By Email

Dear Sirs,

### **Derivatives Trading via HKEx Service Network (HSN)** **Network Gateway (NG) Installation Tips**

For Exchange Participants (EPs) going to connect to the derivatives market via HSN, kindly be reminded of the following:

1. EP is advised to setup and configure the hardware and software of NG properly and follow HKEx's suggestion with special attention on the following items:
  - a. Network Adaptor Setting of the NG is configured as suggested by HKEx;
  - b. Hard disk Setting of the NG is configured properly.

The hardware and software requirements of NG are available at the below URL:

[http://www.hkex.com.hk/eng/market/dv\\_tradinfra/Documents/GeniumNGRequirement.pdf](http://www.hkex.com.hk/eng/market/dv_tradinfra/Documents/GeniumNGRequirement.pdf)

NG setup and configuration varying from HKEx's suggestion may cause performance issue.

2. Subscriber Layer3 Switch connecting HSN should have compatible capability and same setting of Network Adaptor of NG is required at switch port.
3. Reference is made to the [Subscriber Notice \(ref: HDS/13/0701\)](#) dated 2 July 2013. Each NG ONLY ALLOWS the connection from a specified IP address group of CLICK & OAPI. Any connections established outside the specified group of CLICK & OAPI will be rejected by the NG.

Should you have any questions, please feel free to contact Nicole Lam at (852) 2211 6637 or Victor Lam at (852) 2211 6292
