This Rule 501F(3) shall not apply to direct business transactions concluded during the Pre-opening Session or the Closing Auction Session.

Pre-opening Session

- 501G. (1) Unless otherwise determined by the Exchange, the Pre-opening Session shall comprise four periods in the following sequence:
- (i) the order input period which shall commence at 9:00 a.m. and end at 9:15 a.m.;
 - (ii) the no-cancellation period which shall commence at 9:15 a.m. and end at 9:20 a.m.;
 - (iii) the random matching period which shall commence at 9:20 a.m. and end at any time no later than 9:22 a.m.; and
 - (iv) the blocking period which shall commence at the end of the random matching period and end at 9:30 a.m..
- (1A) The Exchange may prescribe from time to time in its absolute discretion a list of POS securities as eligible for trading in the Pre-opening Session. For the avoidance of doubt, the Exchange may from time to time include any securities in or exclude any securities from the list of POS securities.

- (1B) For the purpose of Rule 501(G)(3), unless otherwise determined by the Exchange,
- (a) the upper price limit means a price which is 15% (or such other percentage as the Exchange may from time to time determine) higher than the POS reference price, rounded down to the nearest spread; and
 - (b) the lower price limit means a price which is 15% (or such other percentage as the Exchange may from time to time determine) lower than the POS reference price, rounded up to the nearest spread.
- (2) During the order input period, at-auction orders and at-auction limit orders each with a specified price that does not deviate more than 15% from the POS reference price may be input into the System provided that each short selling order input into the System during the Pre-opening Session shall be an at-auction limit order and in accordance with Rule 563D(1), 563D(5), 563D(6) or 563D(8). All orders input into the System during the order input period may be amended or cancelled. An auction order that is amended in connection with a reduction in size shall not affect the time priority of the original auction order. An auction order that is amended in connection with specified price or an increase in size will result in the loss of time priority of the original auction order.
- (3) During the no-cancellation period and the random matching period, only at-auction orders and at-auction limit orders each with a specified price:-
- (a) that does not deviate more than 15% from the POS reference price;
 - (b) (in respect of buy orders) within the range of the lower price limit and the higher of the highest bid price and the lowest ask price of the orders recorded in the System at the end of the order input period (if available);
 - (c) (in respect of sell orders) within the range of the upper price limit and the lower of the lowest ask price and the highest bid price of the orders recorded in the System at the end of the order input period (if available); and
 - (d) (in respect of short selling orders to be input into the System during the Pre-opening Session in accordance with Rule 563D(1) only) that is at or above the POS reference price (except where the Designated Security is a Market Making Security approved by the Commission to be excluded from the application of Regulation (15) in the Eleventh Schedule to these Rules),

may be input into the System but no order shall be amended or cancelled.

- (3A) The Exchange has the right to waive the application of Rule 501G(3), including but not limited to on the first day of trading of an issue of securities and upon the resumption of trading of an issue of securities from trading suspension.

- (3B) The random matching period may end at any time, as determined automatically and randomly by the System, no later than 9:22 a.m.. For the avoidance of doubt, the random matching period in relation to all POS securities will end at the same time.
 - (4) Commencing at the end of the random matching period, automatic order matching of the auction orders shall be conducted in accordance with Rule 517(1)(a) and no order shall be input into the System, amended or cancelled. All transactions so concluded based on the methodology specified in Rule 517(1)(a) shall be deemed to have been concluded at the end of the random matching period.
 - (5) During the blocking period, the System shall be static for transition from the Pre-opening Session to the Continuous Trading Session and no order shall be input into the System, amended or cancelled.
 - (6) For the avoidance of doubt, if no POS reference price in respect of a POS security is available, the price limits or restrictions which are made with reference to POS reference price, as referred to in Rules 501G(2) and 501G(3), shall not apply to the orders for the POS securities, unless the Exchange otherwise determines.
- 501H. (1) An IEP will be calculated according to the following rules only if the highest bid price of the buy at-auction limit orders is equal to or higher than the lowest ask price of the sell at-auction limit orders:
- (a) the IEP shall be one of the bid prices or ask prices which falls within the range of the highest bid price of the buy at-auction limit orders and the lowest ask price of the sell at-auction limit orders (inclusive of both prices) at which the aggregate size of the trades to be concluded based on the methodology specified in Rule 517(1)(a) is maximised;
 - (b) if more than one price satisfies Rule 501H(1)(a), the IEP shall be the price at which the normal order imbalance is the lowest. For the purposes hereof, normal order imbalance, in relation to a price, means the difference between the aggregate size of the buy at-auction orders and the buy at-auction limit orders with bid prices at or better than that price and the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price;
 - (c) if more than one price satisfies Rule 501H(1)(b), the IEP shall be-
 - (i) the highest of such prices if in relation to each and every of such prices, the aggregate size of the buy at-auction orders and the buy at-auction limit orders with bid prices at or better than that price is greater than the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price; or
 - (ii) the lowest of such prices if in relation to each and every of such prices, the aggregate size of the buy at-auction orders and the

