TRADING ARRANGEMENTS – PRACTICES AND SYSTEMS

Error Trades

819B. If a trade takes place on HKATS at a level which deviates from the price parameters from time to time established by the Exchange and notified to Exchange Participants (the “Price Parameters”), the Exchange will entertain claims from any original party to the trade that the price was in error. Such claims shall be entertained only in accordance with the following procedures:

- (a) Any claim that a trade took place at a level which deviated from the Price Parameters, and was an error (“Error Trade”), shall be brought to the attention of the Exchange by any original party to the trade no later than ten minutes after the time of the trade or, if the trade is a Tailor-Made Combination trade, no later than thirty minutes after the time of the trade. Upon receipt of such notification, the Exchange shall immediately broadcast an alert on HKATS that the trade is claimed to be an error and may be subject to cancellation.
- (h) For the avoidance of doubt, no trade that takes place at a level within the Price Parameters, or is reported to the Exchange later than the time specified in Rule 819B(a), is subject to these cancellation provisions.

CHAPTER XII

AUTOMATED TRADING SYSTEM

General Provision

- 1201 (j) An Exchange Participant shall be liable for all orders and F/O Contracts arising from its connection or any connection granted by the Exchange through the Exchange Participant and recorded in the Central Orderbook and the Transaction Register respectively of HKATS or other consequences resulting from the use of such connection, regardless of whether or not such consequences resulted from the use of such connection by its Responsible Officers, Authorized Persons, Remote Access Clients of the Exchange Participant or any person who is allowed to have access to HKATS for performing market making activities.

Recording of Orders

- 1210 Each order shall be validly entered into HKATS at the time when it has been recorded in the Central Orderbook of HKATS relating to the applicable Exchange Contract in respect of which the order has been entered.
- 1211 The recorded details of each order maintained in the Central Orderbook of HKATS shall be conclusive evidence of the terms of each order entered into HKATS. No other evidence shall be admissible or otherwise recognised by any person in relation to determining whether an order has been entered into HKATS or in relation to determining the terms of any such order.
- 1212 Except as otherwise permitted by the Exchange, no Exchange Participant shall, apart from the ability to check its own orders through HKATS, be entitled to have access to any information stored in the Central Orderbook of HKATS or be able to enquire as to, or be entitled to discover, the identity of any person who has entered an order into the Central Orderbook.
- 1213 An Authorized Person of the Exchange Participant may amend and cancel any order which has been entered into the Central Orderbook of HKATS on behalf of a Client or the Exchange Participant provided that the amendment or cancellation is made in compliance with the instructions of that Client or the Exchange Participant, as the case may be, and in accordance with the order number designated in respect of that particular order. The Exchange shall permit the amendment or cancellation of an order in accordance with the Procedures. Notwithstanding any provisions in the Procedures which limit the amendment or cancellation of orders to specified time periods, inactive orders of Clients or the Exchange Participant may be amended or canceled at any time provided that the amendment or cancellation is made in compliance with the instructions of Clients or the Exchange Participant, as the case may be.

Recording of Transactions

- 1215 An F/O Contract shall be executed at the time when an order in respect of an Exchange Contract in a futures delivery month or option series is matched by HKATS with another order in respect of an Exchange Contract in the same futures delivery month or option series and the details of such matched orders relating to the F/O Contract are recorded in the Transaction Register of HKATS. Immediately upon such recording, and provided that the F/O Contract has been validly executed in accordance with these Rules, the F/O Contract shall be subject to the process of novation in accordance with the Clearing House Rules unless otherwise determined by the Exchange. Notwithstanding the foregoing, no matched order recorded in the Transaction Register during the Pre-Market Opening Period of a Market shall be registered with the Clearing House or novated until the opening of the Market and no Block Trade or Tailor-Made Combination trade recorded in the Transaction Register shall be registered with the Clearing House or novated until the Clearing House is satisfied that the recorded Block Trade or Tailor-Made Combination trade is a valid trade and all criteria applicable to it have been satisfied. Unless an Exchange Participant receives any oral or written notice from the Exchange or the Clearing House that a Block Trade or Tailor-Made Combination trade is not valid or not all criteria applicable to it have been satisfied or that it will not be registered with or cleared by the Clearing House for any reason, the Block Trade or Tailor-Made Combination trade shall be deemed to be registered with the Clearing House and subject to the process of novation in accordance with the Clearing House Rules immediately upon the recording of such trade in the Transaction Register. The Exchange will endeavour to notify the Exchange Participant of any issue concerning the Block Trade or Tailor-Made Combination trade within 30 minutes of its execution by the Exchange Participant.

