

The technical requirements for DCASS Online are as below:

Minimum Requirement	
Processor	Intel Core i3-550 3.2GHz or higher
RAM	8GB
Storage	3GB
Network adapter	100Mbps full-duplex
Monitor	21" with 1280 x 1024 resolution
Operating System	Microsoft Windows 10 (64 bit)
Layered software	Anti-virus software
Supported Browser	Google Chrome browser version 75.0.3770.80 (Note 1)
Network Circuit	- via SDNet connection - Firewall/Services Ports configuration, if necessary

Note 1:

Although there are later Chrome browser versions in the market, the above mentioned Google Chrome browser version is the version which HKEX has performed testing on and supports the functions of DCASS Online. Hence, Participants should install the above mentioned Google Chrome browser version at their PCs for DCASS Online. Any DCASS Online related issue is based on that version for trouble shooting.

Besides, it's a common practice for Google to maintain the backward compatibility for every release update. In the unlikely event that a backward incompatibility issue happens, Participants are required to re-instate to the Chrome version as specified by HKEX.