buy at-auction limit orders with bid prices at or better than that price is smaller than the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price;

- (d) if more than one price satisfies Rule 501H(1)(b) and 501H(1)(c) does not apply, the IEP shall be the price which is the closest to the previous closing price. If two prices are of equidistant from the previous closing price, the IEP shall be the higher of the two prices. However, if the previous closing price is not available, the IEP shall be the highest of such prices.
- (2) If an IEP is calculated in accordance with Rule 501H(1) at the end of the random matching period of the Pre-opening Session, at-auction orders and at-auction limit orders with specified prices at or better than such IEP shall be matched by automatic order matching at such IEP commencing from the end of the random matching period of the Pre-opening Session based on the methodology specified in Rule 517(1)(a).
- (3) If no IEP is calculated at the end of the random matching period of the Pre-opening Session in accordance with Rule 501H(1), there will be no automatic order matching commencing from the end of the random matching period of the Pre-opening Session and the auction orders (if any) shall be dealt with in accordance with Rule 501I as with auction orders which remain wholly or partly unmatched at the end of the random matching period of the Pre-opening Session.

501I. At the end of the random matching period of the Pre-opening Session when automatic order matching is completed, all auction orders which remain wholly or partly unmatched shall be cancelled and deleted from the System automatically except for those at-auction limit orders the specified price of each of which does not deviate 9 times or more from the nominal price at that time. Such at-auction limit orders shall be converted to limit orders at the input specified price and carried forward to the Continuous Trading Session of the same trading day for automatic order matching. The order entry time of such converted limit orders shall be the time the at-auction limit orders were originally entered into the System. If there is no Continuous Trading Session on that trading day for whatever reason, such at-auction limit orders shall be cancelled and deleted from the System at the end of that trading day.

Closing Auction Session

- 501L. (1) The Exchange may prescribe from time to time in its absolute discretion a list of CAS securities as eligible for trading in the Closing Auction Session. For the avoidance of doubt, the Exchange may from time to time include any securities in or exclude any securities from the list of CAS securities.
- (2) The Closing Auction Session shall comprise four periods in the following sequence: (i) the reference price fixing period; (ii) the order input period; (iii)

the no-cancellation period and (iv) the random closing period. The duration of each of the four periods may be prescribed by the Exchange from time to time.

