A. Upgrade Internet Explorer (IE) 11 to Microsoft Edge Browser

Clearing Participants (CPs) that access CCMS via CCMS Terminals are advised to take note that Microsoft announced the support for Internet Explorer (IE) 11 will end on 15 June 2022¹.

CPs are required to upgrade their CCMS Terminal browser version to Microsoft Edge **on or before 1 June 2022** to avoid any incompatibility issues after IE 11 is de-supported. The detail configuration setup procedure will be updated on Client Connect under “Infrastructure” under “Resource Area” on 18 March 2022. CPs can apply the setup configuration according to the guide.

CCMS Terminals running with any incompatible browsers **will NOT be supported** from 1 June 2022 onwards.

B. Other Changes

- i. CCMS Terminal supports Oracle Java Runtime 8 update 311. Existing version remains unaffected.
- ii. CCMS Terminal adds support of Smartcard Reader Model IDBridge CT30