4.3 *Order Amendments and Cancellations*

An Order in a Stock Index Futures Contract or a Stock Index Option Contract entered into the Central Orderbook on behalf of a Client or the Exchange Participant and designated a particular Order number may be amended or canceled provided that the amendment or cancellation is made in compliance with the instructions of that Client or the Exchange Participant, as the case may be, in respect of that particular Order.

Exchange Participants may amend, cancel or inactivate Orders resident in the Central Orderbook (“Valid Orders”) only during trading hours and the period of 30 minutes before the opening of each trading session if the Pre-Market Opening Period is not applicable or the pre-opening session of the Pre-Market Opening Period if the Pre-Market Opening Period applies.

A Valid Order that is amended in connection with a reduction in size, a change in the duration of validity, or modification of optional (“free”) text information shall not affect the time priority of the original Valid Order.

A Valid Order that is amended in connection with price or an increase in size: (i) will result in the loss of time priority of the original Valid Order if the amendment is made during trading hours; and (ii) will result in the loss of time priority of the original Valid Order if the amendment is made during the Pre-Market Opening Period (where the Pre-Market Opening Period is applicable). Amendment in connection with price or an increase in size of a Valid Order is not allowed during the 30 minute period before the opening of a trading session (where the Pre-Market Opening Period is not applicable).

4.5 *Execution of Standard Combinations*

4.5.2 The ranking of Bait Orders shall be in accordance with the time the Bait Orders are generated. A Bait Order whose price is automatically adjusted according to the price movement and/or increase in quantity of the individual market series comprising the standard combination shall be treated as if the Bait Order were newly generated.

4.7 *(deleted)*

4.10 *Creation, Execution and Deletion of Tailor-Made Combinations*

4.10.1 Exchange Participants can define and create a Tailor-Made Combination involving such Stock Index Futures Contracts and/or Stock Index Options Contracts and during such trading sessions as the Exchange may from time to time notify Exchange Participants using the tailor-made combination function of HKATS. Once created, a Tailor-Made Combination can be traded like a normal market series.

4.10.2 Exchange Participants shall ensure that the following criteria are satisfied when creating a Tailor-Made Combination:

- the Tailor-Made Combination is one of the strategy combinations prescribed by the Exchange;
- the number of futures contract month or option series (“legs”) comprising the strategy is within the range prescribed by the Exchange;
- the ratio between these legs is within the range prescribed by the Exchange;
- the contract sizes of these legs must be identical;
- the Tailor-Made Combination is not at that time prescribed as a standard combination; and
- an active Order is submitted at the same time as the creation of the Tailor-Made Combination.

4.10.3 Tailor-Made Combinations created on a Business Day will not be carried forward to the next Business Day.

4.10.4 The executed price of a trade in a Tailor-Made Combination may not necessarily correspond with the prevailing market prices of the Stock Index Futures Contracts or Stock Index Options Contracts comprising the Tailor-Made Combination. The matched trade in the Tailor-Made Combination will be recorded in HKATS as separate trades in the individual market series.

- 4.10.5 The Exchange may from time to time prescribe a maximum number of Tailor-Made Combinations that can be listed on HKATS on a Business Day and a throughput rate for each HKATS connection to create Tailor-Made Combinations to protect the integrity of HKATS and to ensure the proper operation of the Markets.
- 4.10.6 The Exchange may at any time at its sole discretion limit the number of Tailor-Made Combinations an Exchange Participant may create on a Business Day by notice to the Exchange Participant.
- 4.10.7 The Exchange reserves the right to delete any Tailor-Made Combination listed on HKATS and cancel any Order for that Tailor-Made Combination at any time if:

 - (v) the Exchange determines that the Tailor-Made Combination is inappropriate.
- 4.10.8 Any trade in a Tailor-Made Combination that is not created in accordance with the criteria as prescribed in procedure 4.10.2 will not be considered as a valid trade by the Exchange and, notwithstanding any provisions of the Exchange Rules or the Clearing House Rules, will not be registered or cleared by the Clearing House. In the event that an Exchange Participant has been notified by the Exchange that a Tailor-Made Combination trade is invalid on the Business Day during which the Tailor-Made Combination trade is executed, the Exchange in conjunction with the Clearing House will, without being required to give further notice to the Exchange Participant, delete the invalid Tailor-Made Combination trade from HKATS and the “deal file” of the clearing system as if the Tailor-Made Combination trade had never been executed. No action shall lie against and no liability of whatsoever nature and howsoever arising, whether in contract, tort or otherwise, shall be incurred by the Exchange or the Clearing House directly or indirectly in connection with the deletion of any invalid Tailor-Made Combination trade.

3.8.2 Exchange Participants shall ensure that the following criteria are satisfied when creating a Tailor-Made Combination:

- the Tailor-Made Combination is one of the strategy combinations prescribed by the Exchange;
- the number of futures contract month (“legs”) comprising the strategy is within the range prescribed by the Exchange;
- the ratio between these legs is within the range prescribed by the Exchange;
- the contract sizes of these legs must be identical;
- the Tailor-Made Combination is not at that time prescribed as a standard combination; and
- an active Order is submitted at the same time as the creation of the Tailor-Made Combination.