- (3)
 - (a) During the reference price fixing period, the CAS reference price of the CAS securities on that trading day will be calculated and no order shall be input into the System, amended or cancelled.
 - (b) For the purpose of Rule 501L(4), unless otherwise determined by the Exchange,
 - (i) the upper price limit means a price which is 5% (or such other percentage as the Exchange may from time to time determine) higher than the CAS reference price, rounded down to the nearest spread; and
 - (ii) the lower price limit means a price which is 5% (or such other percentage as the Exchange may from time to time determine) lower than the CAS reference price, rounded up to the nearest spread.
- (4) All outstanding buy limit orders for a CAS security each with a specified price of not higher than the upper price limit and all outstanding sell limit orders for a CAS security each with a specified price of not lower than the lower price limit which remain wholly or partly unmatched at the close of the Continuous Trading Session immediately preceding the Closing Auction Session shall be treated as at-auction limit orders at the input specified price and carried forward to the Closing Auction Session of the same trading day for automatic order matching. The order entry time of such converted at-auction limit orders shall be the time the limit orders were originally entered into the System. All other outstanding buy limit orders and sell limit orders for a CAS security which remain wholly or partly unmatched at the close of the Continuous Trading Session shall be cancelled and deleted from the System automatically.
- (5)
 - (a) During the order input period, at-auction orders and at-auction limit orders each with a specified price that does not deviate more than 5% from the CAS reference price may be input into the System provided that each short selling order input into the System during the Closing Auction Session shall be an at-auction limit order and in accordance with Rule 563D(1), 563D(5), 563D(6) or 563D(8). Except as provided in paragraph (b) below, all orders may be amended or cancelled provided that any outstanding short selling order carried forward to the Closing Auction Session that is amended in connection with the specified price shall only be made in compliance with Rule 563D(1), 563D(5), 563D(6) or 563D(8). An auction order that is amended in connection with a reduction in size shall not affect the time priority of the original auction order. An auction order that is amended in connection with the specified price or an increase in size will result in the loss of time priority of the original auction order.
 - (b) An outstanding Securities Market Maker Short Selling order carried forward to the Closing Auction Session pursuant to Rule 501L(4) may be amended in connection with a reduction in size or cancelled. For the

avoidance of doubt, such order shall not be amended in connection with the specified price or an increase in size during the order input period.

- (6) During the no-cancellation period and the random closing period up to the close of the Closing Auction Session, at-auction orders and at-auction limit orders each with a specified price (a) that does not deviate more than 5% from the CAS reference price; (b) (if available) within the range of the lowest ask price and the highest bid price of the orders recorded in the System at the end of the order input period; and (c) (in respect of short selling orders to be input into the System during the Closing Auction Session in accordance with Rule 563D(1) only) that is at or above the CAS reference price (except where the Designated Security is a Market Making Security approved by the Commission to be excluded from the application of Regulation (15) in the Eleventh Schedule to these Rules) may be input into the System but no order shall be amended or cancelled.
- (7) The random closing period may end at any time, as determined automatically and randomly by the System, no later than 4:10 p.m. or 12:10 p.m., as the case may be. For the avoidance of doubt, the random closing period in relation to all CAS securities will end at the same time and the Closing Auction Session will close at the end of the random closing period.
- (8) Commencing at the end of the random closing period, automatic order matching of the auction orders shall be conducted in accordance with Rule 517(1)(a) and no order shall be input into the System, amended or cancelled. All transactions so concluded based on the methodology specified in Rule 517(1)(a) shall be deemed to have been concluded at the end of the random closing period.
- (9) For the avoidance of doubt, if no CAS reference price in respect of an issue of CAS securities is available, the price limits or restrictions which are made with reference to CAS reference price, as referred to in Rules 501L(4), 501L(5) and 501L(6), shall not apply to the orders for the CAS securities, unless the Exchange otherwise determines.

- 501M. (1) An IEP will be calculated according to the following rules only if the highest bid price of the buy at-auction limit orders is equal to or higher than the lowest ask price of the sell at-auction limit orders:
- (a) the IEP shall be one of the bid prices or ask prices which falls within the range of the highest bid price of the buy at-auction limit orders and the lowest ask price of the sell at-auction limit orders (inclusive of both prices) at which the aggregate size of the trades to be concluded based on the methodology specified in Rule 517(1)(a) is maximised;
 - (b) if more than one price satisfies Rule 501M(1)(a), the IEP shall be the price at which the normal order imbalance is the lowest. For the purposes hereof, normal order imbalance, in relation to a price, means the difference between the aggregate size of the buy at-auction orders and the buy at-auction limit orders with bid prices at or better than that price and the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price;

