6. A Market Maker in providing continuous quotes shall not be assigned less than 50 option series in an option class as may be determined by the Exchange from time to time. For each assigned option series, a Market Maker in providing continuous quotes shall provide quotes for not less than 50 percent of the trading hours of an option class in a month.
7. Market Makers will be entitled to a reduced trading tariff as set forth in Appendix A to the Operational Trading Procedures upon meeting the market making obligation requirements on a monthly basis.

9. In assessing the rate of a Market Maker in responding to quote requests and the rate of a Market Maker in providing continuous quotes for the purpose of Rule 8, the Exchange may, in its absolute discretion, take into account all the relevant circumstances including but not limited to the general conditions of the cash market and/or the options market, either as a whole or of a specific option class.

The declaration that there is no longer an Unusual Market Condition will also be made by such announcement. An Unusual Market Condition may be declared in circumstances including, but not limited to, where there is unusual trading activity or volume in any option class(es) or where conditions which deviate from the normal operation of any option class(es) are determined by the Chief Executive to exist.
