## REGULATIONS FOR TRADING STOCK FUTURES CONTRACTS

### POSITION LIMITS

- 021A (a) The Chief Executive shall impose position limits on Exchange Participants and their Clients as specified in the Contract Specifications and provided for in the Rules.
- (b) Subject to Rules 629(e) and 630(e), the Chief Executive may, on a case-by-case basis, increase, decrease or remove the position limits imposed pursuant to the Rules by giving notice in writing to the Clearing House, the Exchange Participant and the Commission.
- (c) The Chief Executive shall not be required to give any reasons for his decision to increase, decrease or remove the position limits pursuant to the Rules.
- (d) Failure to comply with the position limits is governed by the Rules.
- (e) Subject to Rules 629(e) and 630(e), the Chief Executive may approve higher position limits for Market Makers.
- 021B Without prejudice to the powers of the Chief Executive under Rules 629(a), 629(c), 630(a) and 630(c), the position limits currently applicable to Hong Kong Stock Futures Contracts are classified into 5 levels, namely 25,000, 20,000, 15,000, 10,000 and 5,000 net contracts, in all Contract Months combined. The applicable level of position limit of a Hong Kong Stock Futures Contract is determined by reference to the following methodology:

The position limit level applicable to a Hong Kong Stock Futures Contract is determined based on its contract-equivalent number and shall be calculated by reference to the market capitalization and liquidity of the underlying stock relating to that Hong Kong Stock Futures Contract.

<b>Contract-equivalent number (X)</b>	<b>Position limit</b>
25,000 contracts $\leq X$	25,000 contracts
20,000 $\leq X < 25,000$ contracts	20,000 contracts
15,000 $\leq X < 20,000$ contracts	15,000 contracts
10,000 $\leq X < 15,000$ contracts	10,000 contracts
$X < 10,000$ contracts	5,000 contracts

where:

$X = 5\%$  of the outstanding shares divided by the Contract Multiplier subject to the provisions set out below:

- (i) if 5% of the outstanding shares is less than 25 % of the stock's turnover for the previous six months (the "25% Threshold"), X shall be deemed to be equal to the 25% Threshold divided by the Contract Multiplier subject to (iii) below;
- (ii) if 5% of the outstanding shares is greater than 33 % of the stock's turnover for the previous six months (the "33% Threshold"), X shall be deemed to be equal to the 33% Threshold divided by the Contract Multiplier subject to (iii) below; and
- (iii) if X as calculated above is more than the Liquidity Threshold divided by the Contract Multiplier, it shall be deemed to be equal to the Liquidity Threshold divided by the Contract Multiplier. "Liquidity Threshold" means 1.34 % of the stock's turnover in the previous six months.

The Liquidity Threshold could be revised from time to time as deemed appropriate by the Exchange.

The position limits will be reviewed regularly on an annual basis to adjust for any substantial changes due to market development. The formula above will be applied to all Stock Futures Contracts at the end of November each year, and if revisions are required, the updated position limits will be announced in December in the same year, and they will take effect on the first Business Day of April in the next calendar year.

Note : The Commission may also impose contract limits under the Ordinance.