- (c) if more than one price satisfies Rule 501M(1)(b), the IEP shall be-
 - (i) the highest of such prices if in relation to each and every of such prices, the aggregate size of the buy at-auction orders and the buy at-auction limit orders with bid prices at or better than that price is greater than the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price; or
 - (ii) the lowest of such prices if in relation to each and every of such prices, the aggregate size of the buy at-auction orders and the buy at-auction limit orders with bid prices at or better than that price is smaller than the aggregate size of the sell at-auction orders and the sell at-auction limit orders with ask prices at or better than that price;
 - (d) if more than one price satisfies Rule 501M(1)(b) and 501M(1)(c) does not apply, the IEP shall be the price which is the closest to the CAS reference price. If two prices are of equidistant from the CAS reference price, the IEP shall be the higher of the two prices. However, if the CAS reference price is not available, the IEP shall be the highest of such prices.
- (2) If an IEP is calculated in accordance with Rule 501M(1) at the end of the random closing period of the Closing Auction Session, at-auction orders and at-auction limit orders with specified prices at or better than such IEP shall be matched by automatic order matching at such IEP commencing from the end of the random closing period of the Closing Auction Session based on the methodology specified in Rule 517(1)(a). All auction orders which remain wholly or partly unmatched shall be cancelled and deleted from the System automatically at the end of that trading day.
 - (3) If no IEP is calculated at the end of the random closing period of the Closing Auction Session in accordance with Rule 501M(1), the CAS reference price shall be treated as IEP, at-auction orders and at-auction limit orders with specified prices at or better than the CAS reference price shall be matched by automatic order matching at the CAS reference price commencing from the end of the random closing period of the Closing Auction Session. All auction orders which remain wholly or partly unmatched shall be cancelled and deleted from the System automatically at the end of that trading day.
 - (4) If no IEP is calculated at the end of the random closing period of the Closing Auction Session in accordance with Rule 501M(1) and if no CAS reference price is available and treated as IEP pursuant to Rule 501M(3), there will be no automatic order matching at the end of the random closing period of the Closing Auction Session and the auction orders (if any) shall be cancelled and deleted from the System automatically at the end of that trading day.

- 502D. All automatch stocks which are POS securities shall be eligible for trading during the Pre-opening Session and all automatch stocks which are CAS securities shall be eligible for trading during the Closing Auction Session unless otherwise determined by the Board. The Board has absolute discretion at any time to determine the eligibility of any issue of securities for trading during the Pre-opening Session and the Closing Auction Session. Notwithstanding any other provisions contained in these Rules, in the event that any issue of securities is determined by the Board to be not eligible for trading during the Pre-opening Session or the Closing Auction Session, there shall be no terminal activities relating to such issue of securities during the Pre-opening Session or the Closing Auction Session.

538A. (1) In this Rule 538A, unless the context otherwise required:

- (a) “aggregated order” shall mean an order which comprises two or more buy orders and/or sell orders for the same security placed by different clients, which may be executed as an on-exchange order or off-exchange order;
- (b) “CE number” shall mean a central entity identification number assigned by the Commission to a Relevant Regulated Intermediary;
- (c) “client” shall mean a client of a Relevant Regulated Intermediary as defined in paragraph 5.6(m) of the SFC Code of Conduct;
- (d) “on-exchange order” shall mean a buy or sell order for a security which is to be executed on the System;
- (e) “off-exchange order” shall mean a buy or sell order for a security which is to be executed outside the System and the consummation of which would result in an off-exchange trade; and
- (f) “off-exchange trade” shall mean a trade of security which takes place outside the System but is reportable by Exchange Participants to the Exchange pursuant to the Rules.

(2) Pursuant to paragraph 5.6(l) of the SFC Code of Conduct, a Relevant Regulated Intermediary is required to comply with all applicable Rules and other requirements as the Exchange prescribes in relation to the assignment of BCANs and the submission of BCAN-CID Mapping Files to the Exchange (including the notification of any changes, errors and omissions). As such, this Rule 538A shall apply to a Relevant Regulated Intermediary whether or not it is an Exchange Participant. The Exchange may report any breach of these Rules or any other applicable requirements by a Relevant Regulated Intermediary to the Commission.

