formula for share subdivision generally.

Adjustment Formula:

Adjusted Previous Closing Price

= Closing Price on the day immediately before Share Subdivision becoming effective x R

where:

R = Ratio of Share Subdivision, i.e. 1/10

.../2

For illustration purpose, depending on DeepZero's closing price on 15 October 2026, the Exchange shall base on the above standard formula for share subdivision generally to calculate and display the Adjusted Previous Closing Price on DeepZero's OTP-C temporary stock page on 16 October 2026 as follows:-