3.8.3 Tailor-Made Combinations created on a Business Day will not be carried forward to the next Business Day.

3.8.4 The executed price of a trade in a Tailor-Made Combination may not necessarily correspond with the prevailing market prices of the Metal Futures Contracts comprising the Tailor-Made Combination. The matched trade in the Tailor-Made Combination will be recorded in HKATS as separate trades in the individual market series.

- 3.8.5 The Exchange may from time to time prescribe a maximum number of Tailor-Made Combinations that can be listed on HKATS on a Business Day and a throughput rate for each HKATS connection to create Tailor-Made Combinations to protect the integrity of HKATS and to ensure the proper operation of the Markets.
- 3.8.6 The Exchange may at any time at its sole discretion limit the number of Tailor-Made Combinations an Exchange Participant may create on a Business Day by notice to the Exchange Participant.
- 3.8.7 The Exchange reserves the right to delete any Tailor-Made Combination listed on HKATS and cancel any Order for that Tailor-Made Combination at any time if:
- (i) the Tailor-Made Combination does not satisfy the criteria as prescribed in procedure 3.8.2;
 - (ii) there is no active Order for the Tailor-Made Combination;
 - (iii) the total number of Tailor-Made Combinations listed on HKATS exceeds the maximum number prescribed and notified to Exchange Participants by the Exchange from time to time;
 - (iv) the Tailor-Made Combination is created by an Exchange Participant which has exceeded the limit imposed on it under procedure 3.8.6; or
 - (v) the Exchange determines that the Tailor-Made Combination is inappropriate.
- 3.8.8 Any trade in a Tailor-Made Combination that is not created in accordance with the criteria as prescribed in procedure 3.8.2 will not be considered as a valid trade by the Exchange and, notwithstanding any provisions of the Exchange Rules or the Clearing House Rules, will not be registered or cleared by the Clearing House. In the event that an Exchange Participant has been notified by the Exchange that a Tailor-Made Combination trade is invalid on the Business Day during which the Tailor-Made Combination trade is executed, the Exchange in conjunction with the Clearing House will, without being required to give further notice to the Exchange Participant, delete the invalid Tailor-Made Combination trade from HKATS and the “deal file” of the clearing system as if the Tailor-Made Combination trade had never been executed. No action shall lie against and no liability of whatsoever nature and howsoever arising, whether in contract, tort or otherwise, shall be incurred by the Exchange or the Clearing House directly or indirectly in connection with the deletion of any invalid Tailor-Made Combination trade.

DEALING FUNCTIONALITY**

4.3 *Order Amendments and Cancellations*

An Order in a Currency Futures Contract entered into the Central Orderbook on behalf of a Client or the Exchange Participant and designated a particular Order number may be amended or canceled provided that the amendment or cancellation is made in compliance with the instructions of that Client or the Exchange Participant, as the case may be, in respect of that particular Order.

Exchange Participants may amend, cancel or inactivate Orders resident in the Central Orderbook (“Valid Orders”) only during trading hours and the period of 30 minutes before the opening of each trading session if the Pre-Market Opening Period is not applicable or the pre-opening session of the Pre-Market Opening Period if the Pre-Market Opening Period applies.

A Valid Order that is amended in connection with a reduction in size, a change in the duration of validity, or modification of optional (“free”) text information shall not affect the time priority of the original Valid Order.

A Valid Order that is amended in connection with price or an increase in size: (i) will result in the loss of time priority of the original Valid Order if the amendment is made during trading hours; and (ii) will result in the loss of time priority of the original Valid Order if the amendment is made during the Pre-Market Opening Period (where the Pre-Market Opening Period is applicable). Amendment in connection with price or an increase in size of a Valid Order is not allowed during the 30 minute period before the opening of a trading session (where the Pre-Market Opening Period is not applicable).

4.4 *Execution of Standard Combinations*

4.4.2 The ranking of Bait Orders shall be in accordance with the time the Bait Orders are generated. A Bait Order whose price is automatically adjusted according to the price movement and/or increase in quantity of the individual market series comprising the standard combination shall be treated as if the Bait Order were newly generated.

In the event that an Exchange Participant has been notified by the Exchange that a Tailor-Made Combination trade is invalid on the Business Day during which the Tailor-Made Combination trade is executed, the Exchange in conjunction with the Clearing House will, without being required to give further notice to the Exchange Participant, delete the invalid Tailor-Made Combination trade from HKATS and the “deal file” of the clearing system as if the Tailor-Made Combination trade had never been executed.