- (3) A Relevant Regulated Intermediary which is responsible for assigning BCANs, collecting CID and preparing the BCAN-CID Mapping File of its clients in accordance with the requirements under paragraphs 5.6 of the SFC Code of Conduct or otherwise prescribed by the Exchange or the Commission shall submit the BCAN-CID Mapping File to the Exchange in such manner and by such deadline as the Exchange may prescribe from time to time, either directly or through another Relevant Regulated Intermediary.
- (4) Without prejudice to Rule 538A(3), in order to enable an Exchange Participant to input an on-exchange order into the System or report an off-exchange trade for the account of a client on a trading day (“T day”), the Relevant Regulated Intermediary which is responsible for assigning a BCAN to the client shall, either directly or through another Relevant Regulated Intermediary, provide the BCAN-CID Mapping File to the Exchange for validation by the prescribed deadline on or before the previous trading day (“T-1 day”), unless the client is a new client who has opened the trading account with the Relevant Regulated Intermediary on T day or a client whose trading account has been inactive (irrespective of account balance or money movement) for at least 24 months since the last trade, in which case the Relevant Regulated Intermediary shall submit the BCAN-CID Mapping File containing such client’s BCAN and CID to the Exchange by the prescribed deadline on T day.
- (5) A Relevant Regulated Intermediary which is responsible for assigning BCANs and preparing the BCAN-CID Mapping File shall ensure that all information relating to the BCANs and CID in the BCAN-CID Mapping File which it submits to the Exchange is accurate and up-to-date. It shall notify the Exchange when it becomes aware that any information in the BCAN-CID Mapping File has changed, is inaccurate or should otherwise be updated, including where there is a closure of a client account, addition of a new client account, or a change in CID. A Relevant Regulated Intermediary shall report any correction or update of the CID to the Exchange in such manner and by such deadline as the Exchange may prescribe from time to time. A Relevant Regulated Intermediary shall put in place appropriate measures to require its clients to notify the Relevant Regulated Intermediary of any updates to their CID.

Notwithstanding the foregoing, a Relevant Regulated Intermediary shall ensure that the BCANs assigned to its clients will not be changed for a client unless such modification is necessary due to system upgrades or in other exceptional cases, and in such case the Relevant Regulated Intermediary shall report any amendment of the BCAN assignment and the reasons for such amendment to the Exchange in such manner and at such time as the Exchange may prescribe from time to time. A Relevant Regulated Intermediary shall also ensure that the BCANs assigned to its clients will not be re-used, except for a client which has closed and reopened a securities trading account with the Relevant Regulated Intermediary.

- (6) (a) When inputting an on-exchange order (except for an odd lot order), an Exchange Participant shall include the CE number of the Relevant Regulated Intermediary which assigned the BCAN and the BCAN to which the order relates in such manner as the Exchange may prescribe from time to time. An order will be rejected if any of the CE number or the BCAN is missing or is in an invalid format.

- (b) For reporting a direct business transaction (except for an odd lot direct business transaction) into the System as required under Rule 501F or Rule 526, an Exchange Participant shall include the CE number of the Relevant Regulated Intermediary which assigned the BCAN and the BCAN to which the transaction relates for both the buy side and sell side in such manner as the Exchange may prescribe from time to time. Reporting of a direct business transaction will not be accepted by the System if any of the CE number or the BCAN for either the buy or sell side is missing or is in an invalid format.
- (c) For reporting an off-exchange trade (except for an odd lot transaction) into the System as required under Rule 501E or Rule 520, the selling Exchange Participant shall include the CE number of the Relevant Regulated Intermediary which assigned the BCAN and the BCAN for the sell side in such manner as the Exchange may prescribe from time to time. Reporting of a sale transaction will not be accepted by the System if any of the CE number or the BCAN is missing or is in an invalid format.

Within 15 minutes after the selling Exchange Participant input the details of a sale transaction into the System or within 30 minutes after the conclusion of the transaction, whichever is later, and in any event before market close, the buying Exchange Participant shall input the CE number of the Relevant Regulated Intermediary which assigned the BCAN and the BCAN for the buy side in such manner as the Exchange may prescribe from time to time. In the event any of the CE number or BCAN is missing or is in an invalid format, the reporting of the BCAN for the buy side by the buying Exchange Participant will be rejected by the System. If the buying Exchange Participant fails to input the CE number or the relevant BCAN before market close, it shall report the CE number and the BCAN to the Exchange in such manner and by such deadline as the Exchange may prescribe from time to time.

For the avoidance of doubt, an off-exchange trade will be recorded in the System when the selling Exchange Participant completes the input of the sale transaction and will remain valid unless the off-exchange trade is rejected by the buying Exchange Participant before the prescribed deadline, irrespective of whether the buying Exchange Participant has reported the CE number and the BCAN to the Exchange.

- (d) If an on-exchange order or off-exchange order is an aggregated order, unless otherwise prescribed by the Exchange, the Relevant Regulated Intermediary which aggregated the order shall tag a specific reserved BCAN value (as the Exchange may prescribe from time to time) to the order to be submitted to the Exchange. The Relevant Regulated Intermediary shall report each order underlying an executed aggregated order in such form the Exchange may prescribe from time to time on or before market close on the third trading day after the execution of the aggregated order (“T+3 day”). In the event that an aggregated order is partially executed, a Relevant Regulated Intermediary is only required to report the portion of the order that has been executed.

- (e) In the event of any non-compliance by an Exchange Participant of any requirements under this Rule 538A(6), notwithstanding the rejection of any order or non-acceptance of the reporting of any off-exchange trade, the Exchange Participant which fails to input the CE number or the relevant BCAN may be subject to further inquiries and disciplinary action by the Exchange.
 - (f) A Relevant Regulated Intermediary shall put in place appropriate measures to ensure that clients' BCANs or the specific reserved BCAN values (as the Exchange may prescribe from time to time) which are tagged to on-exchange orders or off-exchange trades are correct and valid.
- (7)
- (a) An Exchange Participant which has included an incorrect BCAN (irrespective of whether the incorrect BCAN was tagged by itself or passed on from another Relevant Regulated Intermediary) when inputting an order into the System shall promptly cancel the order through the input of a cancellation request into the System if such order has not been matched or executed by the System. If such order has been matched or executed by the System, the Exchange Participant shall report any correction of BCAN to the Exchange in such manner as the Exchange may prescribe from time to time.
 - (b) In the event that an Exchange Participant has included an incorrect BCAN (irrespective of whether the incorrect BCAN was tagged by itself or passed on from another Relevant Regulated Intermediary) in an off-exchange transaction, the Exchange Participant which inputs the incorrect BCAN shall report any correction of BCAN to the Exchange in such manner as the Exchange may prescribe from time to time. If the transaction which includes an incorrect BCAN has been rejected by the buying Exchange Participant, the selling Exchange Participant shall re-input the off-exchange transaction with a correct BCAN into the System, and no reporting of the BCAN correction shall be required.
 - (c) A Structured Product Liquidity Provider which has included an incorrect BCAN to a quote shall amend such incorrect BCAN directly from the System without cancelling the quote. However, the relevant Structured Product Liquidity Provider shall also report the amendment activity to the Exchange in such manner as the Exchange may prescribe from time to time.
- (8) A Relevant Regulated Intermediary shall ensure that all necessary authorizations and written or other express consents are obtained from each existing and new individual client regarding the collection, storage, processing, use, disclosure and transfer of personal data in relation to such client's BCANs and CID, including authorizations and consents which:
- (a) allow the Relevant Regulated Intermediary to disclose and transfer the client's personal data (including BCANs and CID) by the Relevant Regulated Intermediary to the Exchange and/or the Commission in accordance with the rules and requirements of the Exchange and the Commission in effect from time to time;

- (b) allow the Exchange to: (i) collect, store, process and use their personal data (including BCANs and CID) for market surveillance and monitoring purposes and enforcement of these Rules; (ii) disclose and transfer such information to the relevant regulators and law enforcement agencies in Hong Kong (including, but not limited to, the Commission) so as to facilitate the performance of their statutory functions with respect to the Hong Kong financial markets; and (iii) use such information for conducting analysis for the purposes of market oversight; and
- (c) allow the Commission to: (i) collect, store, process and use their personal data (including BCANs and CID) for the performance of its statutory functions including monitoring, surveillance and enforcement functions with respect to the Hong Kong financial markets; and (ii) disclose and transfer such information to relevant regulators and law enforcement agencies in Hong Kong in accordance with applicable laws or regulatory requirements,

in each case in full compliance with all applicable laws including the Personal Data (Privacy) Ordinance and such that any subsequent purported withdrawal of authorization or consent by an individual client will not affect the continued storage, processing, use, disclosure and transfer of personal data for the above purposes.

- (9) If the necessary authorizations and consents under this Rule 538A(8) from an individual client in relation to the collection, storage, processing, use, disclosure and transfer of the BCANs and CID as required under these Rules cannot be obtained by a Relevant Regulated Intermediary or are otherwise invalid or deficient, the Relevant Regulated Intermediary shall not submit any BCAN or CID of that client to the Exchange, and the Exchange Participant executing the on-exchange order or off-exchange order shall only input sell orders in respect of existing holdings of securities for that client (but not any buy orders) into the System or report sale transactions for the account of such client. A specific reserved BCAN value (as the Exchange may prescribe from time to time) should be tagged to such sell order or sale transaction. Subject to the requirements under paragraph 5.6 of the SFC Code of Conduct, the Exchange may impose such criteria, conditions and requirements as the Exchange may in its sole discretion consider appropriate from time to time to determine the orders and transactions which may be allowed to be inputted into the System for such client under such circumstances.
- (10) Each Relevant Regulated Intermediary shall implement appropriate and effective measures and take all reasonable steps to ensure compliance with the requirements set out in this Rule 538A and any other requirements pertaining to investor identification as the Exchange may prescribe from time to time.
- (11) In addition to any other powers that the Exchange may have under these Rules, the Exchange may at any time require an Exchange Participant to provide the Exchange with such information as it may request to assess whether there is, or the extent of, any non-compliance with the requirements set out in this Rule 538A.

RMB Trading Support Facility

The TSF

563F. Rules 563F to 563S which relate to the TSF are binding on Exchange Participants which have been registered as TSF Exchange Participants.

HKSCC may, as TSF operator, provide FX Services to TSF Participants for the purpose of facilitating the purchase and sale of TSF Stocks traded on the Exchange based on the following principles:

- (1) HKSCC may provide FX Services to TSF Exchange Participants for the conversion of HKD to RMB (to support TSF Buy FX Orders and TSF Buy FX Transactions) and for the conversion of RMB to HKD (to support TSF Sell FX Orders and TSF Sell FX Transactions);
- (2) TSF Exchange Participants which place a TSF Buy FX Order accept that the funds in RMB which HKSCC may provide under the FX Services shall be applied towards the purchase of the relevant TSF Stocks only and accordingly shall only be used for the purposes of settling the corresponding TSF Buy Exchange Trade, when effected on the System;
- (3) For the clearing and settlement of TSF Exchange Trades and for the settlement of the corresponding TSF FX Transactions, in accordance with Rule 901(ia) of the HKSCC Rules, the rights and obligations of a TSF Exchange Participant under or in relation to a TSF Exchange Trade and the corresponding TSF FX Transaction shall be assumed and taken up, as principal, in substitution for, and with exactly the same rights and obligations under the TSF Exchange Trade and the corresponding TSF FX Transaction, by the TSF Clearing Participant which has been designated by the TSF Exchange Participant for clearing TSF Exchange Trades; and where a TSF Exchange Participant is itself a TSF Clearing Participant, such rights and obligations shall be assumed by it as CCASS DCP under the HKSCC Rules;
- (4) For the purposes of providing the FX Services and fulfilling its obligations arising from the provision of such services, HKSCC may acquire RMB from, and sell RMB to, one or several TSF Partner Banks on a principal-to-principal basis. Subject to obtaining such RMB funding from TSF Partner Banks, HKSCC may provide the FX Services to TSF Participants also on a principal-to-principal basis. Accordingly, the provision of FX Services for a TSF FX Order and for the settlement of a TSF FX Transaction is conditional and dependent on the relevant TSF Partner Bank providing FX rates to HKSCC and delivering to HKSCC the relevant funds in RMB or HKD, as the case may be;
- (5) TSF Stocks purchased with the support of the TSF shall be earmarked as such; held in specially designated accounts of TSF CCASS Participants as prescribed by the HKSCC Rule; and be subject to restrictions on transfer to other accounts and withdrawal of share certificates from CCASS;
- (6) TSF Participants wishing to sell earmarked TSF Stocks shall, subject to exceptions, be obliged to sell such TSF Stocks through the use of the TSF and to accept the sale proceeds of such TSF Stocks in HKD;

- (7) The sale of earmarked TSF Stocks through the use of the TSF will result in the de-earmarking of the TSF Stocks. The process of earmarking and de-earmarking of TSF Stocks is set out in the HKSCC Rules;
- (8) In the event that HKSCC is unable to obtain RMB or HKD from TSF Partner Banks, HKSCC shall have the option to exercise its relevant powers under the HKSCC Rules without obtaining the prior consent of any person; and
- (9) The terms and conditions for the provision of the FX Services as set out in Rules 563F to 563S may be amended by the Exchange (in consultation with HKSCC) from time to time. TSF Exchange Participants agree and acknowledge that HKSCC may impose additional requirements or special conditions on the provision of the FX Services whenever it considers appropriate. Further, TSF Exchange Participants agree and acknowledge that HKSCC and the Exchange may vary, modify, waive or disapply these Rules and the HKSCC Rules to suit the circumstances of a particular situation as a variety of circumstances may exist which require it to make ad hoc decisions in relation to the operation of the TSF. Specifically, HKSCC has the power to suspend or cease to provide the FX Services temporarily or permanently in its sole and absolute discretion.

TSF Stocks

- (2) HKSCC shall not be responsible for any failure to provide the FX Services for any TSF FX Orders or TSF FX Transactions if its performance is prevented, hindered or delayed by the failure of one or more TSF Partner Banks to provide the FX rates to HKSCC or to sell or purchase RMB which leads to a suspension or cessation of operation of the TSF in accordance with the HKSCC Rules.

Substitution Process

Where one of the parties to a TSF Exchange Trade is a TSF Exchange Participant which is not a CCASS Clearing Participant, the CCASS GCP of that TSF Exchange Participant designated for clearing such TSF Exchange Trade of that TSF Exchange Participant shall become a party to the TSF Exchange Trade and the corresponding TSF FX Transaction as principal in substitution for, and with exactly the same rights and obligations under the TSF Exchange Trade and the corresponding TSF FX Transaction as, that TSF Exchange Participant at the same time as the relevant TSF Exchange Trade is effected on the System.

Temporary Suspension of TSF

- 563Q. (1) HKSCC may temporarily suspend all or any part of the FX Services in its sole and absolute discretion, including, without limiting the foregoing, when:
- (a) in the judgement of HKSCC, the FX Services or any part thereof may not be maintained or provided in a manner that would ensure the existence of a fair and orderly market;
 - (b) in the judgement of HKSCC, it has reasonable grounds for concern that the RMB and/or HKD funding available to HKSCC may not be sufficient to support the fulfilment of its obligations under, or to support the settlement of, any or all TSF FX Orders or TSF FX Transactions; or
 - (c) in the judgment of HKSCC, there are operational or technical issues which must be resolved prior to the continuation of the TSF or any part of the FX Services.

- (2) In exercising its judgement under this Rule, HKSCC is entitled to have regard to all relevant factors and circumstances including, without limitation, the availability of RMB and/or HKD in the market and the relevant FX rates, the demand for FX Services, the TSF Partner Banks' individual or aggregate commitment to provide FX rates or funding to HKSCC for the purposes of operating the TSF, the level of utilisation of such committed funding by HKSCC, whether a TSF Partner Bank has failed to provide committed funding and a TSF Partner Bank's willingness to be bound by, or its ability to perform, its obligation to provide FX rates or funding to HKSCC as agreed.
- (3) If HKSCC decides to suspend all or part of the FX Services, it shall publish an announcement, on the HKEX website and/or by such other means as HKSCC considers appropriate, stating which part of the FX Services will be suspended, whether any TSF Exchange Trade, TSF FX Transaction or Stock Release FX Transaction will be affected, the effective date and time of suspension and any other information as HKSCC shall consider appropriate.
- (4) Unless HKSCC otherwise determines or specifies:
 - (a) a suspension of part of the FX Services does not affect the availability of other FX Services. Specifically, a suspension of the FX Services for TSF Buy FX Orders does not affect FX Services for TSF Sell FX Orders, and a suspension of the FX Services for TSF Buy FX Transactions does not affect the FX Services for TSF Sell FX Transactions and vice versa;
 - (b) where the FX Services for TSF Buy FX Orders are suspended, all TSF Buy FX Orders input on the System and all TSF Buy FX Transactions generated after the effective date or time of the suspension shall not be dealt with or settled by HKSCC; and
